"BEPPO GIFFE," SOME DOG, ENTERS THE LIMELIGHT

Earns Twenty-one Dollars for First District School in Red Cross Drive.

His dogship, "Beppo Giffe," made his initial bow to the public at an entertainment given at First District school Thursday afternoon before an excited crowd of children and their elders.

For the first time in the history of the Clara Carpenter school, the school principal was unable to control the high spirits of the kiddies when the dog walked into the "arena" of one of the school rooms yesterday, where the expectant audience sat in eagerness, awaiting his part of the program.

His trainers, John and George Giffe, sons of Mr. and Mrs. John Giffe, of High street, served as ringmasters and the performance began with a jump through one of the keeper's arms.

There was also a crowd downstairs which could not be accommodated above, and word was passed to let the dog save the crumbs of the feast for a second performance, which was done.

The admission was 5 cents, and the good-natured receipts attest the fact that Beppo's fame had been heralded.

Beppo is of no special breed—"just dog, and only a 3-month-old puppy at that," explained the mother of the boys to a News representative.

During the performance Beppo lost his khaki trousers and when his act of defiance became too barbed, he turned around and barked them into order and attention.

An Inside Bath Makes You Look and Feel Fresh Says a glass of hot water with phosphate before breakfast keeps illness away. Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowels do. Men and women are urged to drink each morning, before breakfast a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash out the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. Those who wake up with bad breath, coated tongue, nasty taste or have a dull, aching head, sallow complexion, acid stomach; others who are subject to bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to demonstrate the value of inside bathing.—(Adv.) BENN MESSENGER SERVICE Main 501 or Main 544.
