

### HINES SHATTERS EXCUSE FOR HIGH PRICES OF COAL

#### Tells Senate Operators Will Strive to Put False Blame on Car Shortage

Washington, D. C., Sept. 5.—Sharp differences of opinion on the probable coal situation this winter were expressed by Director General of Railroad Hines and F. S. Peabody, formerly of the Fuel Administration, late yesterday before the Senate Interstate Commerce subcommittee investigating increases in the price of coal.

Director General Hines declared the coal operators would lay stress on transportation difficulties to explain the increased coal prices, although, in his opinion, the railroads would be able to move all the coal necessary. Mr. Peabody denied that unduly high prices were being charged for coal, and said legislation calculated to alter the laws of supply and demand would not remedy the coal problem. He added there was no probability of a coal shortage this winter unless deliveries were held up by a shortage of cars or by labor troubles.

The mines of America can supply 40 per cent. more coal than the possible demands of the country, Mr. Peabody asserted, and the labor supply is adequate. He declared the cutting down of the railroad storage to 8,000,000 tons was reducing the roads to a 16-day fuel supply, which might result in confiscation of coal supplies by the railroads.

### MINERS BACK AT WORK

Seranton Pa., Sept. 5.—Miners strikes which have been in progress at the Jernyn Nos. 1 and 2 collieries at Old Forge and the Coal Brook colliery in Carbondale have been settled. The men have returned to work. There are still 2,000 men on strike, those who went out at the Archbold mine of the Lackawanna and the Powderly and Jernyn collieries of the Hudson Coal Company refusing to return to work.

### Man Charged With Murder Arrested on Tip of Small Child

Salem, N. J., Sept. 5.—Upon the information of a child the authorities of Salem county yesterday captured Guiseppi Papi, wanted here for two years on a charge of murder, Cemele Derato, a resident of Pennsgrove, was attacked and murdered August 3, 1917. Suspicion pointed to Papi, but when search was made for him he had left for parts unknown. Word was sent to neighboring towns, but he could not be located.

A child rode on his bicycle to a guard at the Delaware General Ordinance Department yesterday and informed him that the "man who murdered Derato" was in a house in Pennsgrove, having just arrived the evening previous. This information was communicated to Sheriff Millin and with a number of officers found Papi. The prisoner carried a heavy revolver, loaded with bullets of what is known as the "blue" or poison kind. When asked by Sheriff Millin what he was doing with the weapon and this particular brand of bullets, he replied: "Me no kills you, but me kills my wife if me find her."

### American Legion Will Start Crusade on Alien Slackers

New York, Sept. 5.—An intimation that the American Legion will enter politics appears in today's issue of the American Legion Weekly, which asserts, if it becomes necessary to provide "some new personnel in Congress" to effect the expulsion from the United States of alien slackers the legion will take "the first step in the new order of things."

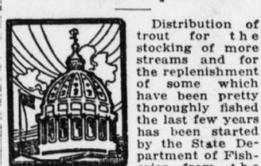

MAROONED 41 STORIES UP  
New York, Sept. 5.—Occupants of offices in the fifty-story Metropolitan Life Insurance building were marooned in their skyscraper quarters for an hour yesterday afternoon when the forty-four elevators stopped running because of a strike of firemen who maintain the light, heat and power for the big structure.

ACTORS REJECT OVERTURES  
New York, Sept. 5.—The Producing Managers' Protective Association has submitted to the Actors' Equity Association a new contract upon which it offered to settle the actors' strike here, and the equity last night rejected it. This announcement was made by Arthur Hopkins, spokesman for the managers, following a conference of the Protective Association this evening.

DEATH FOR QUIEN URGED  
Paris, Sept. 5.—Sentence of death against Georges Gaston Quien was requested of the court-martial which is trying Quien by Prosecutor Wagner today. Quien is charged with having had treasonable dealings with the enemy and of betraying Edith Cavell, the English nurse, who was executed by the Germans in 1915.

### TROUT ARE SENT OUT BY STATE

#### Early Distribution Begun in Response to Many Demands on Fisheries Department

Distribution of trout for the stocking of more streams and for the replenishment of some which have been pretty thoroughly fished has been started by the State Department of Fisheries. The fish are being carried on the Bellfante and Corry hatcheries. It is the plan to push the distribution when the weather becomes cooler and more suitable to shipments, but where conditions are favorable the stocking of streams will be carried on at once. Commissioner of Fisheries N. R. Buller says that the two hatcheries have a large number of trout, being stocked almost to two to seven inches in length.

Efforts are being made by the Department of Fisheries to obtain more favorable terms from the United States Railroad Administration regarding the shipment of young fish. In years gone by as high as 40 and 50 cents were allowed in one shipment, but now only 20 may be shipped which would operate to increase amount of work and expense.

More requests for bass have been made upon the fisheries department this year than ever before. Bass are being stocked in the Mount and Union City hatcheries and while the number will not meet the requests it is believed that each section of the State will receive a share.

GOVERNOR LEAVES—Governor William C. Sproul, who spent yesterday in conference with the members of the legislature regarding work after the vacation season and in arranging for the meeting of the State Welfare Commission, left today for his home for the weekend. He will be in Philadelphia during the coming week for the Knights Templar convocation.

TO ORGANIZE BUREAU—Immediate organization of the new State Bureau of Geological and Topographical Survey will be undertaken by Dr. George H. Ashley, the new State geologist, who has assumed his work. Dr. Ashley found numbers of letters from people inquiring about various deposits of minerals and especially coal in Pennsylvania.

STATE TO ADVISE—The new public library of Bellevue, Allegheny county, has asked the State for advice in regard to selection of books and library management. Dr. Thomas Lynch Montgomery, the State Librarian, will go to Bellevue to meet with the people in charge of the project.

NEW JUSTICE—Joseph Ruptic has been appointed to the office of the peace officer for Newport township, Luzerne county.

ALLENTOWN HEARING—Public service complaints in Allentown, Pa., are being heard by Commissioner Billing today.

WILL BE BIG LIST—Indications are that there will be a big list of cases to be heard by the Board of Pardons on September 17. They are being filed daily.

SPROUL MAY HELP—It is probable that Governor William C. Sproul will make an effort to straighten out things for James H. Maurer, of Reading, president of the State Federation of Labor and the State of the Old Age Pension Commission, so that he will be able to go to Europe to make his study of Old Age Pension Commissions which was interrupted by the State Department withdrawing his passports at request of the Department of Justice.

THE GOVERNOR had extended talk with Mr. Maurer yesterday and said afterwards that he was still interested in the project and in seeing that the State got the benefit of the data obtainable abroad. He declined to make any statement as to what he learned at Washington or what he would do.

MUNCE TO GO HIGHER—Dr. Clarence J. Marshall, director of the State Bureau of Animal Industry, will retire in a few days to devote himself to the veterinary medical department of the University of Pennsylvania of which he is dean. Dr. Marshall, who was head of the State Live Stock Sanitary and State veterinarian, for ten years or more, served in the army during the war. Dr. T. E. Munce, of Washington county, his assistant for decades, will succeed him. The changes will be announced soon by Secretary of Agriculture Rasmussen.

FOR A FOOD SURVEY—When the State Welfare Commission and heads of various departments meet here in conference with Governor Sproul first steps will be taken toward returning to the employment of activities which were taken up as special features and developed during the war by the Defence Commission. This will include the employment of service. The activities of the Commission and the State government will be devoted toward combatting the high cost of living and the State Bureau of Markets will work in conjunction with the Welfare Commission. Improvement of marketing, a series of State food surveys and direct buying will be problems taken up.

FOUNT GIVES WARNING—Dairy and Food Commissioner James Fount last night let it be known that any person who attempts to sell for food any foodstuffs which have been in cold storage longer than the law allows and which have been out of law will be prosecuted. They can sell such stuff for fertilizer, but not for food as long as I have anything to do with it and I do not care who tries to sell that stuff for food, he will be prosecuted," said he.

MR. DWYER SPEAKS AGAIN—John P. Dwyer, the Philadelphia editor who was a member of a draft board which had trouble getting official support in its policy of running down the slackers and dodgers, came out yesterday in a scathing arraignment of the Vire influence in the draft boards in parts of Philadelphia. He charges that it was positive menace to honest administration of draft boards.

GROOME DECORATED—Col. John C. Groome, head of the State Police, has been decorated for the third time for his services in regulating food and policing Baltic provinces. He has been decorated by the district co-operating with the British Army.

GO TO REGISTER—Most of the Philadelphians at the Capitol have gone to their homes to register in the big majority campaign. Next week second and third-class city men will finish registering.

### Postal Clerks Will Not Join Labor Federation

#### Atlantic City, Sept. 5.—Taking the stand that better results could be obtained by keeping their organization free of all outside influences the annual convention of the United National Association of Post Office Clerks yesterday gave the cold shoulder to propositions looking to affiliation with the American Federation of Labor. Resolutions were adopted, after free debate, expressing opposition to unionism should be barred from the postal organization.

The fact that but two of the postal bodies have joined with the trade unions, despite the pressure brought on the men in their home cities was taken as an indication that the majority of the employees in the service are determined that recognition of their demands will come soon if they appeal to Congress as employees of the Government rather than as labor unions.

ANDY JACKSON JOBBES  
New York, Sept. 5.—Andrew Jackson, a veteran of the late war, applied here at the Knights of Columbus employment service for a job. Jackson gave his age as 33 years and answered all questions pertaining to himself, but failed to mention that he is a great grandson as well as a namesake of "Old Hickory," of New Orleans fame, and later President of the United States.

Officials of the Knights of Columbus say it was only after Jackson had been given a mild "third degree" that he confessed his famous ancestor. He served as a private in the One Hundred and Seventy-fifth Infantry and recently was discharged at Savannah, Ga. Before enlisting in the army, he taught agricultural chemistry.

### Pennsylvania Stockmen Believe Regulation of Packers Detrimental

#### Washington, Sept. 5.—Stockmen from western states, who object to Federal regulation of the packing industry as proposed in the Kenyon and Kendrick bills, still continued to be heard by the Senate agricultural committee.

D. B. Zimmerman, of Somerset, raised cattle in several western states, fed cattle in Pennsylvania, and incidentally ran some retail butcher shops.

"I'm satisfied that the Kenyon and Kendrick bills would be detrimental to the meat growers and consumers alike," he said. "If you wish to lower prices to consumers, you should pass laws requiring the packers to operate retail markets in stores where they have branch houses now. This would result in making meat products to consumers 25 to 35 per cent. cheaper than they now are."

Stockyards owned by the large packers, Mr. Zimmerman said, were well operated, and he attacked proposals in the bill to separate packing companies from refrigerator car ownership as "ridiculous."

Just Try This When Hairy Growths Appear  
(Modes of Today)  
A smooth, hairless skin always followed the use of a paste made by mixing some water with plain powdered delatone. This paste is applied to the hairy surface 2 or 3 minutes, then rubbed off and the skin washed, when every trace of hair will have vanished. No pain or discomfort attends the use of the delatone paste, but caution should be exercised to be sure that you get real delatone.

### Man Bitten by Mad Dog Shows Improvement

#### Chambersburg, Pa., Sept. 5.—Alex Sharpe, who was attacked and bitten by a mad dog at his home at Markes, was reported in a very favorable condition yesterday.

The dog, which appeared to be a stray one in the neighborhood, came to the Sharpe home and Mr. Sharpe was attacked in his efforts to drive the animal away.

Sharpe immediately killed the animal and sent its head to Baltimore where it was examined. It was found that the animal was suffering from rabies.

Sharpe also immediately began the pasteur treatment and his complete recovery is expected.

Asthma and Hay Fever Relieved By An Old Reliable Remedy  
Warner's Safe Asthma Remedy is no experiment. It has been tried and tested by two generations and not found wanting, as evidenced by the increasing demand for this beneficial and reliable product.

### Catarrh Asthma Hay Fever

#### Quickly Relieved by MAN-HEIL

Using a remedy that is automatically administered as you breathe. And without discomfort or inconvenience. Each breath carries medication that quickly heals the afflicted parts.

FALL 1919

THE Fall season is so peculiarly different from any other.

IT marks the opening of school and college and every young man begins to dress up.

AS nature's beauty is declining gradually and rapidly it seems that men and women are destined to make up for the lack of color by the clothes they wear.

FALL is also a double season, as it is imperative that men have a topcoat in addition to their suits.

THE GLOBE styles for Fall are superb—with Fashion Park clothes leading and with others more moderately priced.

\$30.00 to \$75.00

BOYS' FALL SUITS  
The finest showing and best qualities in the city.  
\$9.75 \$10.30

## THE GLOBE

# ASTRICH'S

308 MARKET ST.

## Madam Harrisburg the New Fall Fashions Are Ready For You

For the discriminating woman, who knows the last word about Fashion—who appreciates highest grade tailoring and who is careful enough to buy the best quality at the minimum cost, ASTRICH garments leave nothing to be desired.

### The New Suits---
