LAST PRIMARY PLEDGE. The person voting this ticket hereby pledges himself to support the nominees of the Democratic party at the ensuing national election.

THE LOCAL COUNCIL. The appointment of ex-Judge Edmund Waddill as the treasurer of the funds of the Republican party in Virginia, is, we think, indicative of a double purpose.

Speaking of the temporary injunction granted by Judge Simonton against the Seaboard and Southern railway systems, the New Orleans Times-Democrat says: "The injunction case is certainly an aggravated one, but it well illustrates the system which crept into our government during the days of Republican ascendency."

But we earnestly hope that no Democrat will be found to rally to the "combine" against our people. We do not believe the so-called "sound-money" club men will relish association, political association even, with the John Mitchell and Lewis Lindsay forces of Jackson Ward.

Indeed, we know of no one man in the South who has done more to forward Bryan's cause than has Judge Simonton. Judge Simonton is credited with being much too quick on the trigger in the matter of awarding injunctions.

A good many people are puzzled to know where the Democratic campaign money will come from this year. Those who have been contributing it in the past are, we believe, giving up the idea.

The Richmond Dispatch and Norfolk have not placed at the head of the Virginia have not placed at the head of the Democratic ticket. They seem to be supporting the ticket with a vim, but in former years they always had the ticket in their columns, if we mistake not.

So in view of what is before us, our City Committee to postpone the nomination convention for a month, and then the City Committee should bring the primary within the law. We ought to be in a position to invoke the penalties of the law against any one who commits fraud at the primary.

Let us not underrate the organized disaffection here, nor forget that the results of the election here on November 31 may have an important bearing upon political affairs in Richmond for years to come.

Charles Sumner, of Massachusetts, was one of the men in the United States Senate who, in his day, claimed the right of taking the lead in support of the Constitution of the United States he took the oath as he understood it, and not as

ment of Judge Waddill as the treasurer of the McKinley campaign fund in Virginia as an indication of the purpose of the Republicans to try to win this district by the use of money, and the help of disaffected Democrats.

What we would have our party do is to take plenty of time to make a nomination, and then make the canvass so hot that the "independent" will be sorry he ever deserted his friends or gave aid and comfort to our enemies.

WALL STREET CHERLEAPS ITSELF. As a rule, editorially, the New York papers deal very gently with Wall street.

That these papers were right; that the recent disturbances in the New York stock market were not justified, as our New York contemporaries tacitly admit, by political conditions, or any question involving the public credit, but were brought about by the bear speculators, acting in concert with the Wall-street lar--is clearly shown by the state of the stock market yesterday, and the better feeling that pervaded business circles generally.

"In political emergencies, as in other affairs of life, men are sometimes constrained to make a choice between two evils, or ungenial situations.

"All of us look part in the choice of delegates to the Chicago convention, with the hope of a settlement, an agreement, a compromise, and an agreement sanctioned by precedent and honor--that we would abide by the decision of the majority of the convention. That decision was disregarded, and the other party, in a large portion of the Democratic party in its relation to one important question, had this portion succeeded, instead of meeting defeat, they would have considered a bolt or antagonism by the other party as an act of bad faith.

More Manufacturers. To the Editor of the Dispatch: Richmond should have more manufacturers. If she is ever to become a large city, there will make her so.

Press Arrangements at Indianapolis. INDIANAPOLIS, IND., August 11--The press arrangements for the convention of the National Democratic Party have been placed in charge of Edwin W. Hoogen, assistant secretary of the National Committee.

Small-Pox in Kentucky. PADUCAH, KY., August 11--There are several cases of small-pox in the Eruptive Disease Hospital here. Three cases have developed since Saturday.

Telegraphic Termites. Jackson, Miss., Rev. Thomas W. Casey, a Christian preacher of great renown in the South, has been elected to the office of Fairmont, W. Va.--William G. Browne, of Kingswood, was nominated for Congress on the first ballot by the Democrats of the Second District.

Like a True Democrat. In a manner which cannot possibly be misconstrued, Congressman Joshua W. Miles, of the First Maryland District, gives direct refutation to the rumor which has been current in Louisiana that he supports the Democratic ticket in this campaign.

The Populists of North Carolina, who are largely stragglers from the Democratic fold, find it more difficult to fuse now with the Democracy than they did some time ago to fuse with the Republicans, which goes to show again how much more difficult it is to get back into the right way after going wrong than it is to go down into utter ruin and despair.

Let us not underrate the organized disaffection here, nor forget that the results of the election here on November 31 may have an important bearing upon political affairs in Richmond for years to come.

Charles Sumner, of Massachusetts, was one of the men in the United States Senate who, in his day, claimed the right of taking the lead in support of the Constitution of the United States he took the oath as he understood it, and not as

It was understood by other United States senators. We republished recently his great speech on that highly interesting point.

It is singular how that speech has been misrepresented. The Supreme Court of the United States never rendered any such decision as that slaves had no rights which their masters were bound to respect.

Dem-Pop Fusion in Iowa. OTTUMWA, IA., August 11--Prominent leaders of all the reform forces represented, including the State Central committee of the Populists, the Democrats, and the Metallics, held a conference at the Ballington Hotel at 3 o'clock this afternoon, to arrange the terms of fusion looking to to-morrow's conventions.

MOKE SMITH STRIKES. In the Triumph of Democracy Lies the Hope of the American People. (Special to the New York World.) ATLANTA, GA., August 10--It is now admitted by the Secretary and the newspaper that the Secretary sent Mr. Cleveland a resignation fully three weeks ago. It is equally certain that Mr. Cleveland in using all of his argumentative ability to induce Mr. Smith to withdraw from his hostile position, Mr. Smith consistently refuses to give out any information, but in the mean time he has taken up a cudgel that is likely to be felt even in Buzard's Day.

A Gold Standard Ally. (Atlanta Constitution.) The Louisville and Nashville railroad seems to be taking a full hand in national politics this year. A correspondent, in another column, who understands the situation in Alabama, gives some facts about the sound-money movement in that State.

Trusts and Employees. The protected trusts, combines, and monopolies are not only threatening their employees with discharge, but are trying to make them subscribe to the high tariff and anti-income-tax election fund, and what is more, the poor employees referred to are contributing to that fund, and are absent of their duties for the purpose of the subscription lists.

Dem-Pop Fusion in Ohio. COLUMBUS, O., August 11--The Democratic State Central Committee to-day elected Daniel McConville, of Steubenville, to be its secretary, and John F. Under, of Mr. Cleveland's first Administration, chairman of the State Executive Committee.

Week and Ruin in Cuba. HABANA, August 11--The rebels have wrecked a passenger train near Najajas, province of Matanzas, but the explosion of this train was not a success.

Charles Sumner, of Massachusetts, was one of the men in the United States Senate who, in his day, claimed the right of taking the lead in support of the Constitution of the United States he took the oath as he understood it, and not as

preme tribunal to which he has appealed. He decides that Democracy is not to be withdrawn from the party and go over to the enemy or to adopt the ruling of the national convention and plant himself squarely under the banner of his party's faith.
