

THE CUP REMAINS.

IT WILL STAY IN BALTIMORE ANOTHER YEAR AT LEAST.

TWICE WON BY THE ORIOLES.

If They Take It Again, It Will Be Theirs Absolutely—Gate Money Probably to Be Equally Divided—Audience Small.

BALTIMORE, October 11.—The Temple Cup will stay in Baltimore another year. It has been won twice in succession, for the first time in its history, and if the Orioles take it again, it is theirs absolutely. The former champions also take 60 per cent. of the money paid in at the gates during the three games in Boston and the two played here, while the winners of the pennant will get but 40 per cent., unless, as is generally believed, the players have agreed among themselves to divide the spoils equally. To-day's game, like all the others of the series, save the first one, was an easy proposition for the Baltimoreans, who won much as they pleased, while the visitors never appeared to think they had any chance whatever.

An audience so small that the management refused to give the exact number, and so utterly devoid of enthusiasm that scarcely a ripple of applause occurred, was it done, and appeared to be glad that the game, which, by the way, was one of the shortest on record, was over, and that the season was over, with it. There may have been a thousand people on the grounds, but a better estimate would place the attendance at 750. This fact, in view of the pleasant weather which prevailed, indicates that the base-ball enthusiasts have had a surfeit of the game. The umpiring and the play do not look upon a Temple Cup game as being anything out of the ordinary.

At its conclusion both teams disbanded, and many of the players left for their homes, two of them, Jennings and Kelley, to prepare for the early resumption of marital responsibilities. Score:

BALTIMORE. A. B. R. H. O. A. E. McGraw, 3 b. ... 5 0 9 1 4 0 Keeler, r. f. ... 1 3 1 0 0 0 Jennings, s. f. ... 4 1 2 1 0 0 ... Total ... 38 9 13 27 37 2

BOSTON. A. B. R. H. O. A. E. Stivetts, c. f. ... 5 0 1 0 1 0 Tenney, i. f. ... 5 0 3 10 0 1 ... Total ... 39 3 15 24 9 3

SCORE BY INNINGS.

Baltimore ... 9 2 3 0 6 6 2 9 Boston ... 0 2 0 0 0 0 1 3 ... Total ... 9 2 3 0 6 6 2 9

RACES AT AQUEDUCT.

Attendance Good — Beauchamp Thrown and Shaken Up.

NEW YORK, October 11.—It was warm and bright today, and the attendance was good. The feature of the day was a driving finish in three consecutive races between Sims and H. Martin, in which Sims got two. In the first race Castleton ran away while the horses were in the stretch, and the race was a confidence, throwing Beauchamp, who was shaken up a bit, and got a badly lacerated hand, but was otherwise unharmed. ... Race five—five furlongs—Hardly (even) won, Elbe (2 to 1) and 1 to 2 second, Fleetwing Gold (3 to 1) third, Time, 1:25.

LATONIA TRACK.

CINCINNATI, October 11.—A race at two miles was the attraction at Latonia today. The public bet on Barton over the favorite, and the race was a confidence. After going a mile all but Barton and Endurance fell back beaten, and it was a pretty fight between the pair for the money in the last half mile. Endurance winning in a terrific drive, by a head. Florida S. was a hot favorite in the last race. She was backed down from 5 to 1 to 2 to 1, and was easily beaten by Roger B. Weather threatening track slow.

Tug Clyde Destroyed.

KEY WEST, Fla., October 11.—The tug Clyde, which was chartered by the U. S. Navy, arrived this evening with the crew of the tug Clyde, which was burned to the water's edge and sank. The crew were ashore at Tavernier Key. The captain was on board, but asleep. He awoke, finding the tug all ablaze. He jumped overboard, and swam nearly a mile to the shore, where he was assigned for the fire. Everything was lost.

Nothing in It.

A special to a Baltimore paper of yesterday stated that in Amelia county a negro who had been guilty of criminal assault had, it was reported, been killed by the father of his victim and his body buried. A special to the Dispatch of yesterday afternoon, says there is no foundation whatever for the rumor. There has been no case of burning or burning.

Serious Drought Conditions.

WELCH, W. Va., October 11.—(Special.) The drought in this section is assuming serious conditions. The rivers are lower than ever known. Residents in the mountains are moving to the ground. Farmers cannot sow wheat. The river is so hard that it is impossible to start a boat at any time, which would entail losses aggregating millions of dollars.

Big Fire in Norton.

NORTON, Va., October 11.—(Special.) The business part of this place was burned out to-day. Loss, \$20,000; partly insured.

TAR-HEEL POLITICS.

REPUBLICAN DEAL INVOLVING SOME STARTLING ALLIANCES.

JUDGE DICK SOON TO RETIRE.

Pritchard to Succeed Him on the Bench—Hoyd to Succeed Pritchard.

Russell to Have Republican Support for Succession to Butler.

WASHINGTON, D. C., October 11.—(Special.)—A Republican deal is on that promises to turn North Carolina politics upside down, and bring about some startling alliances. Ill-health and old age have incapacitated Judge Dick for active work on the bench, and it is only a question of weeks when he will be compelled to retire from the judgeship of the Western North Carolina District. Recently he intimated his desire to retire at once upon condition of the appointment of Senator Pritchard as his successor. The Senator, it is said, is agreeable to the change, provided Governor Russell will appoint Assistant-Attorney-General Hoyd to succeed him. This is understood to be agreeable to the Governor, upon condition that C. A. Cook be appointed United States Attorney for the Eastern District of North Carolina, and that Russell is pledged the support of the Republican organization to succeed Butler.

GOOD SCHEME, SAYS HOYD.

Asked about the matter to-day, Assistant-Attorney-General Hoyd said it was a good scheme, and that it would harmonize and solidify the party in the State, provided the changes in contemplation were promptly made. He was not prepared to say whether the arrangement could be effected or not.

It was upon the assurance that the scheme was feasible, all parties interested having intimated an agreement to the President, that he visited Washington. He saw the President with reference to his appointment as District Attorney, and left the White House with a very friendly message from the President to Attorney-General McKim.

The Attorney-General was unusually gracious, agreeing cheerfully that Mr. Cook's appointment was a desirable thing, provided certain "political considerations" should be removed, and that matters would soon be satisfactorily adjusted.

ESCAPE OF SENORITA COSSIO.

Set on Foot and Carried Out by a New York Newspaper.

(Washington Post.) The escape of the Senorita Evangelina Cossio from the Habana prison, La Casa de las Recojidas, takes us back to the days of romance and adventure, of knight errantry and intrigue and poetry. It reads like a chapter from Dumas pere, or Walter Scott, or Le Sage. It recalls the days of the lettre de cachet, or even the time treated in Froissart's Chronicles, and passes before one's mind the tragic pageantry of the French Revolution, and the deeds of reckless gallantry. Nothing more out of tune with the prosaic age could be imagined.

We know little of the real merits of the Senorita, but she is beautiful, as innocent, and as charming as she is represented—very likely she is. But there can be no doubt that for some reason or other she has been invested with extraordinary importance, not only by the Spanish authorities, but also by the public sympathy in this country. The facts concerning her and her offences have been enveloped in a sombre mystery difficult to understand in this land of liberty and common sense. No one here has ever heard of her, and why the young woman was not publicly tried a year ago, why, if guilty, she was not punished according to her deserts, and why, if innocent, she has been in prison for thirteen months confined in a cell with the lowest criminal of Havana. That the Spanish authorities had their reasons for this apparently inexplicable course we cannot doubt. What those reasons were we have no means of knowing. The days of the Inquisition are over, and it is not that kind of wanton cruelty and persecution as have been alleged in the case of the Senorita Cossio can have any real existence. It is both rational and charitable to suppose that General Weyler was magnified by something more than vague captives in what he did. He does not impress us as a wise ruler or a great general, but we do not believe that he is a monster or that this is a modern instance of Andromeda and Perseus.

Even if we admit that the Senorita was a most romantic and sensational episode. We do not recall an exhibition of greater courage, ingenuity, and daring than is represented in this extraordinary affair. That it was a most extraordinary affair, no newspaper (the Journal) and carried into execution by a correspondent, only adds to the excitement and the wonder. The Senorita's escape, and the manner in which she had aroused an almost passionate interest in her, and the very admirable Pennington, in the interest of the Senorita, and the other influences had produced no visible effect. But the Journal took the enterprise single-handed, and in a matter of a few days, it had secured the release of the Senorita, and the very thoroughness of its mission of rescue.

Of course, we shall, after the applause of the newspaper's achievement has subsided, have to confront the question of propriety, of law, of international courtesy, of the rights of citizens can go to a foreign country with the fixed purpose of committing a violation of the law; whether the United States can harbor these offenders, should they succeed in regaining their native territory.

Whether we should not have to treat both principal and agents as though the offense had been committed here; all these are matters for sober second thought. It looks romantic and dashing enough on the surface, but how would the subject be treated by our laws had the Senorita been confined in an American jail, and had the rescuers offered against American rules and regulations? The incident might well have been fraught with sentiment, but it would not be an establishment, notwithstanding.

PERSONAL.

Colonel A. S. Buford, of Richmond, arrived here last night, stopped at the Metropolitan, and left this morning for Baltimore, where he will attend the meeting of the Virginia House of Delegates, which will convene at 10 o'clock to-day. Mr. Martin is writing a book, and after his present term in Congress he expects to devote his whole time to literary work.

POPULISM IN NORTH CAROLINA.

Populist-Congressman Martin, of North Carolina, who has been under medical treatment here since the adjournment of Congress, will return home this week. Speaking of the political situation in North Carolina, he said the Populist party is gradually losing its hold on the minds of the public, and in the next election and thereafter it will be the majority party in the State. Governor Russell, he says, is a Populist at heart, and will soon make an avowal of the fact. He is a Populist at heart, and will soon make an avowal of the fact. He is a Populist at heart, and will soon make an avowal of the fact.

MURDER AND SUICIDE.

A TERRIBLE DOUBLE CRIME IN RALEIGH, N. C.

A Man Kills His Wife and Then Blows Out His Own Brains—Death of a Prominent Lawyer—Other News and Briefs.

RALEIGH, N. C., October 11.—(Special.) A terrible double crime was committed in the northern part of Raleigh at 6:45 this morning. Al Watson, son of Engineer Gib. Watson (who lost his life in the railway collision near Rockingham last year), shot his wife and then blew out his own brains. He was a machinist at the Seaboard Air-Line repair shops here, and was married July 16th last. He and his wife were quite young. He was drinking yesterday, and was very quarrelsome. He became angry with her because she reproached him for drinking. Her little sister, Katie Pearce, aged 13, was in the house last night when Watson threw his wife violently to the floor. He then left, but returned, and it seemed, there was a reconciliation. But early this morning the little girl heard her sister crying. She said she was going to leave and would kill herself. He said: "I will kill you before you go." "Do so," she replied, "and then you will be hanged." He said: "I will kill you and myself." The girl ran to call help. As she re-entered the room, Watson, who was on his knees, held a shot her in the side, then stood up and blew out his brains. As he fell the dying woman dragged herself from the bed and crawled to his side. He died at 8:20.

RICHMOND ARRIVALS.

Richmond arrivals: John A. Ryan, T. M. Ryan, W. H. Brown, Thomas Folger, A. A. Young, George W. Decker, A. H. Drewry, Miss Anna Drewry, E. C. Mayo, and W. Y. Penn, of Danville. Hon. Lee Overman, of Salisbury, N. C., is here, en route for New York.

UNCLE SAM'S TREASURY.

Available Assets—Revenues and Disbursements—Issue of Currency. WASHINGTON, October 11.—The annual report of the Treasurer of the United States will show that on June 30, 1896, the total available assets of the Treasury were \$55,855,221, and on June 30, 1897, they had increased to \$74,767,577. Of these sums, \$38,254,218 were available on June 30, 1896, and \$28,255,324 on June 30, 1897, for the strictly fiscal operations of the government. On June 30, 1896, \$47,255,324, and on June 30, 1897, \$66,663,925, had been deposited against outstanding certificates and Treasury notes.

CORN, OATS, AND RYE.

Conditions of These Crops—Reports to Federal Statistician. WASHINGTON, October 11.—The October report of the statistician of the Department of Agriculture shows the average yield of corn in the United States for 1897 to be 77.1, as compared with 73.3 on September 1st, with 90.5 on October 1, 1896, and 82.5, the average for the last ten years. There has been an improvement during the month of 4 points in Maryland and 4 in Iowa. On the other hand, there has been a decline of 3 points in Kansas, 6 in Nebraska, 3 in Ohio, 3 in Illinois, and 4 in Missouri, and a general decline in the Southern States. The yield of corn in the United States for 1897 is estimated to be 281 bushels, an increase of 2.8 bushels over the October estimate of last year. The principal increase is west of the Mississippi river, Missouri, Nebraska, and Kansas showing an increase of 10, 12, and 15 bushels, respectively, over last year. The average for quality is 87.6.
