

ARMY FOOTBALL HONORS GO TO 89TH DIVISION

Will Represent Army of Occupation at Meet Near Paris

Coblenz, Feb. 28.—By their defeat of the football team of the Fourth division yesterday, the 89th division became champions of the Third army, and to the 89th falls the honor of representing the army of occupation at the A. E. F. Olympic games at the spring meet near Paris. The score was 14 to 0.

Major General Dickman and his staff and a number of British and French officers attended the game, as well as about 15,000 officers and soldiers. Before the game began six aviators entertained the spectators by looping the loop and spiral dives. Directly over the gridiron was an elephant observation balloon, which

did duty in the Argonne during the last days of the war, and from the basket Colonel John H. H. Fowler, chief of the aviation service, and another officer witnessed the game. From the guy ropes of the balloon hung an American flag nearly as large as the balloon itself.

It is estimated that more than 300,000 francs changed hands in pools and individual bets on the result. The Fourth division players concede that their defeat was due to the better team work of the 89th, coached by Captain Paul Withington, of Cambridge, Mass., who played left guard.

House Moves to Kill New Tax on Clothing

Washington, Feb. 28.—Repeal of the semiluxury tax clause in the war revenue bill signed Monday night by the president was proposed in a resolution approved yesterday by the House ways and means committee and later introduced by Chairman Kitchin. The clause provides for a tax of 10 per cent. after May 1 on wearing apparel and many other articles costing above specific sums. Quick action on the measure is expected, with House leaders hopeful that the Senate will act before adjournment next week.

GOVERNORS TO DISCUSS MANY BIG PROBLEMS

Will Meet at White House Next Week For a Conference

Washington, Feb. 28.—Effect of validating informal war contracts on business generally, public land development, good roads, resumption of private building and foreign and domestic trade will be among subjects to be discussed at the White House conference next week of State governors and mayors of the large cities of the country.

After President Wilson delivers his address at the opening session of the conference Monday, Secretaries Baker and Daniels are expected to present the administration's policy with regard to the liquidation of informal contracts. A general discussion of the subject will follow.

At the afternoon session Monday, according to the program announced last night, the governors will report as to business and labor conditions in their states. Tuesday morning Roger W. Babson, director general of the department's information bureau, will speak on the efforts of the government to stimulate business, and the mayors will report conditions in their cities.

A total of ninety mayors have accepted Secretary Wilson's invitation to attend the conference and thirteen others will send representatives. Four additional governors today accepted the invitation, making sixteen in all. Thirteen others will be represented either by the lieutenant governors or some other official.

Penrose Feels Congress Should Be in Session; Indicates Party Stand

Washington, Feb. 28.—Senator Penrose last evening intimated that the Republicans would force an early extra session in a statement in which he said it would be wise to have Congress in session during the peace conference.

"It is absolutely necessary to the interest of the country that Congress should be in session without any real break," said Senator Penrose. "There is too much to be done in the way of reconstruction, nothing towards which has been done by the Democrats, for Congress to go away next week until the last of June. The administration cannot expect Congress to do the unheard of thing of giving the Secretary of the Treasury power to fix interest rates. This has never been in the history of the government. The interest rates can be fixed by an act of Congress by the latter part of March if Congress were called into session on March 15."

"The administration is conducting its finances in the most wasteful and unbusiness-like methods. Just the other day the Secretary of the Treasury furnished the committee with his final estimates for the present fiscal year calling for nearly \$19,000,000,000. Within twenty-four hours we learn that the Secretary of War asks for \$900,000,000 deficiency fund, and the Secretary of the Interior demands \$100,000,000 for reclaim lands, which there are a million acres of land reclaimed and unsettled at present."

"The first thing I intend to do in the next Congress is to introduce a bill requiring that all estimates shall come from the Secretary of the Treasury. This will establish a sort of budget system."

Y. M. C. A. Man Drops Into Murder Case

New York, Feb. 28.—A Watson appeared on the scene of the George H. Robes murder, 288 Madison avenue, yesterday, but had not the foresight to bring his Sherlock

Holmes along, so he fell heavily into the arms of the law. The young man was Alexander P. Watson, of Knoxville, Tenn., a Y. M. C. A. overseas secretary, just arrived from France. He had been in town barely three hours and was strolling along Madison avenue, when he saw Patrolman Thomas Duane. He

had no suspicion he was intruding on a mystery case, and, thinking to interest the policeman, produced a small revolver, which he called a "kramer gun," taken from a German officer.

Patrolman Duane had no curiosity that was not entirely professional. He led the secretary promptly off to the West Thirtieth street station and

later appeared with him in Jefferson Market court. Watson was arraigned for violation of the Sullivan law, but was released when he showed the weapon in court and said there were no bullets made to fit it on this side of the Atlantic. The weapon was small enough to fit the palm of the hand and was not visible a short distance away.
