Picket Tobacco Warehouse, HAYNES & GRAHAM, Proprietors, CORNER OF EIGHTH AND MAIN STREETS, Louisville, Ky.

Louisville, Ky.

THE above fire proof Warchouse is much enlarged and is doing a fine business. Our receiptabave been upwards of 10,000 horsheads since the opening of our house—let of October, 1851—and our sales have been very satisfactory. Our mode of selling is as follows, viz: Every hogshead tiput up and sold on its own merits, andafter the sale it is with the owner to confirm or reject the rame, at his pleasure. One Doilar per hogshead coversait charges to the owner, after its arrival at the warehouse and he receives his money at the warehouse office as soon as the bills can be made out. We are prepared to pay all charges on Tobacco consigned to us, and hold stablect to the instructions of the owner.

This warehouse is now doing the most extensive business of any Tobacco warehouse in Kentucky, and we piedge ourselves to attend strictly and promptly to all Tobacco entrusted to our care; and we refer to our past year's business—merchants, shippers, and planters generally.

Pure Wines and Liquors, for Medicinal Pure Wines and Liquors, for Medicinal Purposes.

PHYSICIANS, Oraggists and invalids have often experimened the almost impossibility of procuring a pure wine or liquor in the country, when it becomes necessary to use it for the restoration of health. The arrangements of the Graeffenburg Company for the purpose of guarding against imposition and adulteration, both in Europe and thicountry, are complete, and any bottle bearing their seal, may be regarded as unquestionably pure and unadulterated.

In importing from New York what is presumed to be the purest article of

port Wine and Brandy, hat has been offered for sale in the city, theubscriber has not been governed by motives of pecuniary interest.

He therefore offers these articles in cases of ONE DOZEN EACH at New York prices, viz: \$12 perdozes.

Persons who may wish to obtain single bottles of eliber, may do so of G. H. WESSELL, Opposite State Bank, Union street, ALEL MACKENZIE, Agent, Graf, company.

TO THE FARMERS OF TENNESSEF.

THE undersigned having procured the exclusive right to this State, effers forsale, First Frend um Machine.

MANNY'S PATENT ADJUSTABLY NORTHERN HAROIS REAFER AND MOWER.

Awarded the area premium for mowing, and the second for reaping, at the New York State Pair, in the great trial at Geneva and New York, to July, in competition with eleven other Muchines; awarded a Silver Medicial the Ohlo State Fair for the best reaper and mower; and received the highest award at the Vermout and Michigan State Fairs, for the best reaper mad mower; and received the highest reaping and mowing machine.

The true merit of this Machine has given it a great triumph over all others, and being a perfect combination of a Resper and Mower, it comes to the farmer with double value; and it is clearly demonstrated to be the only successful combination of Reaper and Mower.

As a miwer it is simple and as perfect as though constructed expressly for mowing, and as a Reaper it is assimple and perfect as if constructed for reaping only—all the change that is necessary from one plan to the other, is to insert or remove a loane plantorm.

With a pair of horses, one driver the Machine will more

remove a longer platform.

With a pair of horses, one driver, the Machine will mow from 15 to 20 acres per day, depending on the ground. It will resp the same quantity rejuting two made, in ranuleg over broken ground. The driver can lower or elevate as he may choose. he may choose.

The price of the Machine, delivered at Nashville, is 3250, or they will, if ordered, be delivered at Memphis, or any point on the Mississippi, between there and Mill's Point, or at any point on Cumberland river, between the State line and Nashville, or at Chattanough, or at any point between there and Nashville, on the Railroad, at the same price. I IFE INSURANCE is simply setting aside and investing a sum yearly, with a certainty of a safe return with secundations; whereas other investments, with a profitable and sure return, are not so easily found, and often end in an

gether, under a contract, to support each other's families in case of death. In order to accomplish this it becomes ne-cessary to establish a fund, which is done by a yearly contribution, duly apportioned among them according to their expectations of life, and the amount to be received by the expectations of life, and the amount to be received by the family at each one's decease.

Suppose a person at 25 years of age, whose premium on \$1,000 would be \$20.00 a year, should put this sum out at interest—at the end of one year, it be should decease, his

family barely gets \$20.00 with interest added, making 21.20 only. Whereas, from a life policy they would get \$1,000 with his proportions of the accumulation. Further information can be obtained by calling on P. P. P. P. C. K. Agent,

CORY MILL.

THIS Mill differs from all others in the construction of
the upper or Kanning Stone, which is composed of
French Burr Blocks, exclosed in a cast iron Case, which
forms the back and hoop of the Stone with a Cast Iron Eye, or
Bush, than is ofgreater external dismeter at the bottom that
at the top, which is secured to the onch by four boils, so that
every block is in the form of a dove tail, which gives greater
strength to a Stone than any other method which is required
in small mills, where the stone is run with great speed, and
becomes dangerous if not strongly made. It also gives any
weight to a stone of small diameter that is required without
having it blick or high, that makes it top heavy. having it blick or high, that makes it top heavy.

This mill is a square frame made of wood or east iron, in the form of a busk, with Hadge-tree, spindle Balance, King Driver, and Regulating Scrow, and grinds u on the same principle as a larke mill, differing only in the Runner Stone; this being of great weight chables it to grind nearer the contern agreeder quantity of grain with less power than any other mill now in use. This mill is portable, and may be attached to steam, water, horse or hand power.

ALSO, all sizes of Krench Burr Mill Stones, manufactured on the same principle.

ALSO, all sizes of Erench Borr Mill Stones, manufactured on the same principle.

Joseph H. Burrows, of Cincinnali, is the inventor, for which he obtained fetters Patent in 1832. For allinfringement, the parchaser pail be held responsible for the right of osing.

These Mills do not require a Millright to sot them up; and all that is necessary to put them in speralion, is to award a hand to the pulley on the spindle, with a drain sufficiently large to run a twenty-four inch Mill 240 revolutions per minute, attached to Gin, Staten, or Water Power. By the steady application of two horse power the Mill will grind a x to 8 businels per hour of good meal; and will grind wheat as well as core. The thirty inch mill, if put to its fullest speed, will grind from ten of fibeen tueshes per hour.

These mills are warranted to be in every respect as recommended.

DR. ARNOLD'S UNION PILLS.

DR. ARNOLD'S UNION PILLS.

Gurge Hell, Teum, January 19, 1852.

Dr. Arnord Dran Sin—I consider it but an act of justice to yourself and the community, to state to you the very great benefit I have received from the use of your Union Pills. Having been for quita a number of years, greatly troubled with dispepsis, and constipation of the bowels, at times alarming me greatly. I used every officer remedy, almost that I ever read or head of for the disease, all without the least bereficial effect. I had almost come to the belief, that it was useless to try any more; as I labored under great debility, and my stomach was greatly injured by taking the different Pills, medicine, Ac.; but on hearing my neighbors speak so frequently of the beneficial effects of your Union Pills, I concluded to give them a trial, and bought a fifty cents vial, and commenced their use. From the first dose of one Pill I was satisfied it was the medicine for me. I have not yet used quate one vial, and can now say bengit a first cents vial, and commenced their use. From the first dose of one Pill I was satisfied it was the medicine for me. I have not yet used quite one vial, and can now say to you with the utmost pleasure, that I have not for the last ten years felt as well, or enjoyed such good health, as I have since commencing the use of your Pills. I would take no sum for the good these Pills have done me, and almost every brunch of my family have used them with the same happy effect. At times some of the negroes have had symptoms of fever—at the first complaint I have given them one or two Pills, and never had to repeat the dose but once, which effected a cure. Your other medicines used by my family, have had the most happy effect. I shall always keep a supply of your Pills on hand, and I think that no one, laboring as I have under great debitty and dyspepsia, with all their evil consequences, but what would, after a use of your medicines, join me in saying the same of them.

The following commendation is from an agent residing at Trenton, Tennessee. Theorox, Gibson County, Tenn., Nov. 7, 1848.

Messrs, Scovit & Mean—Gentlemen: The Hebrew Plaster is becoming popular in this section. There is a lady in this county who says she would not be without this Plaster for five hundred dollars a year. She was afflicted for some time with an enlargement of the spleen, which gave her a great deal of pain. The swelling and pain had extended up nearly to the arm-pit, and occasionally she could scarcely breathe. She was confined for a considerable time, during which she was attended by some of our best physicians, but they gave her no relief. She procured a box of the Hebrew Plaster, and it relieved her almost immidiately, and now she keeps a supply of it on hand constantly. These TRESTON, Gibson County, Tenn., Nov. 7, 1848.

The fact that an Artificial Digestive Fluid, or Gastris, Julies, perfectly resembling the natural third, may be readily pre-pared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggestiself to the mind.

siclogical Chemia, by J. S. Houghton, M. D., Philadelphia, Penn.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Janudice, Liver Complaint, Consumption and Debritty, curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

Half a tea-spoonful of Pepsin, infused in water, will digest or dissolve five pounds of reast beef in about two hours, out of the stomach.

Pepsin is the chief element or digesting principle of the Gastric Juice—the solvent of the food, the purifying preserving and stimulating agent of the stomach and intestines, it is extracted from the digestive stomach of the Ox, thus forming an artificial digestive fluid precisely like the natural Gastric-Juice in its chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation, the pains and evils of Indigestion and Dyspepsia are removed just as they would be by a healthy stomach. It is doing wonders for dyspeptics, during cases of Debility, Knus-

dense upon which it is based in in the highest degree curious and remarkable.

Scientisie Evidence.—Baron Liebig, in his celebrated work on Animal Chemistry, asys: "An Artificial Digestive Fluid, analogests to the Gastric Juice, may be prepared from the mucous membrane of the stomach of the Ox, in which various articles of food, as meat and eggs, will be saftened, changed and digested, just in the same manner as they would be in the numma stomach.

Dr. Pretra, in his famous freatise on "Food and Diet," published by Fowler & Wells, New York, page 25, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Priera.

Dr. Combe, in his valuable writings on the "Paysiology of Digestion," observes that "z diminution of the dus quantity of the Gastric Juice is a prominent and all-prevailing cause of Drspepsia." and he states that "a diatingnished professor of medicine in London, who was severely afflicted with this complaint, Ending every thing else to fail, had recourse to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in Physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Dr. Simon's great work the "Chemistry of Man," Lee & Blanchard, Philadelphia, 1848, pp. 321-2, says: "The discovery of Pepan forms a new era in the chemical history of digestion. From recent experiments we know that food is dissolved as rapidly in an artificial digestion occurred as perfectly in the artificial as in the natural Gastric Juice itsek."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gast

Dr. Carpenter's standard work on Physiology, which is in the library of every physician, and is used as a text-book in all the colleges, is full of evidence similar to the above, re-specting the remarkable digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or or, and used for experiments in artificial digestion, or as a remark for diseases of the atomach, and delineart secre-tion of the Gastric Juice.

As a Dyspepsia Curer, Dr. Houghton's Pepsin has produced the most mary clions effects, in cases of Dehility, Emacation, Norvous Decline, and Dyspeptic Consumption.
