Cook Without Fire During The Hot Summer Days Save 75 Per Cent On Your Fuel

Yes, but do not confuse this with the ordinary fireless cooker that simply retains food at a certain temperature for so many hours. This Fireless Cookstove Bakes, Roasts and Browns as no other "Cooker" can. Meats of all kinds, fowl and wild game, cereals and garden produce, pastry and pudding of every kind and it is possible to can fruit and vegetables in this Fireless Cookstove. It will interest you to see the

Demonstration All This Week Domestic Science Fireless Cookstove

Miss May B. Alrich will demonstrate the many advantages of the Domestic Science Fireless Cook stove all this week in the Furniture Department. Its superior roasting and baking qualities will be clearly shown. Valuable lessons in cooking and new recipes may be had from day to day as the demonstration continues. And the economy in fuel, the saving of time and the additional comfort of a cool home on a hot day will be clearly shown.

When food has been prepared and placed in our Fireless Cook stove to cook, it requires no further attention. It cannot burn, over-cook, dry out, shrink or evaporate. Thus saves you 90 per cent. work and about 25 per cent. in food, as a five-pound piece of meat may lose as much as two pounds by evaporation when cooked over an open fire. This Fireless Cook stove cooks the flavor into the food, and not out of it.

Built of the best materials in the largest fireless cooker factory in the world and the most handsome in appearance, you will be interested in seeing the efficiency of the Domestic Science Fireless Cook stove.
