No More Clubs!

We now have to pay \$16 per bundle for the paper which formerly cost us but \$7. We pay \$8 for 480 sheets of paper--nearly 2 cents per full sheet. That is, the 52 papers we sent out cost, before ending out, within a fraction of 90 cents. This gives ten cents to pay for wear of type, interest on materials, ink, type-setting, rent, folding and directing or delivering papers at \$1 club rates. So there is a manifest loss on every subscription at these rates. We have endured this long enough, and conclude to abandon it.

Look at it. There is not a farmer who sells his chickens, butter, eggs, fruit, meat, or grain at half the rates he formerly did--not a merchant who has not added 100 to 200 per cent. to all his clothing and other merchandise. And most kinds of mechanics' work has also increased.

Now, when we can get butter at 10 to 15 cts., chickens and other farmers' produce in proportion, sugar at 10 and muslin at 8 cts., paper at \$7 per bundle--in short, when all other dealers and producers do not charge us twice old prices--we may come back to old terms: but not until then.

The \$1 rate was intended for poor persons or those of moderate means, who would still be inclined to accommodate: but very many we find on that list who are worth \$10 to \$50,000, and to them it is really no favor.

Be it understood, then, by all--rich and poor, male and female, teacher and taught, saint and sinner, Abolitionist and Copperhead, young and old, far and near--that after this date, we have no club rates. That we charge all alike the sum of \$1.50 per year, (or 3 cents per full sheet)--IN FLEXIBLY IN ADVANCE. To any one sending us 10 subscribers with \$15, we will send him or her a paper for a year, as reward for his or her trouble.

Most trust papers are raising their rates to \$2, or \$2.50. We believe \$1.50 in advance from all is better than \$2 or \$3 on risk, and shall try our plan while before abandoning it.

This vicinity has been gladdened by a beautiful rain--enough to lay the dust and enliven vegetation, but not sufficient to reach the roots.

The regular annual meeting of stockholders of the Susq. Telegraph Company, for the election of officers, will be held at the Continental Hotel, Philad., on Wednesday, Sept. 14, at two o'clock, P.M.

Northumberland Baptist Association.
The 44th annual session of this body is appointed to be held with the church in Lock Haven, commencing at 10 A. M., of Wednesday, 14th Sept. 1864. Introductory sermon by Br. M'Neil, (Br. M'Neil his alternate) and a collection taken for Missions within the State. It is recommended that an average of three cents per member be sent up from every church for printing the Minutes and other expenses of the Clerk. The Sabbath School Union meets on Tuesday morning (day previous to the Association) at the same place. [Papers in the bounds of the Association, please copy.]

The Basis of Reconstructing the Rebel States, is a new, delicate and perplexing question. Congress passed a law on the subject, which the President saw proper (as in his power) not to "approve," but which he treats with respect. Whereupon, Messrs. H. W. Davis and B. F. Wade give him a severe scolding for his honest difference of opinion. It is hardly worth while for friends to get too warm about what to do with the Seceding States, until their military depots are subdued. "First, catch your fish," dress it afterwards.

Capt. J. J. R. Orwig, of Millburg has been appointed Cigar Inspector for the 14th Congressional District. We have been informed that New Berlin, Union and East Buffalo townships have filled their quotas. Capt. Thos. G. Orwig writes that there has been no loss in his battery during the siege of Petersburg, and only two wounded. Dr. D. H. Miller and J. M. Anspach were violently thrown from a buggy, on Monday, and the former was severely injured by the fall, the latter escaped with slight injury. A letter dated Monaca Junction, Aug. 12, states that the Union county hundred days men are all well, and in good spirits. Millburg Telegraph.

SECURITY OF LIFE.--A French writer has calculated that, "in former days," one person's life was lost out of every two hundred and eighty-five who traveled by land or sea. On the railways, there is now but one traveler killed out of seven millions. This comparison, if justly founded, shows a great advance of safety and comfort as well as of cheapness.

Harrisburg Correspondence.

MONDAY, Aug. 15.

This morning I have opened the Patriot & Union, the Copperhead organ of Harrisburg. It has been reduced in size since I saw it last, and has passed into new hands. Campbell & Hite are the present publishers. Its leading editorial embodies a tremendous complaint--not at Jeff Davis for three invading and robbing Cumberland Valley, but at Abe Lincoln because our forces were not always sufficient to prevent invasion. After roundly denouncing the National and State Administrations for not providing a force exclusively for home defense, it wheels square about, and condemns Senator Lowry's bill which looks to the creation of fifteen new regiments for the very purpose demanded! That is characteristic Copperheadism--call for a State force to protect our soil, and then howl at the cost of the thing demanded! Do what you will, you can not please.

To show the spirit of the concern: Speaking of the draft, (which McClellan and other Democrats first required and advocated) the P. & U. calls it a "sweeping, remorseless, and forcible raid into every Free State, grasping its victims by chance, and without appeal, and forcing men, hand-cuffed or chained, it may be, into a contest which all common sense and every well-regulated conscience now condemns." So the draft is a "sweeping, remorseless and forcible raid," it is, M' McClellan & Co? That the Rebels commenced and continue this "contest," they do not state, but evidently labor to delude their readers into the opposite view.

Again, speaking of the employment of Pennsylvania soldiers, without distinction from others, in the general object of reducing the Rebellion, the P. & U. says: "In our opinion it was the duty of the Governor to have pushed the mailed arm of a sovereign and independent State in the face of the Federal Government." In other words, these men would have Pennsylvania follow the example of South Carolina, set up independence, and make war upon the Federal Government if it demanded the aid the State owes the Nation under our Constitution and Laws!

Notwithstanding the efforts of this kindred journal and politicians to prejudice and excite the people against aiding to thwart the Rebellion, files of men are constantly pressing Southward, and many districts have filled their quota to avoid the "raid into every Free State."

Two of the six wards of Harrisburg are filled, and the others are laboring to fill up their share by volunteering. There is ample chance in this place, where the number of renters is double that of owners, and there are more single men, voters, than owners of real estate.

Many of the colored people who come northward during the Rebel raids, have mustered courage to go back; but a large proportion will remain until peace comes. There are now four colored churches here. One of them, (a Methodist, whose elegant, tasty Chapel is in the rear, East of the Capitol), has a large number of well dressed members, who, I am informed, support themselves quite as well as a white congregation of equal wealth would, but others are yet in the background. Their poverty exposes them to many crosses and persecutions from the rude and thoughtless, which is sometimes resented, and had blood drawn. Quite a number have enlisted, and their general elevation is apparent notwithstanding many drawbacks.

TUESDAY, Aug. 16.

The House was yesterday engaged on the Militia bill, and made considerable progress.

The Senate amended quite a number of House and Senate bills, which had failed to meet the approval of the Governor, so as to meet his views--mostly private bills.

Mr. Clymer, of Berks, re-improved the bill, killed so many times last session, that drafted men be paid the same bounty as volunteers, in his county. Mr. Johnson, of Lycoming, ably exposed the plan, as calculated to prevent volunteering--for how many would volunteer if they get just as much pay when they waited and run the risk of a draft? Mr. Wilson, of Tioga, declared it to be, in effect, a bill to give a bounty for not volunteering. Mr. Lowry, of Erie, and Mr. Fleming, of Dauphin, also dealt a few hard blows up on the head of the "sarpint," (its "first appearance this session") and it died the death it deserved. Mr. Lowry, and all our party, are willing to give almost unlimited power to the various localities to aid the families of volunteers and drafted men, after entering service as they may need; but to bribe single men, in advance, to stay at home and run the risk of being drafted--to offer such men a gift of \$300 for discouraging voluntary enlistments--is so palpably hostile in spirit to enlisting, as to need no argument.

Sad Death.--Michael Burke, the long and well known Irish canal and railroad contractor, yesterday undertook to drive across the railway at the lower end of the city, just ahead of a train, when the conductor caught the wheels of the vehicle,

throwing him out, and injuring one leg and his head so severely that he died in a few hours.

What foolish haste men make in this life, needlessly! Wealthy as Mr. Burke was, there was no need of his attempting to excel the railway in that little space of earth and of time where the collision occurred. And so, last evening--honorable Senators attended to their business at home, (or lounged about this city because of the absence of those Senators who could get home over Sunday,) and then, riding in, weary and excited, proceeded to "legislate," on most important topics, in the heat and glare of a gas-lighted room, until near midnight! O for "the good old days" when men took time to enjoy solid comfort! Did not "make haste to be rich!" and were more satisfied than we are to take things easy and be content with good plain food, drink, dress, houses and surroundings!

Turn Pumps.--One of the papers has a paragraph laudatory of a pump on Third St. near Pine, (where I daily take a drink and find it good for the soul.) To see the hundreds and thousands of young and old, rich and poor, black and white, who rush to the public pumps of this city, is an amusing sight. Hydrants and ice water are not so good. Well arranged wells--deep, and so graded that no surface water can get into them--are public blessings, and the cause of temperance and of health (as well as comfort and economy) would be greatly promoted by the erection and protection of such institutions on all our great thoroughfares. Pure water and pure air are two prime promoters of health, and should be abundant and free as the sunlight and the rains.

WEDNESDAY, Aug. 17.

Yesterday, had a call from Capt. Abraham C. Grove, of 140th P. V., still suffering from a wound received near Spottsylvania C. H. He is a descendant of one of the Union county Groves who migrated to Mercer county. Capt. Thomas S. Strober, is promoted to be Lieutenant Colonel of the 57th P. V. And I see by the Adjutant General's Report that Capt. George Corman (who spent a winter at Lewisburg, raising a company for the 56th P. V.) fell in battle, Aug. 28, 1862.

The Senate passed some acts to cure (not cure) an alleged "want of incompetency" in the General Bounty Act of last session.

The House was in labor with the Militia Bill. Those who had done most to prevent "qualified electors" in the U. S. service from voting for civil officers, were distressingly anxious to give minors, foreigners and negroes (as well as "qualified electors") the choice of all officers in armies. It was finally passed, I believe, in the usual way--suitably qualified line officers to be appointed by the Governor, and company officers elected by the men. The allegation is made that the Knights of the Golden Circle are just now quite anxious to get into some military command, so as to set up their views of "State Rights" and get up a counter Rebellion in the North.

The debate in the House was unfortunate in opening again partisan views. By the Copperheads, Haker of Luzerne had any amount of invective against the Union Secretary of War, but none against the Rebel Secretary of War. Others on his side made speeches that would have been applauded in Richmond.

Considerable rain, last night.

The House went into consideration of the bill taxing incomes and moneys invested in personal property for municipal purposes, which had been passed at the last Legislature, but vetoed by the Governor a few days since. On the question shall the bill pass notwithstanding the veto? it was agreed to, and the bill was again passed by a unanimous vote of all the members present--eighty-four.

Mr. Smith, (Philadelphia,) from the select committee on the extension of the State capital, made a report, which, together with the bill, was indefinitely postponed.

On motion, the House proceeded to the consideration of the bill for the relief of Chambersburg. It appropriates \$100,000 for the benefit of the sufferers, to be distributed by a commission named in the bill, the basis of distribution to be, as far as practicable, the amount of their loss and their present pecuniary condition. The bill also makes provision with regard to the remission of taxes, for some years to come.

The Militia bill passed--70 yeas to 15 nays--the latter, all Copperheads.

THURSDAY, Aug. 18.

The Senate spent both sessions in earnest discussions upon the House Militia Bill--the Cops opposing it nearly every day, and having a great many faults to pick in it.

In the House, Mr. Sharpe (Democrat) from Franklin county, advocated half a million to a million of dollars for the damage done to Chambersburg. He was unwise enough to roundly assail the Government, because it had not saved that

town from the Rebels--said it was excepted for the sins of the nation--and rather over exerted himself in his plea for charity. He stated the loss in buildings at \$700,000, and in personal property and goods twice that sum--\$2,000,000 in all. The sum of \$1,000,000 from outside sources may be counted on. The bill as passed contributes \$200,000 (with various extras)--total, \$300,000. This is 15 per cent. or \$15 on the \$100,000 repayment. This is very liberal, as many of the losers are not ruined, but are independent still. Pittsburg lost by fire more than Chambersburg has, and the appropriation to it was only \$50,000. Hundreds of families are weekly made paupers, and not a cent is paid to them. Thousands of towns and cities have been burned in war without any compensation. Fifteen per cent. of remuneration, from loyal pockets, for all the losses caused by this war, would ruin the nation. Republican Chambersburg is no more deserving than a multitude of other places. Mr. Sharpe is an old Whig, of education and ability, who has seen some service in war, and has put the matter in the most favorable light possible.

I learn to-night that Senator JOHNSON is renominated in Lycoming by acclamation--not a delegate against him. He has not sought the honor, but may well be proud of so emphatic an endorsement by his own county. The estimation in which he is held at home, is shared by his brother Senators. None here is more attentive, able, indefatigable in his devotion to his duties, than Senator Henry Johnson; no one has been more esteemed for purity of purpose and strict integrity during three years of official service.

The Copperheads of Lycoming county nominated nobody for Congress, hoping Sunday would "turn up." For Senator, they named J. Harvey Humes, of Jersey Shore; for Assembly, John Piatt, Williamsport; for Commissioner Geo. Opp, of Moreland.

The friends of the Administration in Washington county met on Wednesday, and proposed for Congress, Wm. H. Armstrong, Esq., of Williamsport; for Senator, Henry Johnson, Esq., of Muncy; for Assembly, Jarvis Manly, of Jersey Shore; for Commissioner, Samuel Mendenhall, of Clinton Tp; for Auditor, Henry E. Taylor, of Williamsport; for Coroner, Sam'l Compton, of Susquehanna. The Convention was large and spirited.

Sherman's extreme right, the 15th Army Corps, commanded by Gen. Logan, was attacked on the 28th ult., by the Rebels under Hardee and Lee. The battle lasted three hours, during which time the Rebels made six charges, and were repulsed every time, sustaining fearful losses. Late in the evening, they again assaulted our troops with no more success. Their loss is estimated at 6,000 to 7,000, besides 1500 or 1600 stand of arms and five battle flags. Our loss (the men being protected by breastworks) is placed at but 572 men--50 killed, 539 wounded, and the balance missing.

FORTRESS MONROE, Aug. 17.--The steamer Thomas A. Morgan arrived here this morning from Deep Bottom, with 20 wounded soldiers of the Tenth corps. Our forces on the north side of James river have had continuous and very severe skirmishing every day this week. We have captured more prisoners than have been heretofore reported, but have no definite statement of the number. No general officers have as yet been reported either killed or wounded.

It is not thought at the Indian Bureau that the outbreak of Indians on the plains is general, or that it is stimulated by rebel emissaries; but there is information to induce the belief that a few bands only have resorted to pillage and massacre to redress individual wrongs committed against them or their families.

A new Rebel pirate, the Tallahassee, has turned up, and is committing great depredations among the marine commerce of the United States. She is reported to be an exceedingly fleet craft, and is intended more for running than fighting.

Gen. Burnside has been relieved from the command of the 9th Army Corps, in consequence of some failure at the battle before Petersburg at the time the Rebel fortifications were blown up. Gen. Park is commander of that corps.

Admiral Farragut and General Granger made an admirable movement against Mobile, taking forts, guns, materials, prisoners, to the very heart of the city, losing only 250 men in all, and one monitor being blown up by a torpedo.

The Rebel Wheeler with 1700 men, demanded the surrender of Dalton, Ga., on the 14th inst. This raid had been anticipated by Sherman, and our forces were prepared for it.

At Selma, Ky., on the 13th, 300 guerrillas were repulsed by 30 Union troops.

Farm for Sale.
THE south-west quarter of section 17, town 27, north range 8, east of the 4th principal meridian, the said Farm lies about two miles north of the city of Freeport, in Stephenson Co., Illinois, has about Forty Acres under cultivation, with Log House and other Outbuildings; is watered by one of the most beautiful Springs in the county, and the balance of the tract is covered by a thrifty growth of timber.

Every acre of the farm is susceptible of cultivation, and when suitably improved would make one of the most inviting residences in Illinois.

For particulars inquire of Francis Wilson, of Lewisburg, Pa.; Sam'l B. Harris, of Freeport, Ill., or the subscribers, at Saratoga, Ill. E. CHAMBERLIN, Nov. 20, 1863. L. H. BOWEN.
