THE REPUBLICAN IDEA.

The Republican idea of civil service keeps all the republicans in.

As a value grows up around the factory, the value of the land increases, and in the course of time the land owned by the company will be assessed at \$2,000 or \$3,000, instead of \$1,000.

There is no loss to the people by protection of a large and growing class. The tariff is a large and growing class.

The New York Times says: "The exclusion of their Independent members is a blow to the Republican cause."

The Philadelphia Press of yesterday says: "The energy with which the southern papers continue to assure the country that the South contemplates no violent proceedings under the new Administration."
