

Bellevue Park Residents Hold Annual Meeting

The annual meeting of the Bellevue Park Association was held last evening at the home of Mr. and Mrs. W. M. Russ, 2112 Chestnut street, with Miller I. Kast, president, in the chair. A board of directors was elected for the ensuing year, as follows: J. Horace McFarland, Louis F. Haehnel, Nathan E. Hause, Walter E. Dietrich, Miller I. Kast, F. E. Aldinger and Harold A. Hipple.

CLEAN HOUSING IS SAID NECESSARY

[Continued from First Page.] The city to the State authorities who have picked Harrisburg, from all cities of the State, as the one place to try out the proposed system for making a model city. Colonel Martin is an impressive figure and he looks the man of authority. For many years a personal friend of Governor Sprull, he won distinction during the war as chief of the Walter Reed Hospital at Washington where 2,500 overseas cases were handled. "Here we are" was his attitude. "The State Department of Health is ready to help Harrisburg. We pick you because you are just a little ahead, something above the average in all branches of progress. What are you going to do?"

WILSON TO SAIL FOR U. S. APRIL 27 OR 28

Paris, April 15.—President Wilson intends to sail for the United States on April 27 or 28, after being present at the opening meeting of the peace congress at Versailles, the Echo de Paris says to-day. After his departure Colonel E. M. House will act for him, the newspaper adds.

300 WOMEN PLAN AT NOON LUNCH

COMMUNISTS SLAY THREE LEADERS

[Continued from First Page.] mter, remaining in office until January 27, 1918. Even after this time he remained in nominal control until April 18, 1918, when Count Tisza was appointed premier. Following the assassination of Count Tisza, Dr. Wekerle was again appointed premier and remained in office until October 10, 1918. He was arrested at Budapest on February 25, last, being charged with participation in a revolutionary plot. Because of his advanced age, he was later freed from prison, but was interned in Budapest. On March 25 he was arrested by the communist government of Hungary.

LEIB WILL BE TRIED IN PHILADELPHIA COURT

Reports that the trial of William S. Leib, former resident clerk of the House of Representatives, against whom charges of forging receipts for state taxes have been lodged by Attorney General W. L. Schaffer, would be transferred to Dauphin county, were denied to-day by the Attorney General. The warrant for Leib's arrest was issued in Philadelphia and he waived a hearing before a Philadelphia magistrate. It was said that there is no evidence to show that the signatures were attached in Dauphin county, but that inasmuch as the receipts were presented by Leib in Philadelphia, the proceedings were instituted there.

PRELIMINARY HEARING IN INJUNCTION SUIT

The preliminary hearing in the injunction suit filed by Postmaster General Burleson to prevent officials of the commonwealth from instituting proceedings to stop the telegraph and telephone companies, exclusive of the Bell, from collecting increased rates in Pennsylvania as ordered by Postmaster General Burleson, will be held in the Federal Court in Pittsburgh next Monday. The Attorney General will represent the state at the hearing.

Does Your Husband Drink? Druggist Tells How to Cure the Liquor Habit at Home

one powder twice a day in coffee, tea, or any kind of liquid. It is harmless, tasteless, colorless and cannot be detected. You can use it without the knowledge of anyone. A lady who recently tried it on her husband reports: "My husband was on a spree when I got the powder and he usually stays drunk from three to four weeks at a time. After putting the powder in his coffee for four days he sobered up and has not taken a drink since and says he is through with it forever. He also complained that whiskey did not taste the same. I shall not tell him what I did, but I am grateful for this help and I shall recommend it whenever possible."

Notorious Examples

"We seem to have a regular ace of a city," was the consensus of opinion as heard from one prominent citizen who had listened closely to the gamut of praise showing what progress had been made here in the last fifteen years and how keen the citizens are to continue the progress. Dr. John Molitor, chief of the Bureau of Housing, pointed out that housing evils here were not notorious. For example he emphasized that at Twelfth and Monroe streets, a house was occupied by twenty-six families, with two outside hydrants and filthy toilets. Dr. Hamilton street, four overcrowded families moved out of one house, but seven moved in; he identified as squalid living spots Cowden street, North Seventh, Monroe, North Tenth, Indian alley and South Ninth. "The State," he promised, "will shortly make a survey of the entire city and put the situation up to your eyes. In the years ago you saw great activity start here; you secured paving, water front and parks. You must not stop now."

Washington, April 15.—Four destroyers, the Manley, Rathburne, Talbot and Dorsey have left for the Azores to escort the presidential ship George Washington when she returns from overseas. Acting Secretary Roosevelt said to-day that the transport was due at Brest on the evening of April 19.

Announcement also was made that the super-dreadnaught Arizona had replaced the Mississippi as the escort flagship for the George Washington.

Major Leo Gans, chief of the Venereal Section, urged the establishment of prophylactic stations for civilians similar to those conducted by the army for the soldiers. He felt that the most suitable product of the war would be the experience in checking the incident of venereal diseases. It is to be done by education, and by regarding and treating every vacant room as a danger zone.

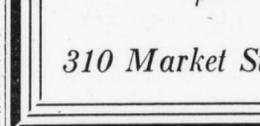

Danger From Flies

Dr. John Miller, public health educator, gave some exciting facts regarding the fly as pest but did not agitate Mrs. William Henderson, who wit hothers of the Civic Club, smiled in response. Mrs. Henderson with some exultation reported that the Civic Club campaign had been going eight years and that last season's kill amounted to eighteen bushels. Dr. Miller made the fly out to be the rankest joy killer and all-round demon on earth; and begged all hands to kill, kill, kill. He said that the city use borax in stables where horses are kept, but hopes this will not be necessary very long as by actual count he finds that there are only 500 horses left in the city.

Free Prescription Can Be Filled At Any Drug Store and Given Secretly.

H. J. Brown, a Cleveland man, was for many years a confirmed drunkard. His friends and relatives despaired of ever redeeming him. His sister sought the best medical men in Europe in the hope that she might find something which would cure him. Finally she was recommended to an eminent chemist, who gave her a private formula (the same as appears below) and told her how to use it. She had it filled at a drug store and gave it to him secretly. The results were startling. In a few weeks he was completely cured. That was over ten years ago and he has not touched a drop since. He now occupies a position of trust and is enthusiastic in his efforts to help others overcome the liquor habit. He feels that he can best do this by making public the same formula which cured him. Here is the prescription: Go to any first-class drug store and get prepared Tescum Powders. Drop

Fighting Living-Cost with Gasoline Everything that facilitates the movement of merchandise works toward economy. The motor-truck, through its efficiency as a carrier, directly affects living-cost. Quicker distribution means cheaper distribution. Cheaper distribution means lower prices. Motor-trucks are moving on every highway, carrying from point-of-origin to point-of-consumption, Merchandise, Produce, Meats, Milk, Iron, Steel, Cement, Petroleum, Coal and all produce of natural resource or of factory production. Power is the essence of motor-truck efficiency. Motor-truck owners are business-men and, when they buy gasoline, they buy with one idea in mind—Power. Atlantic Gasoline is the accepted fuel. This is not a mere statement. It is a fact demonstrated by our records which show a preponderance of Atlantic Gasoline consumption among owners and operators of motor-trucks, whether in large fleets or by individual users. For the same reason that Atlantic Gasoline puts power in the motor-truck, it puts pep in the engine of the automobile. Atlantic Gasoline is the fuel of economy and efficiency.
