

ANGELES TRIAL MOST IMPORTANT OF REVOLUTION

Believed Death Penalty on Villa's Chief Would Unseat Carranza

FEAR A DEMONSTRATION Bandit Leader Reported Gathering His Forces For New Series of Outrages

El Paso, Texas, Nov. 21.—General Felipe Angeles, chief lieutenant of Francisco Villa, and famous artillery expert, captured last Wednesday by Mexican Federal forces under General Gabino Olive, near Valle Oliva, faced trial by court-martial to-day in Chihuahua City, Mexico. The trial is considered by Mexican authorities as the most important held in that country during a decade of revolution and banditry.

Reputation in circulation along the border to-day were General Angeles would be accused of rebellion against his government and that the death penalty would be asked. Many Carranza officials were said to favor this disposition of the case as a warning to all rebel chieftains. Shortness of time between his capture and the date set for the trial was pointed to as indicating the possible fate in store for General Angeles.

Revolution Will Follow Conjecture was rife as to the effect of the trial. Some authorities in El Paso believed his execution would be disastrous to the Carranza government in that a new revolutionary movement might follow. Villa sympathizers here to-day were outspoken in the opinion that the bandit leader would make some demonstration over the capture of his chief lieutenant. Villa was reported in the broken country south-east of Ojinaga, Chihuahua, on the international boundary, gathering his forces for a new offensive within the next month.

Reputed Inventor of 75 General Angeles was a graduate of Chapultepec, the military West Point of Mexico. He was sent to Europe on military missions by President Diaz and attended French artillery schools. He is the author of several military textbooks that are used in American and World military schools, and reputed inventor of the French 75 millimeter gun. He was decorated with the Legion of Honor by the French government for his work in Europe.

Against Border Attacks Angeles cast his lot with the Madero revolution while still in Europe. He returned to Mexico under the banner of Chapultepec. When Madero was assassinated Angeles was imprisoned, but was released by Huerta and then banished. When Carranza and Villa parted, Angeles had joined them, cast his lot with Villa. He abandoned the latter after Villa's raid on Columbus, N. M., which Angeles refused to countenance. Angeles then became an inspector of munitions for the French. He again returned to Villa early this year when the latter issued a manifesto that he was "done killing and murdering Americans." Angeles again advised the bandit leader against border demonstration when Villa decided to attack Juarez this year. In this attack Angeles was defeated when American troops crossed the boundary after shots had been fired into El Paso.

Federal Judge Sanctions Lifting of Lid on Beer Ban in St. Louis District

St. Louis, Nov. 21.—Federal Judge Pollock today granted a temporary injunction against the District Attorney and the internal revenue collector from enforcing the provisions of the Volstead wartime prohibition enforcement act pending further litigation.

In effect Judge Pollock sanctioned the lifting of the lid on beer in St. Louis.

In the decision Judge Pollock granted a temporary restraining order enjoining United States District Attorney Hensley and Collector of Internal Revenue Moore from enforcing the provisions of the Volstead wartime prohibition act. The District Attorney is restrained from prosecuting alleged violators of the measure and the internal revenue collector is enjoined from refusing to issue revenue stamps for beer containing one-half of one per cent. or more of alcohol.

The order is made operative at once.

SERBS TO SIGN Paris, Nov. 21.—Dispatches received from Belgrade state that the Serbian government has authorized that country's delegation at Paris to sign the Treaty with Austria, which Serbia did not sign at St. Germain on September 10.

ISSUES BANK CALL Washington, Nov. 21.—The Comptroller of the Currency to-day issued a call for the condition of all National Banks at the close of business on Monday, November 17.

THE WEATHER

Harrisburg and Vicinity: Fair and warmer to-night; lowest temperature about 36 degrees. Saturday partly cloudy. Eastern Pennsylvania: Fair and warmer to-night. Saturday mostly cloudy. Moderate south-west winds. River: The Susquehanna river and all its branches will fall slowly. A stage of about half foot indicated for Harrisburg Saturday morning.

Removal of Unsightly Poles Means Much to the City

Removal of the immense poles carrying scores of wires and heavy cables by the Bell Telephone Company has cleared Walnut street of an unsightly mass which businessmen objected to. The Bell company has placed its wires underground at considerable expense.

The first engraving shows Walnut street looking east before the poles and wires were removed. The larger engraving shows the improvement. The only poles left are light standards and supports of trolley car wires. The smaller etching shows one of the enormous crosspieces which formerly broke the view directly over the county prison. Removal of all wires in the central part of the city was advocated by the Harrisburg Telegraph several years ago and met with the approval of the wire operators.

VANILLA AND TOILET WATERS UNDER DRY BAN

Churches May Not Use Over Fifteen Gallons of Wine a Year

Druggists, barbers and grocers who have been annoyed by increased demands for favoring extracts, toilet waters, perfumes and patent medicines on the part of toppers who want to use them for beverages to-day were informed that the manufacture and sale of all such articles containing alcohol must cease after January 1 when the national prohibition amendment becomes effective.

Notice that toilet articles and favoring extract will come under the ban was sent to merchants to-day by E. Lederer, collector of internal revenue for this district. Mr. Lederer also issued a ruling which permits physicians to order two quarts of liquor a year and gives churches 15 gallons of wine annually for sacramental purposes.

Mr. Lederer's ruling is based on orders received from Daniel C. Roper, commissioner of internal revenue department, who has called a conference of manufacturers to meet December 1 in Washington. The ban is divided into three classes as follows: 1. Barber's supplies and perfumes, liquid medicinal compounds and favoring extracts. 2. The police have had some trouble with disorderly persons who purchase toilet waters and favoring extracts in drugstores and grocery stores.

Army of 450,000 and Three Years Needed to Quell Mexico

Washington, Nov. 21.—State Department officials in discussing the Mexican situation to-day disclosed that three years ago the general staff estimated that an army of 450,000 men and three years would be required for complete intervention in Mexico by the United States.

Officials did not say what the present estimate of the general staff was, but it was understood to be less than that prepared before the World War, due to the development of new instruments of warfare and an enormous increase in American war materials of all kinds, particularly motorized transports, airplanes and artillery.

Discussing the case of William O. Jenkins, American consular agent at Puebla, who was rearrested late Tuesday on charges in connection with his abduction by bandits, officials said because of the Mexican government's laxity in trying to put down the revolution, it had failed to give proper protection to Jenkins and that consequently he might have ground for claim against the Mexican government for the ransom money paid to his captors.

SHOT WHILE HUNTING Curtin Kinsinger, of Halifax, is in the Keystone Hospital, as a result of gunshot wounds, suffered yesterday. He was wounded when his nephew shot at a rabbit. His condition is fair.

TURFMAN DIES Cincinnati, O., Nov. 21.—Barney Schreiber, well-known turfman, died suddenly here to-day of apoplexy in his room at a local hotel.

PERRY COUNTY HAS H. C. OF L. BEATEN

Butter Sells at 45 Cents per Pound and Eggs Go at 65 Cents a Dozen to Consumers Who Are Able to Go Into Rural Communities to Buy

TURKEYS AND CHICKENS SELL AT CHEAP FIGURE

To fight the high cost of living drive, the family flivver into the heart of Perry county.

That is the advice of farmers and stockraisers 20 miles away from the city, where the prospect of 65-cent turkeys is looming strongly before the good housewife now planning her Thanksgiving Day dinner.

The turkey, the natural occupant of any dinner table on Thanksgiving Day, is to-day selling anywhere from 35 to 45 cents, live weight, according to the section of the county in which the fowl may have been purchased.

Chicken at 25 Cents But chickens will form a satisfactory substitute. And the price is such that no Perry countian is going to be without fowl. Grocery stores and dealers are selling them from 25 to 26 cents per pound, while turkeys are selling at 65 cents a pound, but slightly higher figures. These figures are those quoted by dealers, but many consumers are getting their birds for

COUNTY PLANS REBUILDING OF MANY BRIDGES

Plans to Be Drawn For Action Early in Spring; Must Carry Heavy Loads

Plans for rebuilding a number of county bridges are being considered by the County Commissioners, so that reports of viewers can be submitted to grand juries at the January and March quarter sessions courts and work started early in the spring.

Many of the bridges in the county, while in good condition, should be replaced, the commissioners said. A recent law allows auto trucks weighing a maximum of thirteen tons to travel on the highways and some of the bridges probably would not be strong enough for constant heavy traffic.

Among the bridges which may be rebuilt next year are: One over Bear creek, in Wisconsin township; one crossing the Philadelphia and Reading railway tracks at the Boyd station just south of the highway between Harrisburg and Hummelstown; two bridges between Dauphin and Lancaster counties, one at Beaver creek and the other at Bellairs; an inter-county bridge on the State highway crossing Conewago creek; two bridges over Deep creek, in Lyken township.

It is also the plan of the County Commissioners to ask for bids for the construction of a new bridge over Manada creek, at Sand Beach, so that work can be started there early in the year.

HOPE REMAINS FOR AN EARLY PEACE IN MINES

Both Sides Believe the Concession of Owners Is the Opening Wedge

Washington, Nov. 21.—Both miners and operators to-day believe the "ice has been broken" in the controversy over the miners' demands for an increase in wages. The action of the operators yesterday in offering the miners' representatives a flat increase of fifteen cents a ton on coal mined and a twenty per cent. increase for day workers, is believed to be an opening wedge for the truce to-day.

Officials have assumed this attitude despite the fact that John L. Lewis, acting president of the mine workers' union, has declared that the concession is wholly inadequate.

The operators are proposing something that they know can't be accepted," Lewis said. "The increase they would give they simultaneously are taking back in increased charges to miners for supplies. Then they haven't talked the

Anti-Railroad Strike Bill to Be Pushed at Next Session of Congress

Washington, D. C., Nov. 21.—The House Railroad bill, considered in committee for several months and passed by the House in seven days, which provides for the program of reconstruction legislation, probably will be ignored by the Senate.

In moving that railroad legislation become the unfinished business of the Senate by adjournment to December 1, Senator Cummins did so with the intention of presenting the bill which bears his name and which has been favorably reported by the Senate Interstate Commerce Committee and of focusing the entire thought of the Senate upon that bill until it is perfected and passed.

The bill as completed by Senate action will then be made a substitute for the entire House bill, with the exception of the enacting clause and will go to conference in that form, there to be whipped into shape if possible.

The difference between the two measures are so radical that the many important particulars that prolonged consideration in conference is certain with a possibility that the two branches of Congress will lock horns for an indefinite period. In the event that President Wilson ends Federal control in January, Congress almost certainly will be forced to enact interim legislation to bridge the gap between the end of Federal control and the outlining of a legislative policy for continued private operation.

Hartford Sunday Globe to Cease Publication

Hartford, Conn., Nov. 21.—The Hartford Sunday Globe will cease publication after to-morrow. The paper could not go on with its limited circulation, the scarcity of print paper and the high cost of other elements of production.

The Curran has purchased the stock of the publishing company and will close up its affairs.

PEACE TREATY TO BE FORMALLY RATIFIED DEC. 1

Supreme Council Agrees to Act Despite Rejection by U. S. Senate WITHOUT INSTRUCTIONS

But American Conferees Believe Compromise Ratification Will Be Effected

Paris, Nov. 21.—The Supreme Council to-day agreed on December 1 as the date when the German Peace Treaty will be formally ratified.

Further informal discussions have been held with the German representatives here in connection with the notification by the Allies that a protocol must be signed by Germany guaranteeing the fulfillment of the armistice conditions. These discussions have been confined chiefly to the methods of procedure in considering the protocol. The Germans have not yet stated whether they will sign the document.

The American delegation is still without instructions as to its participation in the Peace Conference following the failure of the Senate to ratify the Treaty, but Henry White attended the meeting of the Supreme Council to-day representing five of the United States. Under Secretary Polk being absent in London, and the entire delegation is continuing its work in the belief that a compromise ratification resolution will be agreed to in the United States.

This view is apparently shared by most of the members of the Council, who are anxious for the continuance of the United States in the deliberations of the peace-making body. The council, however, is working under the impression that enforcement of the Treaty will not be hindered if the United States fails to ratify the Treaty later.

Julius Cambon, the French delegation, presided over the council's session in the absence of Foreign Minister Pichon. The next meeting will be held on Monday.

\$50,000 in Loot Is Recovered When Arrests Break Up Robber Band

Detroit, Nov. 21.—Jewelry, clothing and silverware, said to total upward of \$50,000 in value, stolen in a long series of burglaries, was recovered last night by police announced to-day, with the arrest of seven men who, the authorities declare, are members of a gang of New York gunmen.

According to detectives one of the men in custody confessed to forty house robberies here and a large number in Cleveland. The loot, it is stated, was found in an east side tailor shop operated by Hine Rosen, one of those arrested. The others under arrest gave their names as Joseph Miller, Leo Levy, Benjamin Klein, George Lewis, Robert Conpard, and Joseph Kinchner, all of New York.

The arrest of the men, the police declared, frustrated a plan they had conceived to aid their alleged leader William "Jack" Shapiro, held in the county jail on a burglary charge, to shoot his way out of jail last night. The gang, the police allege, originally intended to gather only enough loot to raise funds to meet Shapiro's bail, but the plan was abandoned and a jail delivery decided upon.

Court to Decide on Mumma's Demand For 10-Cent Dog License Fee

Twenty-six cases have been listed for the session of argument court to be held by the Tuesday morning one of the largest lists to be disposed of in months. Two cases of Hard-scrabble proceedings will be argued, the question being the county commission whether the city has the right to assess benefits against property owners on the east side of North Front street for proposed improvements to the west side.

Another case which will be submitted to the court is that of the action between County Treasurer Mark Mumma and the county commissioners. Mr. Mumma claims he should be paid ten cents for each dog license he issued last year in addition to his salary provided by law. The county commissioners contend his salary is for all services to the county. The court will be asked to settle the case on the facts submitted in briefs.

Motions for new trials will be argued in a number of other cases and a motion to enter a verdict of acquittal in the case of Charles H. Maak, an undertaker convicted of false pretense, will be disposed of.

Election Board Charged With Primary Fraud Is Discharged by Alderman

Cases against the election board of the Second ward, Sixth precinct, alleging that a fraudulent return had been made of the primary election vote in that district, were dismissed last night by Alderman E. B. Murray.

The suits had been pending for the last two weeks, three hearings being held. John E. Fox, attorney for the election officials, had been ordered by the court to produce evidence that a petition was pending in court to have the ballot box opened, but Mr. Fox stated that the box could only be opened after an indictment had been returned. Alderman Murray dismissed the cases, saying that they lacked enough evidence to return them to court.

WILSON TO COVER TREATY IN MESSAGE TO NEW CONGRESS

Whole Subject Will Be Taken Up by President When Lawmakers Meet in Regular Session, Dec. 1

UNTIL THEN WILL HAVE NOTHING TO SAY REGARDING SENATE ACT

Washington, Nov. 21.—President Wilson will take up the whole subject of the Treaty of Versailles in his message to Congress December 1, it was stated officially to-day at the White House. Until then he will have nothing to say concerning the Senate's action in rejecting the Treaty.

Leaders Seek Compromise Before Congress convenes, it was said, administration senators will confer and it is possible that the mild reservationists on the Republican side will participate with a view to working out an acceptable compromise on reservations.

Regardless of who is selected to succeed the late Senator Martin, it is believed there will be no change in the leadership in the Treaty fight, it was said at the White House. President Wilson considers that Senator Hitchcock, of Nebraska, has conducted the fight ably and sees no reason why he should not again lead the administration force.

Senator Underwood, of Alabama, whose name has been mentioned prominently in connection with the Democratic leadership, called at the White House to-day to see Secretary Tumulty.

Discussion here to-day of the Peace Treaty concerned chiefly the probable effect the nonratification of the pact by the Senate would have on the commercial and financial business of the United States with Europe. Technically, as has been pointed out, the United States still is in a state of war with the central powers and it is feared that complications may arise which would tend to retard international commerce.

The White House is being watched closely for developments, but so far

OPERATORS DECLARE OFFER IS UTMOST THAT COULD BE GIVEN

WASHINGTON. — BITUMINOUS COAL MINE OPERATORS SERVED WHAT WAS PRACTICALLY AN ULTIMATUM ON THE COAL MINERS' REPRESENTATIVES HERE TO-DAY, TELLING THEM THAT THE OFFER YESTERDAY OF 15 CENTS A TON AND 20 PER CENT. DA YWAGES INCREASES WAS THE UTMOST THAT COULD BE GIVEN. THE MINERS WENT INTO CONFERENCE IMMEDIATELY TO CONSIDER THE OFFER.

RATIFICATION ACTION EXPECTED BY U. S.

Washington. — Action by the Supreme Council at Paris, fixing December 1 as the date for formal proclamation of a state of peace between the powers ratifying the Treaty of Versailles fulfilled the expectations of administration officials. After the Senate had ended its special session without ratifying the Treaty the general feeling here was that Europe would not wait longer for this country's decision.

EXCHANGE PROTECTIVE TREATY Paris. — Stephen Pichon, French foreign minister, and Sir Eyre Crowe, assistant under secretary for foreign affairs of Great Britain last night exchanged ratifications of the treaty guaranteeing British aid to France if, without provocation, she is attacked by Germany.

Sir Eyre is the representative of Great Britain in the Supreme Council during the absence of Premier Lloyd George.

HEED INJUNCTION TO CALL OFF STRIKE Denver. — George O. Johnson, district president of the United Mine Workers of America, to-day announced that the strike of the bituminous coal miners in Colorado which has been ordered for Friday midnight, had been called off in connection with the injunction issued last night.

OFFER FOCH SENATORSHIP Paris. — Marshal Foch has been offered the nomination for Senator in the Department of Finisterre, according to the Presse De Paris, which says he has accepted the nomination on condition that all parties will unite in supporting him.

MARRIAGE LICENSES

Allen W. Kipe, Pottstown, and Carrie E. Fleeger, Middletown; William H. Miller and Nina E. MacDonald, Lewistown; Albert L. Pancke and Cora M. L. Mangans, Harrisburg.
