

### PUT GASOLINE IN MILK OF CUT RATE DEALERS

Inquiry Reveals Methods Employed to Keep Prices Up in New York

By Associated Press  
New York, March 7.—Use of "hydraulic pistons" loaded with gasoline to interfere with cut rate milk dealers in this city was described by Samuel Morosoff, an independent dealer, at the "John Doe" milk inquiry before Magistrate McAduo. Morosoff testified that he was selling bulk milk at one-cent a quart less than the larger distributors and that several efforts had been made to hamper his business. Last Monday, he declared, an automobile drew up beside his wagon as he was removing the cover from a large can of milk and "fired" gasoline into the can, spilling its contents. On another occasion, he testified, a bolt had been removed from his wagon while he was making a delivery, making further use of the wagon impossible until it had been repaired. Magistrate McAduo ordered an investigation when Morosoff declared a policeman to whom he had complained refused to take any action.

### Mifflin County Must Pay Half in Rebuilding Road

Lewistown, Pa., March 7.—When the delegation of the Lewistown Chamber of Commerce met Highway Commissioner Lewis Sadler, at Harrisburg, on Wednesday and talked of the building of a road from Lewistown to McVeytown, a distance of twelve miles, in Mifflin county, "fifty-fifty" was the ultimatum handed to them. The two strong points of the committee was that the road is on the original William Penn highway and has been marked for more than a year as in a condition almost unfit for travel and the state was urged to build a road at its own expense. The Highway Commissioner pointed out that there is a road in Mifflin county running from Reedsville by the way of Belleville on to Huntingdon and that it would not be good policy for the department to construct a permanent road over this route when other communities with poorer roads than Mifflin county are asking for roads. The Commissioner said that Mifflin county has been better treated in the matter of good roads than any other county in the state.

**CALLS U. S. AN AUTOCRACY**  
Washington, March 7.—Declaring that the United States had become the greatest autocracy in the world, and urging that power be returned to the people, Lieutenant-Governor John G. Oglesby, of Illinois, aroused the conference of governors and mayors in session at the White House here to consider reconstruction problems.

**LIQUOR CLERKS EXHAUSTED**  
New York, March 7.—Eighty-seven more shopping days until dryness. New York liquor clerks are exhausted. Some stores are cleaned out of bottled goods and patrons are making human flasks of themselves.

## Fashions In Types Unusual, Dignified and Refined

### Try to come in Saturday

—We have a great many new spring suits and top coats to show you that will give you a fine idea of the styles we offer men who like to dress correctly.

—It is not necessary to give descriptions of materials and colors and patterns here because you would not really appreciate their beauty in newspaper type.

—But it will be a great pleasure to you to see the actual garments for we have something important about them to show you.

—This important feature is the tailoring.

—Our clothes are tailored fine in every detail. No part is too small to be neglected—not the inside parts that you cannot see nor the outside that you can see.

—Tailoring makes the suit. A suit manufacturer of clothes can get materials, but not every one can have them tailored right.

—Something to think about, isn't it?
