## A Good Appearance

A fine combination of millinery, shoes, hosiery and outer apparel looks better on a good figure than on a poor one.

All women are interested in having what is called "a good appearance." Are you really doing all you can toward that end?

Do your corsets fit you or do you fit your corsets? If your corsets fit your figure, how do you know that your figure is correct in its measurements? Is it symmetrical, of artistic proportions, and graceful? Do you know that no matter what corset you wear, you gradually take its figure lines and consequently that a badly designed corset is going to give you a badly proportioned figure?

## MODART CORSETS Front Laced

excel in design—that most important particular—and they are well made to carry out the design in materials that preserve the figure lines, give long life to the corset, thus making a desirable as well as economical purchase for any woman.

Our expert corsetiere will give you a trial fitting of the MODART model you require to develop your figure in accordance with health promoting comfort and correct proportions for your figure type.
