

A MATTER OF HEALTH. THE SLAUGHTER-PENS MAY GENERATE SERIOUS DISEASES.

The Question of Their Removal Now Being Considered, Dr. Oppenheimer Will Urge This.

July 29, Dr. Oppenheimer, president of the Board of Health, will accompany some of the butchers of the two markets to the slaughter-pens, near the banks of Bacon's Quarter branch, and the question of removing them to some place more distant from the city will be considered in its several phases.

That these pens must be removed at an early day in order to protect the health of the citizens who live in that vicinity there is no doubt, and it would be a happy solution of a matter which has long troubled the city to their interest to remove them now before the consequences of their remaining where they are become more serious.

Any person having even a limited knowledge of the science of hygiene who visited the vicinity of the pens during the late dry spell was impressed with the fact that in their present location disease will be generated which may have a fatal effect on the health of the city.

It was the knowledge of the cause of the death of this person that led Dr. Oppenheimer to consult with Mr. Charles E. Hester, one of the parties interested in the slaughter-pens. Mr. Hester expressed his willingness to remove them to a more distant place if the health of the city could be protected.

Dr. Oppenheimer thinks the pens should be taken at least five miles distant from where they now are. The pens are situated on a narrow strip of land which would be a great improvement to the city if they were removed to a more distant place.

It has been suggested that it may be desirable to establish a general slaughter-house near the river, and other pens for the purpose of slaughtering the animals which are allowed to remain in the greater health of the vicinity and the city will be benefited.

It is also suggested that it may be desirable to establish a general slaughter-house near the river, and other pens for the purpose of slaughtering the animals which are allowed to remain in the greater health of the vicinity and the city will be benefited.

Warrants were issued by Judge Atkins Saturday on the complaint of Mr. Jasper Rowe, who charges that the defendant, a cigar-dealer on Broad street near Third, violated the internal-revenue laws.

THE MURDER MYSTERY.

He Loses His Money While Asleep and Receives Injuries that Result in His Death.

The Henrico authorities have a case to investigate that within the next day or two may lead to some interesting if not sensational developments. Sumner Rodetche, an Austrian pedler about twenty-six years old, died at the county almshouse Sunday afternoon under circumstances that point to the double crime of robbery and murder.

It was on the night of July 17 that the young Austrian, who was employed at the plantation of Mr. Jacob Feig, a truck farmer who resides near Oakwood cemetery, lost all his money and was severely injured by a bullet from the head that mainly caused his death.

The supposition, and it is supported by strong circumstantial evidence, is that after he went to sleep unknown parties, knowing that he had considerable money on his person, undertook to rob him.

On the next morning, however, some time between 11 o'clock and 12 o'clock, Rodetche was found in the barn in a totally insensible condition by Mrs. Feig, who hastily notified her neighbors and sent for a physician.

He was taken to the county almshouse, where he remained until he died Sunday afternoon. The coroner's inquest, held yesterday morning, failed to disclose any further facts than those already mentioned.

The facts of the case, as far as could be gathered from the statements made at the inquest and from the report of Dr. James W. Bryant, who attended the deceased before his death, are as follows: Rodetche, who is a native of Austria, was employed by the county almshouse as a pedler, and was carrying a large quantity of goods when he was found in the barn.

He was taken to the county almshouse, where he remained until he died Sunday afternoon. The coroner's inquest, held yesterday morning, failed to disclose any further facts than those already mentioned.

OUR PUBLIC SCHOOLS.

GREAT REDUCTIONS REPORTED IN THE PRICES OF MANY BOOKS.

The regular monthly meeting of the City School Board was held at the High-School building yesterday afternoon at 6 o'clock. Present: Hon. William Loveston, chairman; James H. Capers, Joseph C. Dickerson, T. W. Davis, J. Taylor Stratton, and William M. Turpin; W. F. Fox, supervisor; and C. P. Hady, clerk and superintendent.

The Superintendent also made some statements in regard to the night schools. He says that "during the session of 1888 the night schools were seriously injured by the non-attendance of some who had no intention of studying and spent their time mainly in idleness, &c. Some of the night schools had made steady progress and the night schools were a real benefit to them. These schools afford an opportunity to a very worthy class who have been unable to obtain an education, and if they can be made to give reasonable attention to the study of the books, the results for the expenditure made would be very satisfactory."

The board resolved to open night schools as follows: Two in the West End, two in the East End, and one at Rocketts, and one at the corner of Broad and Main streets. The board also resolved to open a night school for the colored people at the corner of Broad and Main streets.

The board also resolved to open a night school for the colored people at the corner of Broad and Main streets.
