

A NIGHT OF POLITICS.

SEVERAL MEETINGS IN PROGRESS IN MANCHESTER AT ONCE.

The Democrats, Republicans, and Holters Have Gatherings—Sundry-School Workers in Session—Preach on the Money Question.

Last night was a night of political meetings in Manchester. The first-Ward Democrats met, as usual, in their quarters, corner of Sixth and Hull streets, and transacted a large amount of routine business. The club appointed committees to canvass the ward. A motion was also made and passed to appoint a committee to wait upon Mr. John Caudle, Ward Superintendent, and request his resignation, inasmuch as he had left the party, being now president of the First-Ward Holter-Club. Messrs. Graetzinski and Gooding were appointed as the committee.

Just one square above the Democratic meeting a Republican "sound-money" meeting was held. This gathering of perhaps thirty men was addressed by Mr. Edgar Allan. During Mr. Allan's speech the audience seemed anything but enthusiastic. The fault, perhaps, was not in the speaker but at any rate, it fell upon the very cold audience like water on a duck's back. Not a ripple was heard, and even the name of their standard-bearer, William McKinley, failed to bring forth applause. When Mr. Allan took the stand and when he concluded a few men beat their sticks upon the floor, but this was all. Mr. Allan spoke for over an hour.

Just one square above the Republican meeting, at the corner of Eighth and Hull streets, the scribe found the Holters in their quiet abode. At the meeting of the Holters last Tuesday night the same reporter called at 8:30 o'clock, and found four Holters in the large hall, all seated in one corner, with their heads very close together. Last night he called again, exactly at 8:30 o'clock, and found that the Holters had increased their numbers. Two more chairs were brought in, and six Holters were occupying the same corner occupied by the four on the previous week. The six men looked seriously at each other when the reporter entered; each took another puff at his pipe, the president smoked, and one of the number informed the reporter that there would probably be no speaking that night.

SUNDAY-SCHOOL MEETING. The Board of Directors of the Manchester Methodist Sunday-School Union held a meeting last evening at the Fifth-Street Methodist church. The union managers, a good deal of routine business, and decided to place the Ninth-Street mission, now in the control of the Central church, under the control of the Fifth-Street church.

The following are the members from the various churches belonging to the union: West-End—Messrs. J. T. Morris, W. J. Williams, C. E. Bass, U. V. Overton, J. L. Houch, George D. Cole, and Alexander H. Thomas. Central—J. E. Redford, Joseph Veleider, John D. Saunders, P. L. Anderson, William H. Owens, and D. J. Weidinger. Fifth-Street—Messrs. E. M. Thomas, P. Jones, Lee Bass, W. W. Simmons, C. O. Edwards, E. S. Moody, and J. W. Haddock.

The Water Commissioners held a short session last evening to consider matters concerning certain improvements in the sewer system. The matter was considered, but no definite action was taken. Considerable routine business was transacted.

Rev. W. W. Lear, pastor of Central Methodist church, announced from his pulpit last Sunday that he would on the next Sabbath preach a sermon on the money question. Mr. Lear said he had only attended one political meeting, and left that when it was half over. Continuing, Mr. Lear said any one entitled to the same privilege next Sunday, when he was to speak. A large crowd will doubtless greet Mr. Lear.

MISS ROBERTSON DEAD. Miss Annie P. Robertson, the 15-year-old daughter of Mr. and Mrs. Thomas P. Robertson, died at her residence, on Albany street between Seventeenth and Eighteenth streets, in Mrs. A. D. Addick's care, at 2:30 o'clock, Saturday afternoon at 2:30 o'clock. The deceased was organist at St. Andrew's Episcopal church. Her funeral will take place this afternoon from the residence at 2 o'clock. The interment will be made in Maury Cemetery.

PROPERTY TRANSFER. The Board of Public Interest held a special session last evening, those in attendance being Messrs. Wilson, Straus, Smith, Nease, Noble, Foster, and Wall. Mr. Jullian, who presided, but as no business came before the body, it promptly adjourned. There was an informal discussion regarding the appropriation of funds, water, or gas to sectarian institutions, the majority of those present expressing their opposition to the city's giving assistance to these denominational charities. No action was taken.

SILVER OR GOLD.

Better than either is a healthy liver. If the liver is O. K. the man is O. K. His blood is kept pure, his digestion perfect, and he can enjoy life and act intelligently and patiently upon the questions of the day. You all know what to take. You have known it for years. It is Simmons Liver Regulator—

REGULATOR

For years you and your fathers have found it of sterling worth. It is and always has been put up only by J. H. Zeilin & Co. Take note of the genuine. It has the Red Z on the front of the wrapper, and nothing else is the same, and nothing so good.

He is in the city and will conduct his proper meeting to-morrow night. Mr. and Mrs. William Abern have issued cards announcing the marriage of their daughter, Miss Carrie Louise, to Aaron Luther Sampson, Thursday evening, October 23d, at 8:30 o'clock, at the Stockton-Street Baptist church.

The Ladies' Aid Society of the Manchester Presbyterian church will give an oyster-supper on Thursday night, the 22d. Misses Louise Willis and Amelia Coalter, the president and president-elect of the latter of King William, are the guests of Miss Maude Patteson, at No. 1100 Porter street.

A gentleman recently from Chicago, here, in the city, and will conduct his proper meeting to-morrow night. Mr. and Mrs. William Abern have issued cards announcing the marriage of their daughter, Miss Carrie Louise, to Aaron Luther Sampson, Thursday evening, October 23d, at 8:30 o'clock, at the Stockton-Street Baptist church.

Down on Doctors and Drugs. One of the New York papers has this to say about a gentleman who was converted under the ministry of Rev. J. W. Dyer. "Rev. George Armour Fair, pastor of the First Apostolic church of Brooklyn, New York, delivered a sermon on Sunday, September 28th, his text, 'Doctors, Drugs, and Medicine.' The sermon is somewhat like that of Evangelist Sam Small. It illustrates his text by the use of several pairs of spectacles. He believes that the health of the people would be better if they would follow God's rule and let drugs alone, and said that the doctors' profession is inspired by the love of the people are all 'dope' to submit to them."

Almost a Fire. The timely discovery by a visitor to the summer resort of Dr. Cooper B. Sted at Gwyneth probably averted what might have otherwise been a serious fire. The fire broke out in a room in conversation in the room below, the visitor went up-stairs to look after his little boy, who had retired. He found the fire in the room below, and he went in and found that a coal fire had fallen and ignited a pile of wooden mantelpiece, and was blazing furiously. Without notifying the fire department, he called the firemen, and they reported his discovery.

Property Transfer. The Board of Public Interest held a special session last evening, those in attendance being Messrs. Wilson, Straus, Smith, Nease, Noble, Foster, and Wall. Mr. Jullian, who presided, but as no business came before the body, it promptly adjourned. There was an informal discussion regarding the appropriation of funds, water, or gas to sectarian institutions, the majority of those present expressing their opposition to the city's giving assistance to these denominational charities. No action was taken.

To Attend Her Wedding. Mrs. Robert Ranlet, of Holyoke, Mass., will reach here to-day from Old Point Comfort, on a visit to her mother, Mrs. Mr. Jullian, who presided, but as no business came before the body, it promptly adjourned. There was an informal discussion regarding the appropriation of funds, water, or gas to sectarian institutions, the majority of those present expressing their opposition to the city's giving assistance to these denominational charities. No action was taken.

Meeting of Daughters of Confederates. A meeting of the Daughters of the Confederacy was held at the Hull Street hall Monday night, and there were reported on the rolls 20 members. The dues for the past year were given to the Secretary, Mrs. M. J. Carmichael, of St. Paul's, will officiate at the meeting.

The Sale of the Star. Hon. Stilson Hutchins, of Washington, who is to make the principal speech at the Exposition grounds to-morrow, will arrive in the city this afternoon. It is reported as quite likely that Mr. Hutchins will, while here, close the negotiations looking toward the purchase of the Star. The purchase price has been set at \$100,000, but there are good reasons for believing that one will be.

Small Fire Yesterday Afternoon. A small fire occurred at No. 94 Catharine street yesterday afternoon. The house was occupied by colored people. The fire broke out in the kitchen, and the flames were extinguished. The damage only amounted to about \$50.

NORTH STATE FUSION.

SWEEPING DEMOCRATIC PROPOSITION TO THE POPULISTS.

Putting Up and Taking Down All Along the Line—Will It Be Accepted—New Election-Law Features—Political Notes.

RALEIGH, N. C., October 13.—(Special.) For six hours last night the Democratic Central Committee was in session, adjourning at 2 o'clock. The call for the meeting truly said it was for business vitally affecting the party. The result was a proposition to the Populists that there be a division of the State and congressional tickets. As to the State ticket, it is proposed that it shall be as follows: Cyrus B. Watson (Democrat), Governor; W. A. Guthrie (Populist), Lieutenant-Governor (with pledge that Democrats vote for him for United States Senator); Cyrus Thompson (Populist), Secretary of State; W. H. Worth (Populist), Treasurer; R. M. Furman (Democrat), Auditor; John C. Scarborough (Democrat), Superintendent Public Instruction; J. L. Osborne (Democrat), Attorney-General; Associate Justices of Supreme Court, A. C. Avery (Democrat) and Walter A. Montague (Populist). It also provides for the endorsement of James A. Manning (Democrat) as Judge of the Fifth District.

As to congressional, the proposition is that the Democrats take F. A. Woodard, Second District; W. W. Kitchin, Fifth; James A. Lockhart, Sixth; R. A. Douglas, Eighth; James S. Adams, Ninth; Edgar D. Lakin, Tenth; Henry Shuman, Eleventh; J. E. Fowler, Thirteenth; F. W. Stroud, Fourteenth; A. C. Sherford, Seventeenth. The proposition was drawn up by Chairman Manning, and sent to the Populist Chairman Ayer at once. The latter said: "I will summon our entire State Committee to meet at once. The summons goes by telegraph."

MAY BE REJECTED. The current comment one hears is that the proposition will be rejected; that the Populists have no idea of entertaining it. But there are two parts of the Populist party—the machine and the rank and file—and it is asserted that the latter have desired State fusion, or rather have said the Democrats ought to offer it, as otherwise electoral fusion seemed inconsistent. Those Populists who are opposed to control of the State by the Republicans are given their opportunity. The Populists in the Fifth District, especially on the Fourth District, have been trying to force the Democrats to take down E. W. Fox, their nominee for Congress. They have organized a committee to make a report on causing the committee to take the action it did. There was some discussion about offering the Populists the Sixth Congressional District, but the sentiment was against it.

TOM WATSON. It is rumored that in a quiet way Tom Watson is having "missionary work" done among the North Carolina "Populists," and that this is done by means of the Populist advance agent, Senator Butler. The other influence is the well-known Populist proclivity for Republicans. D. L. Russell, declines to make an estimate of the Populist majority in this State, or of his own as Governor, but makes the boast that if Guthrie is taken down as Governor he will carry 75 per cent. of the Populist vote. The Populist law disfranchises persons who do not on the election. Another new feature of the new election law is that candidates have to swear to their expenses. A prominent Republican leader said today of the Populists: "There are other things to them besides free silver. They have a silver lining, and that is all. They are Republicans in a sense, dominated by Populists for many months. Hard as Chairman Manly has worked, the Democratic organization in the State is alleged to be in some places broken up. It is asserted that a mistake has been made in permitting national affairs to go overshadow State issues. This course was insisted on by three or four men, who, to a certain extent, have dominated affairs."

SUPPOSED POISONING. Died Soon After Drinking a Cup of Coffee. LEESBURG, October 13.—(Special.)—A case of supposed murder by poison is reported from Lovettsville, in the upper part of Loudoun. On Saturday night Lum Morgan (colored) returned home having been drinking to some extent. He and his wife had retired, though both were in the same building. Lum being walled up by his daughter-in-law. She gave him his supper, and after drinking it laid on the bed. She then went to bed. In the early morning she found that it was all right, at the same time drinking a little of it herself. Very soon she fell into spasms, while she was also made sick by the coffee. Her husband, Dr. Householder, who was called in, could do nothing to relieve the man, and he soon died. Suspicion attaches to his wife, as the couple frequently quarreled. The case is being investigated, arsenical poisoning being suspected. Hog cholera still prevails in some sections of this county, one farmer in the northern part reporting that of ninety head he has but seven left.

Approaching Marriage. EMPORIA, VA., October 13.—(Special.)—The Clerk of the Court issued a license this afternoon for the marriage of Mr. E. T. Teach, a prominent young lumberman of Sussex county, and Miss Margaret E. J. Bennett, an accomplished young lady, residing near Jarratts, Va. The marriage takes place on the 14th. The groom-to-be is 32 years of age, and the prospective bride is 18.

A PECULIAR REMEDY. Something About the New Discovery for Curing Dyspepsia. The Rev. F. L. Bell, a highly-esteemed minister residing in Weedsport, Cayuga county, N. Y., in a recent letter writes as follows: "There has never been anything that I have taken that has relieved the Dyspepsia, from which I have suffered for years, except the new remedy called Stuart's Dyspepsia Tablets. Since taking them I have had no distress at all after eating, and again after long years can sleep well. Rev. F. L. Bell, Weedsport, N. Y., formerly India, Col."

Stuart's Dyspepsia Tablets is a remarkable remedy, not only because it is a certain cure for all forms of indigestion or biliousness. A person has dyspepsia simply because the stomach is overworked, all it wants is a harmless, vegetable remedy to digest the food, and this gives it the much-needed rest. This is the secret of the success of this peculiar remedy. No matter how weak or how much disordered the digestion may be, Stuart's Dyspepsia Tablets will obtain relief. Druggists at 25c per package. Send for book on stomach diseases free.

Dispatch office for sale at \$50, a hundred at \$100.

WHERE IS THE RIGHT WAY?

of doing things, according to OUR schooling—and that is THE RIGHT WAY—we never try to deceive—misrepresent—or in any way mislead the public—it's a schooling that many merchants now in the clothing business NEVER GRADUATED IN.

Now there seems to be a competition of misrepresentations—instead of facts—a desire to mislead instead of to enlighten.

Poor-made stuff is advertised as first-class Clothing—worthless material, as the acme of goodness—\$10 Suits and Overcoats—which never sold for more than \$7.50 here—are marked up to \$20—and reduced to their original high prices. Old clothing, in fact, we might say AGED Clothing, is heralded as brand-new—this season's make; and were the investigators of these deceptions asked for their freight receipts, showing when this NEW (?) stock was delivered—the result might prove interesting reading matter.

A reform movement politically was never so necessary as a reform movement in some branches of the clothing business—and unless this reform sets in speedily—TRUTH WILL SOON BE AT A PREMIUM.

We ask your co-operation to exterminate the evils.

A. SAKS & CO.

Main and Eleventh streets—"Saks' Corner."

MARKET QUOTATIONS.

REPORTS FROM ALL GREAT BUSINESS CENTRES OF THE WORLD. Prices of Money, Bonds, Stocks, Grain, Tobacco, Cotton, Cattle, Country Produce, &c., Foreign and Domestic.

NEW YORK, October 13.—Higher quotations from London, additional engagements of gold abroad for shipment to New York, and the announcement by Senator Quay, of the Republican National Committee, regarding the outcome of the presidential election, were the factors at work in the local stock market. Lower rates for sterling exchange, and the strength of cotton, corn, wheat, and provisions, also had a stimulating influence. The weakness of sterling exchange encouraged the hope of a continuance of the gold movement this way, especially as the metal is still commanding a premium in the local market of 5-15/16 per cent. for spot delivery. Importers expect heavy arrivals late in the week, some estimates putting the total at \$5,000,000.

The developments referred to alarmed the shorts and reactionists, and the purchases for this class stimulated the upward movement. Commission house bids and an early settlement of the market did little or nothing. Tobacco scored the greatest gain, selling up from 9-1/2 to 10-1/4. The rise was again attributed to manipulation. Rumors of an early settlement of the market, and the company's competitors were again revived. Sugar and Manhattan were inclined to lag at intervals, but in the late trading these stocks moved up, with the former up 1/8, sugar first advanced to 107-1/4, Board-room gossip was to the effect that trade conditions were better. Manhattan at one time ran off to 80-1/2, on liquidations, and finally rose to 82-1/2. The important advances of the day are annexed: Burlington and Quincy, 1-3/4; Chicago Gas, 1-1/8; St. Paul, 1-3/4; North-western, 1-1/8; Rock Island, 1-7/8; General Electric, 1-5/8; Illinois Steel, 1-1/4; Louisville and Nashville, 1-3/8; Kansas and Texas preferred, 1-1/4; Missouri Pacific, 1-1/4; Reading, 1-3/8; Southern Railway preferred, 1-1/4; Tennessee Coal, 1-1/4; Leather preferred, 2-7/8; Rubber preferred, 3-1/2, and Western Union, 1-1/2. Quoted 80-1/2. In the last half hour the market was more active and stronger than at any other time of the day. Speculation at the close was strong. Net changes show gains of 1-2/16 3/4 per cent. Total sales, 129,000 shares, including 32,200 St. Paul, 31,000 Sugar, 19,000 Tobacco, and 16,300 Burlington and Quincy.

Bonds were strong to-day. The sales footed up a total of \$10,000,000. Treasury: U.S. 4's, 102-1/2; 5's, 103-1/2; 6's, 104-1/2. Money on call steady, at 9/16 per cent; last loan at 5, and closing offered at 5 per cent. Prime mercantile paper, 8/16 per cent. Bar silver, 64 3/4. Silver at the board weak.

STEERING EXCHANGE EASIER, WITH ACTUAL BUSINESS IN BANKERS' BILLS AT \$41.10-41.20 FOR SIXTY DAYS, AND \$18.00-18.10 FOR DEMAND. AUSTRIAN GOVERNMENT BONDS, 104-1/2. GOVERNMENT BONDS QUOTED. STATE BONDS DULL. RAILROAD BONDS HIGHER.

STOCK QUOTATIONS. American Cotton Oil, 12 1/2. American Cotton Oil, preferred, 12 1/2. American Sugar, 107 1/2. American Sugar, preferred, 107 1/2. American Tobacco, 73 1/2. American Tobacco, preferred, 73 1/2. American Express, 124 1/2. American Express, preferred, 124 1/2. American Ice, 13 1/2. American Ice, preferred, 13 1/2. American Lumber, 13 1/2.
