But all black, brown and colored pumps and oxfords are yours at these special money saving prices. These are arranged in four price groups in calf and kid skin, military and Louis XV. heels.

Saturday will be one of the busiest days of the year. Pre-Inventory Sale Days always are. This twice-year event has become so well known for its exceptional reductions, just prior to Inventory, that our customers know that every department has its offerings that are unusual in value. And considering that practically all merchandise has been going up in the markets of the world to an alarming degree, ever since the Armistice, and contrary to expectations of the most expert authorities, you will readily see that these prices are remarkably low, considering the market quotations of today. In fact many of these prices are as low, and in many instances, even lower than today's wholesale price.

Tomorrow We Continue the Sale of 9,600 Yds. of Piece Goods

Certainly we had a great demand for this yesterday, but, with 9,600 yards to start with, there is ample quantity for to-morrow's selling. But, considering that the store closes at six, we would suggest that you come in the morning, if possible.

These values are so great, considering the upward tendency of the market on fabrics, that you are wise if you buy piece goods at this sale for future needs as well as present use.
