MOMENTUM OF BATTLE ON WESTERN FRONT GAINING

Forces of Both Sides Massed for Vital Effort Result Movements During Three Months of Relative Quiet—Operations in East Expected to Affect Events in France.

Washington, March 4.—Continued preparatory movements on the part of the Germans along the western front are noted today by the war department in its review of the military situation for the week ending March 2. "The momentum of battle is increasing," the statement declares, citing three attacks by American troops as an example of what is taking place "on a larger scale along the entire western front." "The definite announcement is made that American forces have taken over a sector northwest of Toul and that a number of detachments are in action in the Champagne. Operations in the eastern theater are expected to affect events in France, through a modification of German plans and flexibility of control. Six Teuton columns are operating in Russia, and to only one of these—the column moving towards Vitebsk—is any opposition noted. "In the Caucasus, advancing in the Caucasus are meeting with little resistance, and are massacring Armenian residents of the districts taken from the Russians. "War Review in Full. The review follows: "The third month of relative quietence on the western front has come to a close. During this period both belligerent groups have been massing their forces. "There is evidence that the enemy continues to bring up fresh units. Owing to transportation difficulties this has been a slow and laborious process. The allied war council is now in continuous session, assuring complete plans and flexibility of control. "The British have extended their front. "Our own forces have taken over a sector northwest of Toul. In addition, British are advancing on the front in action in Champagne and the momentum of battle is increasing. "We have but to note the occurrences of the past week in our own sector in Lorraine in order to gain an idea of what is taking place. Patrols have been very active. Early in the week the enemy made two attempts to reach our lines, but was driven off by machine gun fire. On March 1 the enemy developed a sharply driven attack. After a short struggle the hostile detachment was repulsed. "The Germans are now using gas along our front. Our men are becoming accustomed to this weapon. Our gas masks are efficiently protective. Our artillery was very busy shelling enemy dispositions, and inflicted considerable damage on gun and mortar emplacements. "Important troop movements took place behind the German lines opposite our front. "Six Attacks Defeated. "In spite of the low visibility, hostile aircraft continued active and made frequent incursions over our lines. "In the region of the Chemin des Dames lively encounters took place. A French raid made on the German outposts, in which a number of American volunteers participated, was very successfully carried through. "On Feb. 24 the French executed a coup de main, destroying hostile defensive works and shelters near Aspremont, in upper Alsace. Small raids in Champagne and Lorraine were also recorded. The enemy also was driven back while attempting to react in the vicinity of the Butte du Mesnil and the Chemin des Dames. "The boldest enterprise undertaken

by the enemy during the week took place north of Dixmude. Here, after prolonged artillery preparations, the enemy endeavored to throw a bridge across the Yser. The Belgians successfully prevented six consecutive attempts to push this operation to a successful conclusion. "The new trend of events in Russia has no doubt modified German plans to a certain degree. For the time being the enemy continues to advance eastward. Following the highways and railroads six columns of German troops are advancing in the vicinity of Vitebsk at an average rate of sixteen miles daily and has passed beyond Pskov. This force has met with some opposition. After the capture of Minsk the hostile army operating in this area continued its advance and is apparently headed for Smolensk, and its ultimate objective, should continuing fine weather course unimpeded, would be to cut off and possibly occupy Moscow. "To Stem Invasion. "The fifth column, operating in the Pripiet sector, is also converging on Simonsk, with Moscow as a final objective. The sixth column, composed of Austrian forces, operating in Volynia, has been able to advance more than 200 miles into the interior and is reported to be within sixty miles of Kiev. "The Russians are believed to be preparing to stem the tide of invasion. Petrograd is being prepared to withstand a siege. "In the Caucasus the region from the Lake of Van to the Black sea is again in Turkish hands. In the districts recaptured by the Turks it is stated that they are massacring the Armenians. "In Palestine the British are in close contact with the Turks, who are retreating northward through the valley of the Jordan. In Mesopotamia the British are advancing up the Euphrates and have arrived in the vicinity of Hit, which is reported to have been evacuated by the Turks.

SEDITIONARY LETTERS FOUND IN FREIGHT CARS

Marshal Thompson Will Institute a Rigid Investigation of the Matter.

(Special to The News.) Knoxville, March 4.—Seditionary circulars have been found in Sevierville in freight cars coming from Evansville, Ind., according to a letter received by United States Marshal John H. Thompson from R. D. Marshall, of Sevierville. Mr. Marshall states in the letter that the circulars were found stuffed in the door of the car.

The circulars contain purported statements of men in distant parts, in which President Wilson is quoted as making false statements unfavorable to the poorer class of people. An investigation is being made by federal officials.
