

"ATTACKS SHATTERED", BERLIN OFFICE CLAIMS

Of Engagement Before Morey and Bapaume—Armored Vehicles Destroyed.

Berlin (Via London), Aug. 26.—Text of German official report: "Enemy attacks were shattered before Morey."

"Enemy forces stormed many times against our front, extending after the battle of Aug. 23, from west of the Bohanics-Bapaume-Warlencourt line. The attack was initiated by bringing in numerous tanks in the center against Bapaume itself. These attacks collapsed."

"Lieut. Eberhardt during the past few days has destroyed eight armored vehicles."

"The enemy pressed forward sharply against our lines which had been taken back from the Ancre and in the afternoon came from Courcelles and Pozieres to attack against Martiniou and Bazentin. French tanks thrust themselves into a counter attack upon the flank of the enemy and threw him back beyond Pozieres."

"From the Somme to the Oise fighting activity remained limited to artillery and minor infantry battles north of Roye and west of the Oise. On the Allette the fighting activity died down. Between the Allette and the Aisne many strong attacks which were brought forward in especially thick waves near and south of Chavigny followed upon a heavy fire against Crecy-aux-Monts and on both sides of Chavigny. They were repulsed with heavy losses for the French."

"Cavalry and rifle regiments were especially effective in this operation."

"Our bombing squadrons during Saturday night dropped of harbor works, railways, stations, military works and tanks of the enemy—75,000 kilograms of bombs."

TUSCULUM COLLEGE MAY CHANGE STATUS

Will Probably Become a Unit of the University of Tennessee.

Knoxville, Aug. 25.—(Special.)—Tusculum college, which is near Knoxville, may be merged as a unit of the University of Tennessee in order to consummate its military training plans, according to an announcement made today.

It is the intention of the college department of the university if plans other than those desired by Dr. Gray are not adopted. This is in compliance with the order of the government as to a military unit in every state college, for the training of men in the students' army training corps. To secure one of these military units a college must have at least 100 students over 18 years of age doing college work exclusive of the number in its preparatory department.

Discussing the matter President Brown, says of the University of Tennessee: "Of course, we stand ready and glad to offer any possible assistance that alternative institutions need. This is a time when the heartiest co-operation is necessary, and all sorts of differences, even denominational, are being wiped out. It is our privilege as well as our duty to assist Tusculum in this way. If it can be arranged, there are however, two conditions that are possible for Tusculum. One is to attach itself to the University of Tennessee and the other is for it to enter into a group formation with other smaller colleges throughout the state, such as Morehead and Newnan."

In this way the same military commission could serve all the institutions in a particular district. In the case of Morehead and Morehead colleges the official could easily go from one to the other by motor."

"The main difficulty is in getting men to serve as military officers, and this is one reason the merger has been requested. Our commandant, Maj. Denton, could devote part of his time to Tusculum, but probably not as much as if several of the smaller colleges 'pooled' their interests and had one officer who would travel from place to place."

"The university is ready to do anything the government wants, but there is a limit to the units that can be attached on account of the decrease in efficiency with each succeeding unit that is attached. It would be a matter of degree to see how many the schools grouped geographically."

BRADLEY WILL RAISE \$1,000 FOR BELGIANS

Cleveland, Aug. 26.—(Special.)—Today Bradley county will raise \$1,000 for the Belgian relief fund. Yesterday speakers were assigned to the different communities and were accorded a respectful hearing. The hearts of the people are being warmed to the cries of suffering humanity everywhere, crushed by the cruel blows of a heartless military autocracy. Their stalwart boys have gone from them and overseas for this purpose. That was the sacrifice of all sacrifices. The money consideration is slight. Those who have no boys to loan to the cause of human freedom can show their colors with gold.
