

POLICE RECOVER STOLEN AUTOS IN FEW HOURS

Four Men Arrested Charged With Theft of Touring Car

Two automobiles, stolen in Harrisburg within the past 24 hours, have been recovered. A large touring car belonging to Ray S. Shoemaker, 2108 Walnut street, stolen shortly after 9 o'clock last night was recovered in Reading this morning and an automobile taken from the garage of W. S. Spangler, 1931 Logan street, about 7:30 last night, was recovered a short time afterward.

The Shoemaker car was taken from Second and Pine streets, where it had been parked last night. This morning Reading police officials recovered the car and took into custody Edward Lentz, 1630 Derry street, and R. O. Carroll, 1602 Derry, who are said to have been in the car at that time. Detective John Muriano has gone to Reading to bring them back to this city for a hearing.

Edward Keiser, a former Pennsylvania taxi driver, was taken into custody by local officials for taking the Spangler car. Keiser is alleged to have taken the car from the Spangler garage about 7:30 last night and to have proceeded to Fishman's Garage. There he is said to have ordered eighteen gallons of gasoline placed in the car and charged to Charles Scandali, who conducts the Penn-Harris taxi service. It was believed that he was no longer in Scandali's service and police officials were notified.

A third automobile, stolen in Huntingdon, was located in New Buffalo this morning. This automobile is said to have been stolen from Huntingdon on Tuesday and on Wednesday it was left by two negroes at the farm of a man by the name of Motter near New Buffalo.

CRIPPLE WHIPS THUG TRIO Shenandoah, May 16.—Although hopelessly crippled, hard of hearing and with but one leg, Elias Jordan, of Lost Creek, a suburb, gave battle to three highwaymen on his way home last night and finally drove them off by successful wielding of his crutch and cane but not before he had been brutally beaten.

Jordan had \$100 in his pockets, the receipts of his day's work at his small store, which the robbers were after but failed to get.

LABOR REFUSES TO SUPPORT RULE OF RUSSIA

Federation Makes Plans For New Political Party to Be Launched Next Year

James H. Maurer, of Reading, and Charles F. Quinn, of this city, were elected president and secretary-treasurer, respectively, without opposition, at the eighteenth annual convention of the Pennsylvania Federation of Labor. Ballots were taken at the morning session for the other offices, but results were not announced until the afternoon session.

State's Policy Outlined Absolute fairness, both to labor and to the employing class, is the policy of the Department of Labor and Industry, Clifford B. Connelley, acting commissioner, said in outlining the policy of the department. Labor will receive courteous and fair treatment at all times, but it must not expect to have the rights of the employing class infringed on, he said.

The department is ready to operate at all times in order to provide sanitary conditions for workers in every industrial establishment, a party to his work at all times to bring about this result, he declared. It is to be desired that the State Federation and the department work in co-operation that they may aid in shaping the policies of the other Labor laws in general were considered.

The committee on organization recommended that every effort be made during the succeeding year to secure the affiliation of practically every labor organization of the State. The work of the officials in securing the large affiliation during the past year was commended.

Plan Labor Party Resolutions favoring the organization of a new labor party in Pennsylvania through which it is hoped to secure greater political action as it concerns labor, were adopted before the close of yesterday's session. The executive committee was instructed to outline principles of such a party to be considered at a special convention to be called next January. This resolution was passed at the instigation of the Pennsylvania Lodge, International Association of Machinists, which passed a similar resolution at its meeting earlier in the week.

Resolutions were passed in favor of the Schantz bill which provides for a forty-eight hour week for women, in favor of a constitutional convention and in favor of equal pay for equal work by schoolteachers. A resolution endorsing the Soviet government in Russia, was introduced but was referred for action to the convention of the American Federation of Labor which will meet in Atlantic City next month.

It has been decided to have a Soviet resolution in effect endorsing the Red government by demanding that the United States remove the blockade on Russian ports and permit the Soviet government to purchase supplies and foodstuffs in the open market.

Several delegates supporting the resolution made speeches supporting the Socialist party which was rebuked by the presiding officer for not keeping to the subject in hand. Thomas Kennedy, chairman of the resolution committee, refuted their arguments and said that his committee would not support anything that smacked of censure for the American form of government.

The committee confer with Governor Sproul relative to the refusal of the Mayor of McKeesport to permit the Federation of Labor to hold meetings in that city. It will be urged on the Governor, it was decided, to bring pressure to bear on Mayor Lysie to permit the meetings, on the grounds that it was struck a curtailment of the right of free speech.

Trade unionists, whether Mayor Lysie permits or not, have made arrangements for a big meeting at McKeesport on May 18.

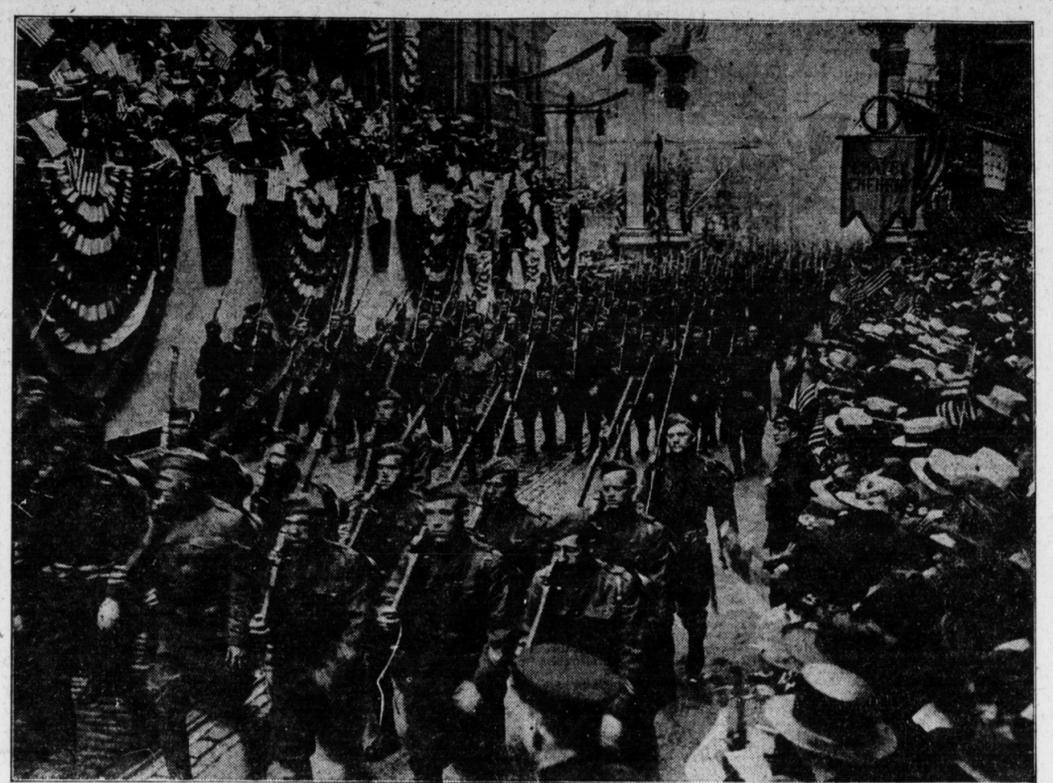

Must Order Nitrate Shipped Before June 1

Washington, May 16.—Farmers who have ordered nitrate of soda from the Department of Agriculture must have their orders for shipment reach Washington by June 1, it was announced today. All shipping orders received after this date will be canceled according to the Department's Bureau of Markets, which states that it is necessary to conclude distribution of the nitrate of soda and close the arrangement with the War Department through which the nitrate was secured.

Coasting No Nuisance, Is Decision of Court

Bloomburg, Pa., May 16.—President Judge John G. Hartman, of Columbia county, sustained the motion for a nonsuit in the case of W. E. Creasy vs. the Borough of Catawissa. Creasy sued because his horse was fatally injured when it was struck by coasters in the Catawissa streets last winter. Judge Hartman ruled that coasting is not a nuisance and that its regulation is entirely within the police powers of the municipality.

FREE MEN OF 28TH IN UNITS

Plan Gives the Local Committees Opportunity For Celebrations

Camp Dix, N. J., May 16.—In order that local committees may arrange welcome celebrations, the demobilization department of Camp Dix announced that arrangements have been made to discharge the men of the 28th division by regiments and other units.

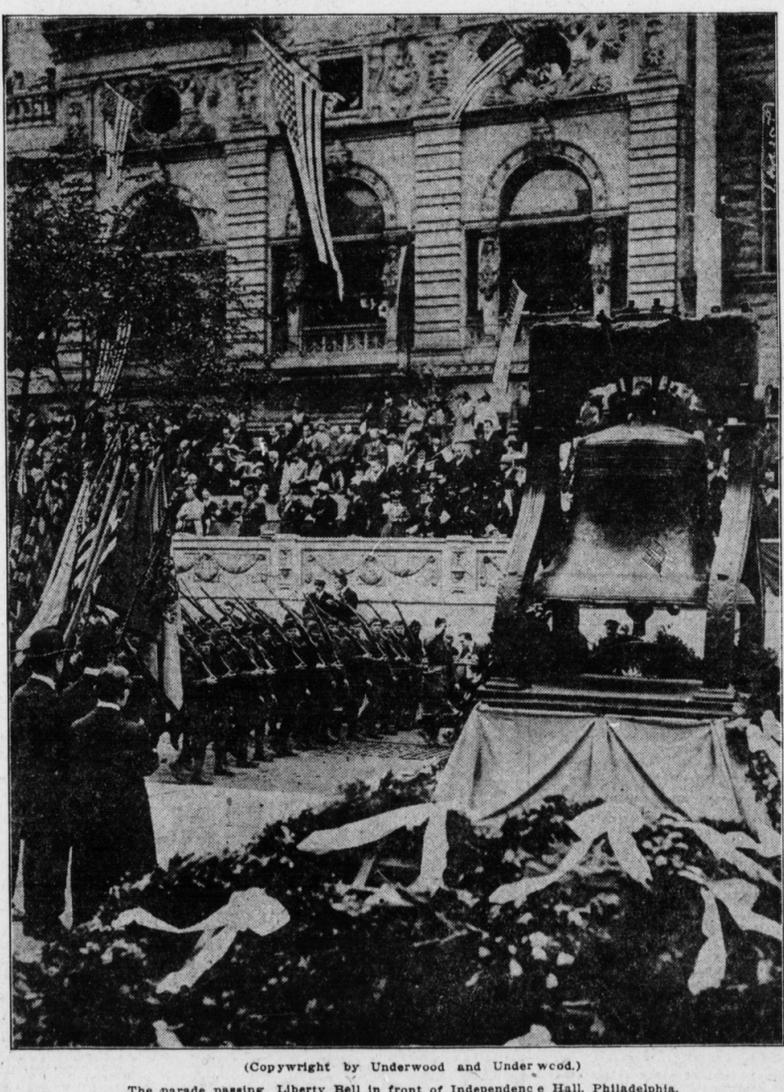

Members of the 103rd engineers were the first veterans to get their release today. The 109th field artillery was next in line. Plans were made to release this regiment as a unit for a parade in Wilkes-Barre.

Other organizations of the division are listed for discharge in the following order, covering possibly a period of five days: Detachment headquarters, 28th division; 28th company, military police; 103rd train headquarters, 55th infantry brigade headquarters, 109th infantry, 103rd field signal battalion, 103rd supply train, 103rd ammunition train, 28th division theatrical troupe, 53rd artillery brigade headquarters, 107th field artillery, 103rd sanitary train, 110th infantry, 107th machine gun battalion, 103rd field artillery, 108th machine gun battalion.

FINDS WOUNDED MEN IN BEST OF SPIRITS

(Continued from First Page.)

ally women's work. The men who are badly scared and those who are entirely deaf are timid about going out and must be persuaded. It was a most triumphant day when we had placed a tall man whose right eye and chest had been shot off, away in the back seat, a man whose right shoulder had been shot to pieces, and the hole was being filled in with bone taken from his leg. And placed the men with bad right arms on the right side of the car, the ones with injured left arms on the left side, and the man whose knees would not bend where he could sit with his legs outstretched. And just as we were off we spied the blackhaired boy who had been 'all shot to pieces' in his wheel chair. We asked him to go along because if he sat with the driver, I could stand on the running board. That would be against the regulations—but it would be such fun! We lifted him in and as we settled him in place he resisted to hang each other and weep or sing 'Waltz Me Around Again, Willie,' or 'The Gang's All Here.' Instead, we smiled, gave a personal salute to each of the thirteen men one time and said, 'All set! They're off! If it doesn't how you feel, you smile and smile, even when you can't. And, if the first night you've got so tired because you've worked so hard and seen so many things you didn't want to, you just lie face down on your pillow and weep. You're sure to rouse when the other 'Motor Girl' says, 'This is mighty good chocolate' and 'what did you think of that big doctor? Thinking just because he's big and handsome, I'd talk with him and leave that little Italian boy with the crippled legs, who was telling me what a wonderful dancing stunt he and his partner used to do when they were on the Keith circuit.' 'And then you swap stories and tell about the man who had a nose made from a bone taken from his finger, and the skin from his forehead twisted and made to cover his nose—and after three or four more operations he'll have a beautiful new nose. And the most startling experience was that little Italian boy with the crippled legs, who breathes through his Adam's apple! A bullet cut his windpipe, and now he breathes through a tube that passes through his throat and when he swallows he presses his finger against the opening, and when he talks he takes a long breath and fills his lungs with air, and can talk very well in a low, husky voice. 'We took the men on long drives through the country, and, oh, the sunshine and happiness that sparkled over their faces when we drove them out into the open air. Oftentimes they were taken to a neighboring town where the Red Cross entertained them at dinner, or they were

Georgia Mob Lynchs Farm Hand Accused of Attacking White Girl

Dublin, Georgia, May 16.—James Walters, a negro farm hand, accused of assaulting a white girl, was taken away from a deputy sheriff and lynched near here yesterday. Walters was captured last night after a hunt lasting two weeks. While he was being taken by the deputy sheriff to the Macon jail for safe keeping, about 150 men sprang from roadside bushes, secured Walters and forced the deputy to drive on. The negro, said by officers to have confessed his crime, was tied to a tree and his body riddled with bullets.

Three Are Killed When Train Hits Automobile; Husbands Escape Death

Youngstown, Ohio, May 16.—Two women and an infant were killed and two men injured shortly before midnight last night when their automobile was struck by a string of freight cars. The dead are Mrs. George Winkle, aged 40; Mrs. Florence Eckert, 28; Ruth Eckert, one year. Harry Eckert and George Winkle, husbands of the dead women, escaped with slight injuries, as they were riding in the front seat and the cars struck the rear of the automobile.

Workers Will Safeguard Welfare of Soldiers

Baltimore, Md., May 16.—Practical measures to aid soldiers from overseas in need of aid have been adopted by the joint Centenary committee of the Methodist Episcopal church. Through plans announced today at headquarters of the Centenary relief and social workers are to be stationed at points of demobilization and at navy yards throughout the United States. Funds for this welfare work have been authorized by the war emergency and reconstruction department of the Methodist Centenary. To care for soldiers as they are brought back from France, workers are to be stationed at New York, Boston, Philadelphia, Newport News, and other seaports.

Splendid Way To Reduce Your Weight

There is perhaps no one thing that so plainly shows the passing of our youth as the horrible tendency to put on too much weight after we have reached the age of 25 or 30 years. However young our faces may appear, the sagging, flabby figure and forty inch waist gives us away. The cause of this over stoutness is that our stomachs convert the food we eat into fat because there is not enough oxygen in the blood to produce a proper combustion to destroy the excess fatty tissue. Fat people will be pleased to learn of a simple home method that is wonderfully efficient in reducing weight, quickly and easily without a starving diet, violent massage or strenuous exercise. Go to any drug store and get a box of Phynola; take five grains after each meal and at bed time. This treatment will often give quick relief from overburdening fat. Phynola taken at meal time assists the stomach in giving you the benefit of the food you eat; at the same time dissolves the fatty tissue from any part of the body where there is excessive fat. By this method many have reduced their weight a pound a day and there is no fatness left. Get the drug at stores, 16 N. Third st., 3rd and Walnut sts. and Dr. Wm. H. R. Station can supply you with the genuine Phynola at a small cost.

BLIMP'S ESCAPE JOLTS PLANS TO CROSS ATLANTIC

Giant C-5 Was Swept to Sea From Moorings in a Gale

By Associated Press. St. Johns, N. F., May 16.—The dirigible C-5 was picked up eighty miles off St. Johns at 8:35 p. m. by a British steamer whose name could not be learned. The steamer stood off the dirigible until morning, it fell to the sea and was sighted by the steamer before dark.

St. Johns, N. F., May 16.—Plans of the United States Navy for a trans-Atlantic flight by dirigible received a serious jolt when the giant C-5 burst from her moorings in a gale and was swept out to sea soon after she had arrived from Montauk Point, after being in the air continuously for 25 hours and 45 minutes.

The destroyer Edwards immediately set out in pursuit with orders to bring the big gas bag down with anti-aircraft artillery if necessary. Even if the Edwards is able to bring back the Blimp before some serious misfortune befalls her, it probably will require some time to repair the damage which may have resulted from her fall into the sea.

Lieut. Charles G. Little, of Newburyport, Mass., who was given charge of the C-5 after her crew had been bundled off to bed aboard the cruiser Chicago, was almost carried away by the fugitive gas bag while making a nerve attempt to deflate it.

Seated in the Blimp's nacelle when she broke away, he seized the rip cord and gave a tug which should have opened up the big envelope and permitted the gas to escape. The cord broke, however, and Lieut. Little, realizing he would be unable to bring the ship down, leaped out from a height of 25 feet. His only injury was a sprained ankle.

The escape of the C-5 followed a long struggle by sailors from the cruiser Chicago, to prevent its injury when gusty west winds swept across its mooring place in Suid Vidi basin and began tossing it about. Several of the sailors clinging to guy ropes, were thrown down by the dirigible's final tug but none were injured.

The loss of the Blimp was a bitter disappointment to Lieutenant Commander Emory W. Coll and his crew of five. Despite a heavy fog and unfavorable weather they had brought the big ship over a 1,500-mile course from Montauk Point with a performance record which they were confident would have brought the coveted order from the Navy Department to attempt the overseas flight.

The dirigible was "lost" in the fog for a time yesterday morning over Avalon peninsula, the southeastern point of New Foundland. For two hours she cruised about, seeking the landing field here which was known to her crew only by radio description. Radio directions received from the base served only to complicate the situation, for the base was sent the bearings of the sending station from the C-5, the C-5's navigators interpreted them as the ship's bearings from the station.

Eventually, Commander Coll sighted a narrow gauge railroad which he followed to St. Johns. The town of Topsail was then recognized and a direct course was laid which took the dirigible toward Quidi Vidi valley. Lieut. J. V. Lawrence was at the wheel and effected a landing that elicited exclamations of appreciation from British airmen who had gathered to welcome the airship.

MAKING PLANS FOR CONFERENCE OF REPUBLICANS

Committees Meet to Secure Final Action Before Tomorrow

Washington, May 16.—Meetings of the Republican steering committee and the committee on committees are being held today to consider final action before the party conference to be held Saturday night.

The steering committee took up the proposal to remove several House jobs from the patronage roll and discussed the advisability of asking the party conference to make a general declaration of policies regarding legislative work.

The meeting of the committee on committees, called to consider filling a number of Republican vacancies over the proposal to increase the personnel of the steering committee. Supporters of the proposal also plan to submit it to the party conference.

THIN PEOPLE SHOULD TAKE PHOSPHATE

Nothing Like Plain Bitro-Phosphate to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force

GEORGIA HAMILTON.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing a firm neck and bust, and replacing ugly hollows and angles by the soft curves of health and beauty, there is a very evident truth in the fact that thousands of men and women who keenly feel their excessive thinness, thinness and weakness, a feeble constitution, starved nerves, our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by most druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food element, bitro-phosphate should produce a welcome transformation in the appearance; the increase in weight frequently being astonishing. Increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, should soon disappear, dull eyes ought to brighten, and pale cheeks glow with the bloom of perfect health. Miss Georgia Hamilton, who was once thin and frail, reporting her own experience, writes: "Bitro-Phosphate has brought about a magic transformation with me. I gained 15 pounds and never before felt so well."

CAUTION:—Although bitro-phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, it should not be used in its tendency to increase weight, because it is not for those who desire to put on flesh.
