FURRY COAT FOOLS JANUARY SHIVERS

(By Betty Brown.)

New York.—If one were this delightful fur-trimmed coat the cold could be defied, for this charming garment achieves what is so difficult in a bulky winter coat, both grace and warmth.

This coat is of taupe duvetyne and the fur trimming which is so vastly popular this year is applied in unique manner—broad bands on the collar and down the front and four narrow bands encircling the hem. There is no fur on the sleeve and the heavy silk cord makes both for ornament and lightness. The hat is of the same fur, moleskin, and there is an odd trimming of chenille and feathers.

The regular meeting of the war work committee will be held Tuesday morning at 11 o'clock at the Y. W. C. A. Mrs. J. T. Lupton, in charge, desires that all members be present to discuss plans incident to the opening of the new training camp.

MISS COX TO PRESENT "POLLYANNA, THE GLAD GIRL" Miss Garnet Liggett Cox will present "Pollyanna, the Glad Girl," Monday evening, Jan. 7, at the Junior High school. This will be the second number of the Alkhest lyceum course under the auspices of the Junior High Civic League, and promises to be one of the most entertaining numbers of the season.

Miss Cox, although especially pleasing as Pollyanna, is equally as good taking the parts of Jimmy Bean, Nancy, Mr. Pendleton, and Dr. Chilton.

RED CROSS DRIVE TO REACH EIGHT THOUSAND Deficit, Due to Excess of Snow and Cold, Not Failure of Patriotism, Say Leaders.

While it has seemed almost impossible to cope with weather conditions, that the two federations of parent-teachers' associations, with Mrs. Jerome O. Devlin and Mrs. E. H. Byrd in the lead, have been able to round up an increased membership of 5,500 for the local Red Cross in the "drive" now being waged is a matter for congratulation in this city. Hamilton county's quota of 10,000 is very close reached, considering the fact that an unprecedented snowfall has prevented the prosecution of the drive in rural sections to the degree which would have been afforded had the weather been favorable.

"I have lived here for fifty years," said Hon. H. Clay Evans to a News representative this morning, "and I have never before known the snow in this section to remain for four weeks. In view of this fact I think the asso-

clations have done nobly."

Mr. Evans pointed out that while Hamilton county has not quite reached its quota, in some other places they have exceeded the figure aimed for, and accordingly the drives will equalize in the aggregate. The pupils of the county schools, despite unfavorable weather conditions, have been able to roll up a membership in the Red Cross of over 1,500.

The drive will continue in both city and county until after the middle of the month, when it is thought that the deficit will be greatly reduced. There is no question in the minds of Mr. Evans, Mrs. Devlin and Mrs. Byrd but that if an open winter could have been vouchsafed, when teams were able to make their drives uninterruptedly, the number aimed for would have been reached with ease.

So the 1000 deficit simply means an excess of opposing snow and cold, not a lack of the patriotic spirit.

Dr. E. A. Elmore's Bible class at the Y. W. C. A. will meet Tuesday evening at 7, following the holiday recess.

Rev. W. R. Johnson's Bible class will meet at 10:30 Tuesday morning.

J. A. MORROW TO TALK AT Y. W. C. A. VESPER

INGLE-BANDY WEDDING ANNOUNCED

The Daisly school faculty announces the marriage of one of its most popular members, Miss Alpa Bandy, to Robert J. Ingle, of St. Elmo. The wedding was solemnized Sept. 20, 1917, and while it has been an open secret to the faculty, the announcement came as a surprise to their many friends, although it was the culmination of a long courtship.

The bride is the daughter of Charles F. Bandy, of Bakewell, and has been one of Hamilton county's most efficient teachers for the past four years.

The groom is the son of A. Ingle, who has been a resident of St. Elmo for a number of years. He is at present stationed at Columbia, S. C., with the Three Hundred and Twenty-fourth infantry.

The Cherokee Indian club of the Shinn Memorial church will serve a hamburger lunch on the roof of the church Friday night at 6:30. Those at the lunch there will be a social and community singing.

DR. PFITZNER TO APPEAR IN PIANO RECITAL SOON

The appearance in piano recital of Dr. H. Pfitzner, under the auspices of the Chattanooga Music club, during this month will be a musical event of great importance. He has appeared as pianist in Europe and America with well merited success. His recitals are followed by press comments almost uniformly appreciative in the highest degree.

The Chicago Music News says: "It would be most difficult to single out any individual number, but especially notable will be a musical event of Pfitzner's own suite 'From Birdland.' The Toccatto and the Gaudemus are extremely difficult virtuoso pieces, but the artist evidently did not experience any technical difficulties, and gave a wonderful reading. Pfitzner showed throughout the program that he is a master of tone and technique; his sound musicianship and artistic insight also were most impressive. The recital was an artistic triumph."

As an author his compositions created favorable comments wherever played and the San Francisco "Pacific Coast Music Review" mentions his suite "From Birdland" as follows: "Dr. Pfitzner's suite is pleasantly free from ultra-impressionistic methods and the six little melodies of the themes are given an unbounded freedom by convention. Many charming descriptive effects were obtained with quite simple devices, and to have something new to say of the music in itself no mean recommendation."

Dr. Pfitzner is known to be a pedagogue of the highest rank, having been connected with the principal conservatories of the north. His students are known to acquire a technique and virtuoso style in comparatively short time.

He is engaged by the Cadec conservatory of music to open courses in piano, theory and musical history by Saturday, Jan. 5.

MISS WILLIAMS BRIDE OF JOHN M. DIVINE

The wedding of Miss Roberta Williams and John McCallig Divine was quietly solemnized this morning at 9 o'clock at the home of the bride's parents, Mr. and Mrs. Taylor Williams, in Foust addition, Dr. I. D. Steele, pastor of the Third Presbyterian church, officiated.

The bride was tired in taupe tulle, with silver lace hat and white shoes and gloves. She wore a corsage of Bride's roses and valley lilies.

There were no attendants and only the immediate family witnessed the ceremony.

Mr. and Mrs. Divine have gone to housekeeping at 1214 Duncan avenue.

The regular meeting of the Parent-Teachers' association of the Chestnut street grammar school will be held Wednesday at 2:30 o'clock at the building. All mothers are urged to attend.

CROUP AT MIDNIGHT; WELL IN MORNING

"A few nights ago one of my patrons had a small child taken with croup about midnight," writes M. T. Davis, Bearville, W. Va. "They came to my store and got a bottle of Foley's Honey Syrup. Before morning the child was entirely recovered. The father's name is C. C. Craven." Isn't it unwise to experiment with unknown cough medicines when you can get the genuine Foley's Honey and Tar? Best for coughs, colds, croup and laryngitis. Jo Anderson, Druggist, Chattanooga, Tenn.—(Adv.)

HOSIERY MILLS HAS HOSPITAL

United Corporation Employs Trained Nurse to Look After Sick Operatives.

The United Hosiery mills corporation at Avondale has adopted sanitary measures that could well be emulated by all industries in the Chattanooga district where large numbers of both sexes are employed.

Many of the operatives are from the country and have little knowledge of the great dangers lurking in the non-observance of sanitary laws where so many are gathered together within-doors.

The hosiery mills company has fitted up a first aid and emergency hospital, with an entire winter outfit of equipment. There is an operating table and rack for antiseptic dressings, an operating chair, etc., with a white hospital cot.

The hospital is in charge of a registered nurse. She keeps a daily record of all cases coming under her care, and goes through the mills three times a day on inspection tours to see that every part of the vast establishment is in a perfectly sanitary condition.

During the recent cold, damp weather she has had a large number of patients to treat for diseases of the respiratory tract. Whether it is due to not so trying on the operatives, she hopes to find time to visit them in their homes.

Peace in 4 Months, or a Year More of War, Is British View

Diplomatists Working Desperately to Do What Militarists Failed to Accomplish—French Expect to Receive Next Blow in Fighting and Are Prepared.

(By Arthur S. Draper, in New York Tribune.)

London, Jan. 2.—Britain is much like the leading shell entering the fourth mile of a gruelling boat race. She is tired, she is anxious, she is even worried, but she is still confident that she will cross the finish in front.

The race has been a surprise to her and she has lost a lot of her self-assurance. There is only one danger; that all the oarsmen may not hold the stroke of the toughest part of the race. Some of the crew are now wabbling and the boat no longer rides on an even keel.

Nevertheless, it is being held in front by a dogged, fierce determination of the strong-hearted members, and although the stroke may lack polish, it contains a world of driving power.

When the race will end no one knows—not Lloyd George, nor Clemenceau, nor Orlando, Herlein, nor Czernin, Haig, Petain nor Pershing, Hindenburg, nor Ludendorff. They have their opinions—so has every European—but, like a statistician with a pile of figures in front of him, they do not study it the more uncertain they become.

Diplomats to Work Hard.

Between now and the coming of spring the diplomatists will work desperately to do what the militarists have failed to accomplish, and perhaps they have one chance in ten of reaching a settlement by mid-April. But, generally, big things come through by hard work and superiority in numbers and materials.

If the diplomatists fail, if the moderates do not quicken their pace, if the growing band of labor socialists in the physical occupation of one set of countries by the other set, with peace dictated by the victor.

Allies' Faith in America Strong.

After the last three months, especially since the Italian disaster, the whole tenor of attitudes of allied statesmen has been that America would furnish the straw to break the enemy's back. There have been many variations of this theme, but fundamentally they are the same.

If the allied statesmen are honest in their declaration to their peoples, they consider America able physically, economically and financially to beat the enemy.

There is no reason to doubt them, because few statesmen in any country would dare to gamble heavily or promise much at this stage of the war. Their power and position at present are as unstable as a seat on a picket fence.

The same facts, or at least the essential ones upon which allied statesmen base their declarations regarding America, are in the hands of the enemy leaders. Whatever is said about the German, he is a mighty cool, cold-blooded calculator, who does not judge with facts merely to suit his wishes. This is the reasoning of those who expect an early ending of the war. They argue that both sides are now guided more by facts and less by sentiment, that the leaders are turning toward compromise, that the fear of the mighty responsibilities they carry and the wave of dissatisfaction that is sweeping over every country.

Labor Taking the Lead.

The last months of the old year brought the astonishing movement in Britain. Labor, which has been the cement holding together other classes, now threatens to become the foundation of the whole political structure. The British working classes and the labor party are becoming powerful political factors. Instead of pleading, they are now beginning to dictate, and they are bound to win, because those who bear responsibility apparently have nothing to offer as an alternative.

Unquestionably Russia to date has influenced the course of the war to an immeasurably greater degree than has America, whose power is still largely potential. The loss to the allies of Russian military power, great as it was, seems small as compared with the political effect the Russian developments had on the rest of Europe. The Russian revolution marked the real birth of the present radical

influence on the German internal situation.

Discounting that part of the present Pan-German protest intended as camouflage, there still remains enough to show that the Junkers do not like the Russian developments and that they fear the movement toward radicalism more than they do military threats. Instead of Russia strengthening the German ruling classes, it seems much more likely that the developments will have to emphasize President Wilson's distinction between the German people and their rulers. That is becoming the view here at least.

If the diplomatists fail, the fighting will reach a high pitch of intensity again by spring. Germany will attempt to open her counter-campaign early.

The French firmly believe they will receive the first blow, and need not say they are ready for it. In a short campaign both sides can put huge forces in the field.

A desperate peace push and a driving military campaign are expected by all observers over here.

MAY BE MEATLESS BUT NEVER HEATLESS

Restaurateur Arbitrarily Furnished Heat—Claims He Is Not Legally Bound.

The American cafe may have "meatless" Tuesdays, "whateless" Wednesdays and "lightless" Fridays, but never a "heatless" day, this fact being brought out on Friday before Squire Dobbs, where the manager of the cafe was defendant in a suit for \$45 for heat bill. The restaurant is located beneath the Glenn hotel, and the proprietress of the hotel was suing the restaurateur proprietor for \$45 for the use of the heat. It developed at the trial that the plaintiff was claiming the amount involved as the result of pipes from the hotel running down through the restaurant into the basement, the restaurant thereby receiving the benefit of the heat from the pipes.

The plaintiff claimed that she offered to allow the defendant the use of the heat for \$15 a month, but no contract had been made. The defendant claims that the plaintiff did come to him and offer him the heat for \$15 a month, but he refused, as he was getting the heat anyway. When the proprietress of the hotel was asked why she did not cut off the heat from the restaurant
