

Democratic Ticket.

FOR STATE TREASURER. E. A. BURKE. Of Orleans. FOR CONGRESS, 4TH DISTRICT. HON. J. B. ELAM. Of DeSoto. FOR THE STATE SENATE, 22nd Senatorial District. BOLING WILLIAMS. Of DeSoto.

ANNOUNCEMENTS.

We are requested to announce W. S. CAMPBELL, ESQ., as a candidate for Sheriff of the parish of Natchitoches, subject to the action of the Democratic Convention.

For Sheriff. We are authorized to announce L. A. DERLIEUX as a candidate for Sheriff, subject to nomination by the Democratic Convention of this parish.

Candid Talk.

Our colored people are certainly a very incredulous people, not to say a bad lot, if they should persist in supporting the same class—in fact the very same men—which reduced this community to utter beggary in eight short years.

We expect colored people to be ignorant; that is a misfortune not only to them, but to us. At the same time we expect them to learn something by experience, and not stumble on in blind passion, hatred and prejudice to our and their material ruin.

Our most conservative citizens have strenuously exerted their influence in order to give the colored people an opportunity to judge of our professions, of our promises, by our acts, should we ever achieve political power. That, we have done, and we assert nothing but the truth when we say that the only two years of peace, contentment, justice and liberty enjoyed by the colored people since 1865, has been during Democratic rule in 1867 and 1878.

The stories of the wrongs the white men would inflict upon the negro, should they secure the government of Louisiana, have been fully exploded by the logic of events. No slavery has been fastened upon him or his by the white people, and the public schools, from which he was taught to believe his children would be driven, have been more open, better conducted than ever before; still, we are sorry to learn that the great body of colored people are still joined to their political idols, and are "waiting for orders from the same lot of bummers who plundered this parish for so long a time."

No one desires the welfare of the colored people more than we, because we know them to be essential to the development of our agricultural wealth if they can be taught to act in concert with us, but their is a point in our endurance which can be speedily reached—and not more speedily than by their supporting this crowd of Natchitoches for office.

The white people have had enough of that, and the colored people will commit a serious and to them disastrous crime—a blunder they may have cause to ever regret—should they attempt it.

The best citizens of this parish are determined to wipe out the whole gang of Radical plunderers now in office here, and nothing shall stand in the way of such a virtuous consummation. This is as true as gospel, and the colored people had better come with us or stand aside. No more Blants or Boullits or Barrons or Bredas, will ever strut officially through this parish. They must retire to private life, from which they emerged during an upheaval of society long since quieted. They were the creatures of an age of debauchery and villainy, now happily past never to return, and their efforts only serve to irritate and retard society—possibly to so outrage it as to invoke summary justice to rid the community of their evil presence.

Local Officers.

Police Jurors form this and all other parishes are elected in future form their respective wards as in the good old Democratic days. Wards 1, 2, 3, 4, 5, 6, 7, 8, 9 and 10, are each entitled to ONE Police Juror, each to be voted for ONLY by the citizens living in their resident wards. Let the Democrats turn out and elect good men to those offices.

Ward Candidates.

The VINDICATOR will announce Ward Candidates for \$5, which sum will include the cost of printing their names on the tickets. In other words, we charge five dollars for announcing Constable's, Magistrate's and Police Juror's, and nothing for printing their names on the tickets.

Register.

We trust all our citizens will Register without fail. No previous registration will count, and every one must in future vote in his own precinct where his name will appear on the poll book, and on no other.

Yellow Fever.

Our reports from the Shreveport Times and Standard, show increase of the fever in numerous towns and cities along the Mississippi and in the interior. Memphis, Port Gibson, Vicksburg and Grenada, are afflicted terribly. In New Orleans, the increase is slow and the total number of cases to this date does not show, in comparison with other years when yellow fever prevailed, a very bad state of affairs. Our parish is now thoroughly quarantined; we learn that Rapides and Avoyelles propose to follow our example. If they do, and all communication with New Orleans and the Mississippi river is cut off, there will be no danger from the scourge in our valley.

We learn that persons on the East side of Red River went to St. Maurice last week and landed into this parish the goods put off there by the Bart Able last week. Such conduct may smack of personal bravery to those who don't know true bravery when they see it, but to expose a whole parish of 20,000 souls to the ravages of so dreadful a scourge as yellow fever, and in violation of law, shows a depravity utterly appalling. No good citizen would do such an act, when every one was striving, at every sacrifice, to protect the parish and its people from the introduction of this disease.

If yellow fever comes, it will be the fault of those who violate the quarantine regulations, and they will be morally responsible for its consequences. Is there a person among them who, in that sad event, which God forbid, will stand up and face the wrath of this outraged and mourning parish? The friends of victims, the good citizen, will hold all such a fearful account—why, if the fever comes, not only have we to fear death, but the crop of the valley of Red River will be an entire loss. The whites, who are able to abandon their homes, while the colored people will follow in large numbers.

Guards have been stationed at all those points where communication with yellow fever districts is had, and we look to the moral, manly and vigorous support of all our good citizens to sustain us in this battle against disease and death.

Louisiana Republicans.

The great body of miscreants who ruled Louisiana through fraud and force for ten years, have been pronounced by the northern people, who supported them heretofore—as a band of most unmitigated scoundrels with whom they were moral death to associate. Notwithstanding this fact these people are preparing to contest this State against the great body of its material citizens. They have called a convention for the 16th September, and we suppose a full ticket will be put in the field. Locally, the same "old gang," with the same "old crowd" of "bummers" are coming to the front, and here even the proven thieves, liars and robbers have the cheek to talk glibly with respectable citizens of their "convention" and of this nomination and that candidate.

If our people propose to allow these fellows to rule them as they have in former times, they can do so by apathy and by growling, but if they propose to win the parish, which we assure them is in the cards, let them unite solidly and go to the polls and vote.

All over the State radical preparations are manifest. There has been no new names put to the front—the battle will be between the same contending hosts—and it is the height of folly for us to murmur. Natchitoches, we are satisfied, will give a good account of herself, and we hope the same from every parish in this State.

To the Convention.

The chief of the VINDICATOR paid Pleasant Hill a flying visit on Sunday last where we were hospitably entertained by Mr. Stephen Chapman. En route, Messrs. A. V. Carter, Joseph Welch and Isaac Rains honored us right royally and unreservedly, for which these gentlemen have our thanks.

DeSoto should feel proud. With a Congressman, a District Attorney and a Senator she is some, certain.

Pleasant Hill Convention.

Although Natchitoches had a favorite son whom she hoped to nominate, still we must congratulate the 22d Senatorial District upon their excellent selection. Mr. BOLING WILLIAMS is a Democrat of the simple pure order, who has done service for the party at all times, which entitles him to our gratitude and support. His ability none can question, and we predict for Boling Williams a successful and popular career as a Senator.

Our standard bearers are all of the best order, and it behooves every citizen who has the welfare of his country at heart to rally to the polls in November and elect them.

Too Hot for Him.

[Detroit Free Press.] As Confederate war reminiscences are the order of the day, here is one too good to be buried. The hero of the joke we will call Jim. He was attached to Rosser's Cavalry, in Stuart's command. Jim was noted for his strong antipathy to shot and shell, and a peculiar way he had of avoiding too close a communion with the same, but at last all his plans failed to keep him out of the "row," and he, with his comrades, under a lieutenant, was detailed to support a battery that composed a portion of the rear guard. The enemy kept pressing so close, in fact, as to endanger the retreating forces, and the troops covering the retreat had orders to keep the enemy in check, for a given period, at all hazards, and the order was obeyed to the letter, though under a galling fire. Our friend Jim grew desperate. He stuck behind trees that appeared to his excited vision no larger than ram rods. He then tried lying down. In fact, he placed himself in every position that his genius could invent, but the "hiss" of the bullet haunted him still. At last in despair, he called to his commanding officer, "Lieutenant! let's fall back!" "I can not do it, Jim," replied the officer. "Well, I'll be that if we don't get cleaned out, we stay here!" "My orders, Jim, are to hold this place and support that battery of guns," pointing to the artillery close by. "If we fall back the enemy will rush in and capture the guns." Just at that time a well directed bullet impressed Jim with the fact that a change of base became necessary. Jim found another apparently protected spot, and as soon as he recovered his mind, he sang out: "Oh! Lieutenant! what do you think them ere cannons cost?" "I don't know, Jim; I suppose a \$1,000." "Well," said Jim, "let's take up a collection and pay for the d-d guns, and let the Yankees have 'em."

A Few Examples of Free Speech by Dennis Kearney.

There, ye pious hypocrites do you hear that? I am going to cut your infernal throats with a paper knife—the ballot.

Oh poverty! let angels shut their eyes. Come, comensation, light the outraged skies.

Let red nenies take the hellish clan, And chaos end the slavery of man!

The Workingman's party is going to be the National party of the future. That party must win, though the lurid flames of fire shall lick the midnight sky. It must win, though hell itself should boil over.

By the heavens above and the stars that are in it; by the moon, that pale empress of the night; by the sun that shines by day; by the earth and all its inhabitants, and by hell beneath us, the Chinese must go.

The thieving vampires of this country have hired Beecher to preach "no hell," and then on succeeding in plundering the people they want to banish hell; but I tell you that we are going, for fear there may not be hell enough on the other side of the cloud, to give them all the hell they need here.

YELLOW FEVER.

[Telegrams to the Shreveport Times.]

New Orleans, Aug. 17.—New cases, seventy-three; deaths twenty-seven. (Grenada, Miss., Aug. 17.—Scenes in this plague-stricken town the past twenty-four hours beggar description. The strongest men and women are helpless, children sick, dying or dead. It is indeed pitiful to see entire families prostrated and swept away in a few brief hours. Official death list for the past six hours is seventeen. The population is reduced to a little over two hundred whites. But few new cases, there being so little material to work upon. Deaths all old cases. Mr. Freeman and wife, of New Orleans, en route to New York, were put off the train this morning. Both were cases of well developed yellow fever.

New York, August 20.—Two yellow fever cases at quarantine yesterday, one being Wm. B. Kelly, of New Orleans. No new cases at quarantine.

Wilmington, N. C., August 20.—No yellow fever here. City never healthier.

Norfolk, August 20.—Twelve hundred dollars have been subscribed by citizens for yellow fever sufferers. Two hundred dollars were sent to Grenada and three hundred to Vicksburg.

Baton Rouge, La., Aug. 21, 1878. To Wm. H. Tannard. No yellow fever here. We are all well. FRED D. TUNNARD.

Proceedings of the Potter Committee.

New York, August 15.—John A. Leete, of the New Orleans Times, was again before the Potter Committee to day. He testified as to Anderson telling him he (Anderson) had carried out the programme agreed upon between Kellogg, Anderson and witness to keep the colored people from voting in East Feliciana parish; he also testified as to the anxiety of Kellogg to get a protest out of Anderson before he was brought up by the Tilden men. In an interview with Kellogg he said no matter what Anderson would say, he would count the State for Hayes. Concerning the programme alluded to, witness said it was thought best to exclude the colored Republican vote so that the Returning Board could throw out the whole Democratic vote of East Feliciana if necessary.

On cross-examination by Butler, witness said he refused to be introduced to the visiting statesmen, because he feared their seductive influence. After Anderson got the Sherman letter he began to withdraw his confidence from me. The witness said: I remember Anderson called on me and said he had some verbal promises from Sherman, and that in a couple of days afterwards he called again in great joy and showed me the letter. Witness stated he was intimately acquainted with politicians of Louisiana, and in his judgment they were the most complete set of rascals he ever met. Cassagne, of the Returning Board, was the most honest of the lot. Witness was then questioned as to his standard of honesty, and, becoming angered at the manner of questioning, said he proposed answering where, when and how he chose. Witness then submitted a copy of his paper in which he published his prediction that the election of 1876 would turn on Louisiana. Several extracts from the paper were read to the committee, and several letters from Anderson to witness were placed in evidence. After being read they only showed terms of intimacy between them. Witness complained that he was not allowed to make a full statement of his record to the committee. Potter said he only wanted his testimony.

Washington, Aug. 17.—Reports to the surgeon general of the United States marine hospital service for the past week show: New Orleans—471 cases of fever and 121 deaths, making a total of 902 cases, 239 deaths; 108 cases and 29 deaths during 24 hours to noon yesterday.

Mobile.—One death yesterday.

Cincinnati, Aug. 17.—A woman in a house where baggage believed to be from New Orleans is stored, died of fever resembling that of yellow fever. Another similar case has developed in the same neighborhood.

Havana, Aug. 17.—Ninety-nine deaths from fever and nine from small-pox during the week ending August 10th. There was a decrease in fever at Matanzas for the week ending Aug. 9th.

Evansville, Ind., Aug. 17.—The

city council and board of health to-day ordered the establishment of a rigid quarantine against all steamers and trains from the South, and have taken precautions against communication from any infected fever district.

Pittsburg, Aug. 17.—The board of health has quarantined all boats and trains from the South and West. A public meeting is called to raise funds for sufferers in the South.

New York, Aug. 17.—James Riley, who recently arrived from New Orleans, is sick with what is supposed to be yellow fever. He was removed to the quarantine station to-day.

Pensacola, August 17.—The American brig, A. K. Bar, of Machias, Maine, from Cuba, reported off Pensacola bar with the mate dead and her crew sick of fever. As my pilot boarding her will be detained at quarantine until frost, it appears the pilots all refuse to bring her in and probably the vessel will sail north.

The schooner Laura Lewis went ashore on Santa Rosa island near Fort Pickens last night. The captain's wife being in childbed, could not be moved. The crew have been quarantined at Fort Pickens, the vessel having come from Cuba.

New Orleans, August 20.—Six cases one hundred and thirty-six; deaths forty-one.

Memphis, Aug. 20.—Postmaster Thompson has been notified that the Memphis mail will not be received at Vicksburg and other points South.

Ocean Springs, August 20.—One death from yellow fever is reported here.

New Orleans, August 20.—Four of the nurses sent by the Howard association to Grenada have the fever. Yellow fever at Ocean Springs. One death is reported.

Vicksburg, August 20.—The health officer is unable to give official figures, but estimates 100 cases in the city and increasing rapidly. Four interments to-day from yellow fever.—Eighteen deaths to date. The city council has abolished the quarantine of the city.

Cincinnati, August 20.—The steamer John Gibson with fever on board, is at anchor three miles below Gallipolis, the engineer having refused to do further duty. The Gallipolis health officers have placed a strong guard over her to prevent any one leaving. Charles Degelman, engineer, and Wm. Kadler, have died. There are ten cases on board. Captain Bickerstaff is sick.

New Orleans, August 20.—The Grenada mortality is terrible. The scene cannot be described. Dr. Manleville, an experienced yellow fever physician, says he never saw anything so deadly begin to compare with it. That it is fearful beyond description. The total deaths are over seventy and with no abatement and no hopeful cases reported. Several deaths are just reported. It seems that none are to be spared.

Memphis, August 20.—The Howard association of this city has been advised from Grenada that the epidemic there, considering the size of the town, appears to be the most malignant and fatal known in the country. The great want is money and nurses.

Memphis, August 20.—Twelve new cases from 5 p. m. yesterday to noon to-day.

Boston, August 20.—Responding to the request for assistance from the mayor of Memphis, Mayor Pierce of this city authorizes the former to draw on him at sight for \$1,500. The citizens will meet at noon to-morrow and take measures to relieve the distress in Memphis.

New York, August 20.—Two yellow fever cases at quarantine yesterday, one being Wm. B. Kelly, of New Orleans. No new cases at quarantine.

Wilmington, N. C., August 20.—No yellow fever here. City never healthier.

Baton Rouge, La., Aug. 21, 1878. To Wm. H. Tannard. No yellow fever here. We are all well. FRED D. TUNNARD.
