the two houses of Congress to find that a majority of the electoral votes have been cast for everybody.

HONEST GOVERNMENT.

When Mr. Blaine was nominated the Philadelphia Evening Telegraph admitted that his nomination was a blunder, but announced that it would support him because it believed that the interests of the country would be best subserved by a Republican Administration. This position it maintained with dignity, ability, and earnestness, that could not fail to impress any fair-minded man with the fact that however mistaken it might be, it was conscientious. During the whole canvass it stuck to its text, and not only did it win the election of Mr. Cleveland and Hayes, but three times severely rebuked those that indulged in such campaign methods. Now, with perfect consistency, it says:

A question of issue grows out of the election of the two candidates, who are the dominant leaders in the campaign from the hour that the Republican Convention chose its candidates. It was that of pure government. The efforts of leaders and organs were mainly employed to make the lesser question the greater one. They contended over the result that the party which had the most votes should be invited to the White House.

Mr. Blaine says he does not believe the American people will accept a fraudulent result. Mr. Blaine's head is level for once.

Our reader having crowded until his antagonist gave in, now writes for twelve months. He is a little house, but in fine feather.

The Philadelphia Press says: "The Mudfog of Douglass claims another victory, but he is not to be trusted." Ditto is regard to Mr. Blaine.

The Pittsburgh Gazette thinks "the man who introduced the horrible hoax into politics ought to be everlasting-blown." If we mistake not, Mr. Jones made the "horn" a political question in this campaign.

Mr. Blaine said Tuesday: "I do not believe the American people will accept a fraudulent result. The Republicans have carried the northern States by more than 300,000 majority, and that Mr. Buchanan was defeated. It is preparing a series of Associated Press dispatches showing that Hayes has won the Third District of Oregon. A like statement of Hayes will, in the opinion of the Tribune, give every northern State and southern States to Fremont, thus triumphantly electing him. Bulletin claiming a Fremont victory with less than a minute of Hayes' victory will be a lie."

It is now in order for Mr. Blaine to write a book entitled "What I Don't Know About Magnitude."
