Yesterday Was Wash Day!

If you did not use an electric washer you, no doubt, were aware of the fact, to your regret. Most likely your neighbor who has a good electric washer was walking around attending to other household duties or reading the daily paper, while you were doing the hard rubbing. Yes, and most likely she was through in less than half the time.

But, then, there are different kinds of electric washers, too.

Let us show you how easily the two vacuum cups operate and wash the clothes perfectly clean without injury to the most delicate fabrics. No dragging, rubbing or jerking over cleated or corrugated surfaces.

Would This Suit Her For Xmas?

See the delicious products from this Domestic Fireless Cooker in our window and you will realize how acceptable and practical it would be for a Christmas gift.

Miss May Alrich will explain its many advantages and prove its economy to your satisfaction. We will gladly hold it for delivery until Christmas and you have the advantage of buying one this week at the old price as the advanced price will not go in effect until the demonstration is over.
