CURRENT BUSINESS.

VOLUME OF TRADE LARGER THAN A YEAR AGO.

SPECIAL ACTIVITY IN IRON.

Glass Trade Conditions the Best for Years—Cereal Markets Not Much Changed—Cotton Prospects Improved—Tobacco Firm.

NEW YORK, July 28.—Broadstreet's tomorrow will say: Weather conditions exercise their natural effect upon the volume of current business, which is, however, larger than a year ago, and restrict speculation, therefore limiting the volume of bank clearances, without, however, exercising any particular influence upon prices, which display nearly all their old firmness, and, in fact, show still further advances in several lines.

The glass trade is reported particularly active, and conditions in that industry are said to be the best for years past.

CEREALS AND COTTON. The cereal markets note little change in price, but trade opinion seems to favor steady demand and firm prices.

Among the metals, tin has displayed exceptional strength, largely in sympathy with legitimate advances abroad, claimed to have legitimate basis in heavily-increased consumption, without a corresponding output of the raw material.

TOBACCO AND TEXTILE GOODS. Tobacco is firm and clear-leaf scarce; prices to good prices being realized by holders.

Among the textiles, cotton-goods retain all their old strength. Full demand for dry-goods is increasing, but complaints of slow delivery are more frequent.

THE FAILURE RECORD. The failures for the week number 170, against 174 last week, 189 in this week, and 221 in 1898.

Canadian failures for the week number 14, against 15 last week, 24 in this week, and 24 in 1898.

GRAIN EXPORTS. Wheat, including flour, shipments for the week, aggregate 2,382,422 bushels, against 2,368,677 bushels last week, 2,271,872 bushels in the corresponding week of 1898.

ITS ACTION STANDS.

COMMITTEE WILL NOT RECONSIDER BROAD-ST. MATTER.

THE QUESTION TO BE REVIVED.

Sentiment of the Members Opposed to the Change Proposed by the Company—Third Market and St. John's Burying-Ground.

The Committee on Streets met last night and transacted a considerable amount of routine business. The committee refused to reconsider its action in regard to the clearance of Broad street by the Richmond, Petersburg and Carolina railway trestle, and though the matter will probably be reintroduced at the next meeting, the attitude of the committee plainly shows that the company has little reason to hope for any further concessions.

The following members were present: Messrs. Allen (chairman), Peters, Ebel, Burton, Baben, Wood, King, Gibson, Pollock, Whitte, and Lawder.

THE R. P. AND C. CROSSING. Under a suspension of rules, Mr. Green, of the Colonial Construction Company, sub-contractors for the building of the Richmond, Petersburg and Carolina railroad through the city, asked to be heard in regard to the proposed modification of the plans, so as to admit of a 14-foot clearance from curb to curb, and a 10-foot clearance over the sidewalks.

Mr. King opposed the reopening of the question. The burden of the mistake, he said, would not fall on the sub-contractor, as had been intimated, but on the company, whose engineer was responsible for it.

Mr. Ebel made a strong argument on the opposite side of the question. The question was broached by Mr. Seymour, the chief engineer of the Richmond, Petersburg and Carolina, he said, in committee, and if the Lexington Hotel proprietor were asked to build a porch over the sidewalk 10 feet high, he would not seem to be any valid reason why the concession should not be made to the railroad, as far as Broad street was concerned.

Mr. Gibson opposed the reconsideration as a matter of justice to the city. He thought the company had been very leniently dealt with, and ought to be prepared to carry out its contract, without these frequent appeals for modification.

Mr. Allen, at the head of the committee, called attention to the fact that the drawings submitted to the committee in the first instance provided for the 10-foot clearance from curb to property line. The question of clearance from property line to property line, he said, was discussed by the general committee, as far as Broad street was concerned. The proposed construction, said Mr. Allen, was better and stronger than it would be from house line to house line, or so he had been led to believe by diligent enquiry. The speaker appealed to the City Engineer for corroboration of the point, but Colonel Cutshaw expressed the opinion that the proposed construction possessed no advantages over that prescribed by the plans and specifications.

MERELY A CAT'S-PAW. Mr. King contended that the Colonial Construction Company was merely the cat's-paw of the Richmond, Petersburg and Carolina. This trifling with the Council, he said, was characteristic of the company, and that he had no confidence in it. He alluded to the crossover on Twelfth street, which had not been removed, according to contract, and the failure of this same company to complete a number of other works by its contract.

Several contractors were reported for failing to complete work within the specified time. Mr. King moved that the penalty should be applied. Mr. Gibson offered an amendment that the contractors should be summoned to appear before the committee and show cause, if any, why they should not be fined. The substitute prevailed.

Contract awarded as follows: Granite paving to J. A. Gade, vitrified brick paving to J. A. Gade, granite curb and walkway to Charles Gasser, and for hay and straw to S. T. Beveridge.

The Third Market. The Committee on Third Market met at 6:30 o'clock yesterday evening in the City Hall, with the following members present: Messrs. Saeed (chairman), Allen, and City.

The City reported that the appropriation for 1899 of \$50,000, the sum of \$12,700 had been expended, leaving a balance of \$37,300.

The pay-roll and sundry bills were approved and ordered to be paid.

A communication was received from the Committee on Health asking that the stall renters in the market be required to provide and use receptacles for garbage and refuse instead of throwing the same on the streets, and on that subject the request was favorably considered, and it was decided to require the stall renters in the market to provide receptacles for their garbage.

The committee disposed of a few matters of business of a routine nature and adjourned.

St. John's Burying-Ground. The Committee on St. John's Burying-Ground met at that cemetery last evening at 6 o'clock. There were present Messrs. Harwick, Chapman, Curtis, Montgomery, Williams, and Woody.

The Clerk reported the financial condition of the department to be as follows: Pay-roll appropriation, \$50,000; expended, \$12,700; balance, \$37,300.

The pay-roll of the cemetery for July and sundry bills were approved and ordered to be paid.

Floodtide of Visitors. Justice John had a floodtide of visitors at his White Temple in the City Hall yesterday morning.

Ida Barnes (colored) was the first applicant for justice to appear. She was charged with stealing \$5, the property of Joseph Barnes (colored). The evidence did not sustain the charge, and so she was dismissed.

Rachael James and Adeline Branch (both colored) were to be tried for disorderly conduct on the street, but they were not at the trial.

In the case of Eddie Drummer (colored), charged with fighting in the street and firing a pistol in the street, the accused was fined \$5 and the costs.
