Pure Wines and Liquors, for Medicinal Purposes.

PHYSICIANS, Draggists and invalids have often experienced the almost impossibility of procuring a pure wine or liquor in the country, when it becomes necessary to use it for the restoration of health. The arrangements of the Graffenburg Company for the purpose of guarding against imposition and adulteration, both in Europe and thiscountry, are complete, and any bottle bearing their seal, may be regarded as unquestionably pure and unadulterated.

J. H. Burrow's Patent Plantation

THIS Mill differs from all others in the construction of the upper or Running Stone, which is composed of French Eurr Blocks, enclosed in a cast from Case, which forms the back and hoop of the Stone with a Cast Iron Eye, or Bush, than is of greater external diameter at the hottom that at the top, which is secured to the back by four bolts, so that at the top, which is secured to the back by four bolts, so that every block is in the form of a dove tail which gives greater strength to a Stone than any other method which is required in small mills, where the stone is rim with great speed, and becomes dangerous if not strongly made. It also gives any weight to a stone of small diameter that is required without having it thick or high, that makes it top heavy.

This mill is a square frame made of wood or cast fron, in the form of a busk, with Bridge-tree, Spindle Baiance, Ring Driver, and Regulating Serew, and grinds u on the same principle as a large mill, differing only in the Runner Stone; this being of great weight enables it to grind nearer the center agreeter quantity of grain with te a power than any other this being of great weightenables it to grind nearer the cen-ter a greater quantity of grain with it is power than any other mill now in use. This mill is portable, and may be attached to steam, water, herse or hand power.

ALSO, all sizes of Erench Burr Mill Stones, manufactured on the same principle.

Joseph H. Burrows, of Cincinnati, is the inventor, for which he obtained Letters Patent in 1842. For all infringe-ments the purchaser will be held responsible for the right of using

These Mills do not require a Millright to set them up; and all that is necessary to put them in operation, is to attach a hand to the pulley on the spindle, with a drum sufficiently large to run a twenty-four inch Mill 240 revolutions per minute, attached to Gin, Steam, or Water Power. By the steady application of two horse power the Mill will grind a x to 8 bushels per hour of good meal: and will grind wheat as well as corn. The thirty linch mill, if put to its failest speed, will grind from ten to fifteen bushels per hour.

These mills are warranted to be in every respect as recommended. Blass ros Usino. - Place your mill about 20 feet from

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the Clerk's Office of the Listrict Court for the Eastern District of Pennsylvania.

REAT CURE FOR DYSPEPSIA!—ANOTHER SCIENTIFIC WONDER! DR. J. S. HOUGHTON'S

THE TRUE DIGESTIVE PLUID, OR GASTRIC JUICE, PREPARED from Rennet, or the Fourth Stomach of the Ox, after the directions of Baron Liebig, the great Phy-siclogical Chemist, by J. S. Houghton, M. D., Philadelphia,

Penn.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Laver Complaint, Consumption and Debility, curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

Half a tea-spoonful of Pepsin, infused in water, will digest or dissolve five pounds of roast beef in about two hours, out of the stormeth.

or dissolve five pounds of roast beef in about two hours, out of the stormach.

Pepsin is the chief element or digesting principle of the Gastrie Juice—the solvent of the food, the purifying, preserving and stimulating agent of the stormach and intestines. It is extracted from the digestive stormach of the Ox, thus forming an artificial digestive fluid precisely like the natural Gastrie-Juice in its chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation, the pains and evils of Indigestion and Dyspepsia are removed just as they would be by a healthy stormach. It is doing wonders for dyspeptics, during cases of Debility, Emaciation, Nervous Decline and Dyspeptic Consumption, supposed to be on the verge of the grave. The scientific evidence upon which it is based is in the highest degree curious and remarkable.

and remarkable.

Scientific Evidence.—Baron Liebig, in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastrie Juice, may be prepared from the nuccus membrane of the stomach of the Ox, in which various articles of food, as meat and eggs, will be softened, changed and digested, just in the same manner as they would be in the numer stomach.

changed and digested, just in the same manner as they would be in the numan stomach.

Dr. Preira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York, page 25, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Priera.

Dr. Combe, in his valuable writings on the "Paysiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all-prevailing cause of Dyspepsin:" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding every thing else to fail, had recourse to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in Physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

feeting a kind of artificial digestion of them in the ferent from the natural digestive process."

Dr. Simon's great work, the "Chemistry of Man," (Lee & Blanchard, Philadelphia, 1816, pp. 321-2,) says: "The discovery of Pepsin forms a new era in the chemical history of digestion. From recent experiments we know that food is dissolved as rapidly in an artificial digestive fluid, prepared from the internal Gastrie Jusce itself." Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than rifty pages to an examination of this subject. His experiments with Dr. Beaumant, on the Gastric Juice obtained ments with Dr. Beaumant, on the Gastrie Juice obtained from the living human stomach, and from animals, are well known. "In all cases," be asys, "digestion occurred as; ar-fectly in the artificial as in the natural digestion." Dr. John W. Draper, Professor of Chemistry in the Col-lege of the University of New York, in his "Text Book of Chemistry," page 386, says: "It has been a question whether

lege of the University of New York, in his "Text Book of Chemistry" page 336, says: "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpentee's standard work on Physiology, which is in the library of every physician, and is used as a text-book in all the colleges, is full of evidence similar to the above, respecting the remarkable digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ex, and used for experiments in artificial digestion, or as a remedy for diseases of the stomach, and deficient secretion of the Gastrie Juice.

as a remery for diseases of the sandari, and decided and Phy-tion of the Gastrie Juice.

All modern works on Chemistry, Materia Medica and Phy-siology, and all good Medical Dictionaries, describe the char-acter and properties of Pepsin, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastrie Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

mind.

As a Dyspepsia Curer, Dr. Houghton's Pepsin has produced the most marvellous effects, in cases of Debility, Emacuation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than two hundred remarkable cures, in Philadelphia, New York and Boston alone. These were nearly all the great agests and the cures were not only rapid and wonadelphia, New York and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful, but permanent.

It is a great nervous antidote, and particularly useful for tendency to Bilious Disorders, Ever Complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine and Mercury and other drugs upon the digestive organs, after a long sickness. Also, for excess in eating, and the too free use of ardeut spirits. It almost reconciles health with intemperance.

Old Stomach Complaints.—There is no tourn of old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad it may be, it gives instant rebief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of blood and vigor of body follow at once. It is particularly excellent in cases of Nansea, Vomiting, Cramps, Soreness of the Pit of the Stomach, Distress after Eating, Low, Cold State of the Blood. Heavyness Lowness of Spirits, Despondency, Ema-

DR. ARNOLD'S UNION PILLS.

Gexes Hill, Tenn., January 19, 185

Da. Arrold Draz Sa.—I ocusider it but an act of tice to yourself and the community, to state to you the great benefit I have received from the use of your Pills. Having been for quite a number of years, gratroubled with dispepsia, end constitution of the bowel times alarming me greatly. I used every other remedy, most that I ever read or head of for the discuse, all withst the least beneficial effect. I had almost core to the believing the different Pills, medicine, Ac.; but on hearing my neighbors speak so frequently of the beneficial effects of your Union Pills, I concluded to give them a trial, and bought a fifty cents vial, and commenced their use. From the first dose of one Pill I was satisfied it was the medicine for me. I have not yet used quite one vial, and can now say to you with the utmost pleasure, that I have not for the last ten years felt as well, or enjoyed such good health, as I have since commencing the use of your Fills. I would take no sum for the good these Fills have done me, and almost every branch of my family have used them with the same happy effect. At times some of the negroes have had symptoms of fever—at the first complaint I have given them one or two Fills, and never had to repeat the dose but once, which effected a cure. Your other neclicines used by my family, have had the most happy effect. I shall always uses a supply of your Fills on hand, and I think that no one, laboring as I have under great debility and dyspepsia, with all their evil consequences, but what would, after a use of your medicines, join me in saying the same of them.

Respectfully

JEW DAVID'S HEBREW PLASTER.

THE great remedy for Rhemmalism, Goat, Pain in the Side, Hip, Back, Limbs and Joints, Scrofula, King's Evil, White Swellings, Hard Tumors, Stiff Joints and all pains whatever.

Where this Plaster is applied, Pain cannot exist. It has been beneficial in cases of weakness, such as Pain and Weakness in the stomach, Wesk Limbs, Lameness, Affection of the Lungs in their primary stages. It destroys umation by perspiration.

Therevox, Gibson County, Tenu., Nov. 7, 1848.

Messrs, Scovin & Maxo—Geatlemen: The Hebrew Plaster is becoming popular in this section. There is a light in this county who says she would not be without this Plaster for five hundred dollars a year. She was afflicted for some time with an enlargement of the spicen, which gave har agreat deal of pain. The swelling and pain had extended up nearly to the arm-pit, and occasionally she could carriedy breathe. She was confined for a considerable time, diffing which she was attended by some of our best physicians, but they gave her no relief. She presented a box of the Hebrew Plaster, and it relieved her almost immediately, and now she keeps a supply of it on hand constantly. These facts you are at liberty to use as you think proper—they are substantially true.

Respectfully, yours, &c.

For the cure of Painful and Disordered Monatrussion, Mis-carriage or Abortion, and the robef of all these Sympa-thetic Nervous Affections attendant on Pregnancy. In setting forth the merits of this valuable remedy, the In setting forth the neerite of this variable remeay, the proprietor has been actuated by the certainty resulting from experience, that the most gratifying effects will be found attendant on its use. Besides those complaints which have been named, the Philotoken may be used with advantage in Fluor Albus, Protypsus Uteri, Gravel, Dropsy, Dyspupsia, and even in Consumption. In some of these, auxiliaries will be required to perform a cure, and in others, it can act only as an auxiliary, or a palliative to remove the tempora-

ry suffering.

The Philotoken is not offered as a core for all the tills which flesh is here to, but as a remedy and preventive for a certain class of complaints in which it is warranted to do all that is here set forth, or that medicine directed with experience and skill can.
