Oberlin, Pa., Dec. 2.—The School Board of Swatara township met in regular session last evening in the High School building at Oberlin. Careful investigation will be made into the cause or causes of not complying with requests and action will be taken at once against all of those persons.

The question of the needs of the schools to meet present day demands was taken up. ## RESERVOIR FENCE TO BE REPAIRED

Children Tear Down Protection, Authorities Declare; Radford Girl Improving

MARIAN RADFORD

Borough officials this morning admitted that the fence about the reservoir which had been erected to keep persons from entering the premises surrounding the water basin, is in very poor shape and declared that it is impossible to keep the fence standing because of the children. Officials say that the children tear the fence down as fast as it is erected.

According to one of the officials a fence was to have been erected at the top of the reservoir if specifications were followed out in detail. Because of the cost of material to be used in the erection of a protection around the top of the reservoir a fence was built around the property. Since that time the fence has been kept in fair shape, it is said, and officials declare they are doing their best. Repairs to the fence, it is understood, will be made since a child fell in the reservoir and narrowly escaped being drowned on Sunday afternoon.

Hearing that the fence surrounding the reservoir was broken down in several places, the little Marian Radford fell in, residents have been criticizing authorities for not providing the proper protection. It is hoped that some action will be taken immediately.

Little Marian was reported at her home, 36 North Second street this morning, to be very much improved.

## VETERAN JOINS P.R.R. PENSIONERS

Thomas J. Scott Is on Honor Roll After Long Years of Service

Effective December 1, Thomas J. Scott, assistant freight trainmaster of the Pennsylvania railroad at Mifflin, becomes a pensioner. He retires on the age limit, 70 years. Wafa R. Lockard, assistant freight trainmaster at Altoona has been transferred to Mifflin to fill the vacancy caused by his retirement.

Edward L. Lowder, assistant yardmaster in this city, has been appointed to succeed Mr. Lockard as assistant trainmaster here. The changes are effective to-day.

**Veteran Employee**  
Mr. Scott is one of the oldest men in the freight service on the Middle Division and he retired after a service of over forty-six years. He was born at Light Street, Pa., November 1, 1849, and entered the company's employ on July 28, 1873, as a brakeman.

In 1881 he was made assistant yardmaster at Tyrone and on January 22, 1890, he became yardmaster at Tyrone. He held this position for four years until January 4, 1904, when he was made an assistant freight trainmaster and was assigned to duty at Mifflin, remaining there until his retirement to-day.

## Altoona Post Strong in Americanism Endorsement

Altoona, Pa., Dec. 2. — At an enthusiastic recent meeting of the members of P. R. R. Post, No. 235, American Legion, the service men went on record as standing by the Government in its work of exterminating radicals. The resolution adopted follows:

"That Post 235, American Legion composed of employees of the Pennsylvania Railroad Company, wishing to dispel any false idea which may have been created, adopts the following resolution, which contains the entire policy and thoroughly expresses its attitude towards industrial disputes.

"Resolved, That members of American Legion, Post 235, have assembled, do unanimously endorse the Government for the policy of extermination of all persons or organizations who would overthrow the Government of these United States, and that we do further pledge ourselves to the support of its policy in the same spirit and with the same determination as we once took the oath as soldiers and sailors of our Army and Navy."

### HOME GIVEN CANDY

Approximately 150 pounds of chocolate candy was to-day turned over to the Children's Industrial Home by Chief of Police Wetzel. This candy was found more than a month ago by the Harrisburg police, and after futile attempts to locate the owner, decision was made to send it to the home for the children's use.

## Fenny Stockholders Get Regular Quarterly Dividend

The quarterly dividend on the stock of the Pennsylvania Railroad Company was paid on Saturday to 113,881 stockholders. Although this is the largest number ever recorded, only 1,709 of the dividend checks have gone abroad. The foreign stockholders have been reduced to 1-1/2 per cent. of the entire number, and they own only 1.86 per cent. of the total stock, as compared with 15 per cent. before the war and approximately one-third of the whole a generation or so ago.

This fact is evidence of the change in this country's position from a debtor to a creditor nation. When the railroad was built much of the money was raised by the sale of securities abroad. Within the past three years 24,661 additional persons have become stockholders.
