

“STAND BY US!”

THIS is the message that we hear daily from our heroes who are dying for the cause of Liberty on the battlefield in France. The world must be made safe for democracy. Hundreds of thousands of brave Americans have already shouldered arms and are on the way to meet the Huns. The greater portion of these are now facing the enemy across the trenches. These men are giving their all; what are you giving? Their needs must be supplied. They must have food, clothing and munition supplies, all of which must be furnished by the American government. Remember that you are a part of the American government, and a part of this expense must be borne by you individually.

The Government does not ask you to donate a single dollar, but only to lend on the strongest security in the world—the entire wealth of the United States. A simple and convenient arrangement has been perfected by the Government in the form of Thrift Stamps, costing only 25c each. Sixteen of these stamps and a cash payment of from twelve to twenty-three cents will entitle the holder to a War Savings Certificate Stamp for which you will be paid on Jan. 1, 1923, five dollars. This money goes to support the soldiers who are fighting for the safety of you and your loved ones at home.

Bear in Mind If You Want to Succeed, SAVE! The First Principle of Money-Making Is Money-Saving. Don't Put Off Until Tomorrow Buying War Savings Stamps That You Can Buy Today. A Penny Saved Is a Penny Gained. All Fortunes Have Their Foundations Laid in Thrift. Many a Little Makes a Mickle. Great Oaks From Little Acorns Grow. Thrift Begins With Little Savings

Do Your Duty, Buy a War Savings Stamp Today, Tomorrow and

Every Day Until the War Is Ended!
