to the End Coming !

It is not after all improbable, consider ing the general custodness of things, that we may be semething in the prophecy of Mother Shipton that we shall all go to much next Saturday, the day and date set down by the old lady as the end of all things earthly. If the Bible, unrevised and revised, is to be believed, a catastrohe of this kind must come some day or ther. Taking a survey of the situation so do not know but that this is as good time as any that could be found for the final winding up of the terrestrial machine.

The whole world seems to be out of gear.

It was a marican horses are running in your the honors of the most famous course in the world. In our own country we have the phenomenal event in our politics of a Secretary of State pre-siding over our foreign affairs who scarce-ly, knows the names of the foreign capi-tals and whose whole time is devoted to p converting primary elections, setting p converting and distributing the custom house offices where they will do the mate good. In a meteorological way here we are wearing overcoats in June, while the waves of the Atlantic are sweeping away our coast line as if it were the middle of December. The Jersey mosqui-toes have determined to spend the sum-mer abroad, and have signalized their ar-rival by savagely assaulting the British conditions in stinging the nose of the distinguished Mr. O'Shanghnessy, M. P. The middle of Mother Shipton's pre-diction would salve so many problems he foldies of Mother Shipton's pre-liction would salve so many problems hat we are tempted to wish it may come hat we are tempted to wish it may come had the markly senions where bad men in Mandley senions enter, and give Bob agencell an experience he has never yet have been been no more of those that the markly bear no more of those that the markly bear no more of those that the markly bear no more of those Metallic Mother Shipton predicts.

Being very palatable, the youngest children take it readily. In ordinary Coughs, Colds, Sore Throat, Bronchitis, Influenza, Clergyman's Sore Throat, Asthma, Croup, and Catarrh, the effects of Aven's Cherry Pectoral are magical, and multitudes are annually preserved from serious illness by its timely and faithful use. It should be kept at hand in every household for the protection it affords in sudden attacks. In Whooping-cough and Consumpticathere is no other remedy so efficacious, soothing, and helpful.

Low prices are inducements to try some of the many mixtures, or syrups, made of cheap and ineffective ingredients, now offered, which, as they contain no curative qualities, can afford only temporary relief, and are sure to deceive and disappoint the patient. Diseases of the throat and lungs demand active and effective treatment; and it is dangerous experimenting with unknown and cheap medicines, from the great liability that these diseases may, while so trified with, become deeply seated or incurable. Use Ayen's Cherry Pectoral, and you may confidently expect the best results.
