27,000 Yards of White Goods on Sale To-Day.

Every sort for every use, and 10 to 50c. on the dollar is the price. This is only a single instance of what is going on in the store during this July sale.

The Average Scale of These White Goods Is Less Than 30c. on the Dollar.

It is one of those broad-minded sales that sweeps stocks without apparent cause or reason. We sell as we buy, though we could double every price on these White Goods and sell just as many.

Rare Bargains in Cotton Goods.

This is a rare month for bargains in Cotton Goods. The season started with advancing prices and no surplus on the market anywhere.

No conditions forecasted bargains anywhere. Then came the remarkable succession of cool days and the selling of cottons lagged.

But cotton goods must be worn for two months or more yet. Thousands must buy, but we must sell now in a week what should have been sold in a month.

hence these beautiful fabrics at the prices named below on lots just arrived:

25c. Royal Scotch Dimities, in the choicest designs, entirely different from any that have been here this season, for 15c. a yard.

French Pink, Blue, Lilac, and Corn colors, extra high grade, usually 25c., at 15c. a yard.

Imported High Weils, pretty polka-dot effects on Navy-Blue, Black, Light-Blue, and Pink grounds, 20c. quality, at 10c. a yard.

4-inch Solid-Colored Organdies, in all the shades, 9c., instead of 18c.

Mill Ends of Royal Scotch Dimities, in the most beautiful printed effects, for 7c. a yard.

American Dimities, in the newest printings, for 5c. a yard.

40-inch Black India Linon, 16c. 2c. Fancy Mill Ends, imported goods, 20c. quality (All Ends), 3c. a yard.

Solid-Color Dress Ducking, in Navy-Blue and Black, for 9c. 2c. the 16-2-3c. Imported Chambrays, in any color made, for 6c. 2c., instead of 12c. 2c.

Domestic and Foreign Silks

We've just received a new lot of Summer Silks. Imported? Not a bit of it; made right here at half the price of the imported.

Just as good in every way, too. The American exhibit at the Paris Exposition has been awarded first place, it is said, though the news hasn't yet been confirmed, and these goods are the counterpart of some that are figuring in the display in the gay capital.

Silk Dimities, in the pretty summer shades, 4c. value, for 2c. yard.

Children's and Children's wear, 12c. all ways; these are 6c. yard.

GETS BACK ITS LINE.

FOREST-HILL ROAD RESTORED TO PASSENGER AND POWER CO.

RECEIVER SELDEN IS DISCHARGED.

Sequel to Calling in of the Richmond and Manchester Bonds.

Judge Waddill's Decision—Plans for Immediate Future.

The logical sequence of the bond-redemption plan recently put into effect by the Richmond and Manchester Railway Company, followed in the United States Circuit Court yesterday, when Judge Waddill handed down a decision discharging the receiver for that property and restoring the road to the Richmond Passenger and Power Company.

The decision is as follows: THE DECISION. The Court doth examine and approve the accounts of said receiver, showing his transactions as such from June 9, 1900, to the close of July 9, 1900, from which accounts there appears to be in the hands of said receiver the sum of \$3,557.75.

The Court doth adjudge, order, and decree that out of the said sum the said receiver shall retain the sum of \$1,000 as his own compensation for services up to the end of his receivership, and for compensation to his counsel and solicitor.

And that he shall pay to the Richmond Passenger and Power Company the residue of the said sum in his hands, to wit, \$2,557.75, and that the Court doth further adjudge, order, and decree that the injunction awarded in this cause June 9, 1900, is hereby dissolved, and the receiver thereupon appointed is hereby discharged, and the said receiver (Reverly R. Selden) is hereby ordered forthwith to surrender to the defendants, the Richmond Passenger and Power Company, all the property of every kind and description belonging to the Richmond and Manchester Railway Company that has come into his hands, in custody, or control, and the said Richmond Passenger and Power Company is to be permitted to receive from all the officers and employees of the said Richmond and Manchester Railway Company, all the moneys received by said officers and employees since the close of July 9, 1900.

MAJOR PATTON'S COMPANY. The Passenger and Power Company officials are naturally pleased at the outcome of the litigation, despite the fact that the costs go against them. It would not be surprising if Major Patton's company apprehend no further trouble from interests antagonistic to their plans, but the Passenger and Power Company feel that they are in better position to cope with whatever difficulties may beset them than ever before.

Recently the company has placed eleven new cars in service, and an order for twenty additional cars is now in the hands of the Jackson-Sharpe Company, of Wilmington, Del.

President Patton said yesterday: "We are about ready to begin the work of improving the road-bed of the Clay-street line. Just as soon as City-Engineer Cutshaw approves of the switch it is proposed to place at Twenty-first and Main streets, we will be ready to run the Clay-street cars down Seventh street to Main, thence to Twenty-first, and up that street to Franklin, and along the present route, thence to Franklin from Twenty-first street to Twenty-first, to Bank, Bank to Ninth, to Franklin, and from Franklin to Seventh will be torn up. The schedule from Seventh to Twenty-first on Main, the business centre of the city, will be the fastest in Richmond after the proposed change is made."

THE WEATHER AND CROPS. Some Damage by the Intense Heat, and Rain is Badly Needed.

The United States Department of Agriculture's Climate and Crop Bulletin of the Weather Bureau, Virginia Section, for the week ending Monday, July 9th, follows:

Generally dry and intensely hot weather has characterized most of the week just ended. From Tuesday until the close of the week maximum temperatures, both in the day and night, were high, and occurred every day, doing some injury to corn on highlands and burning pastures and tobacco in the hill. However, the damage from this cause was not as great as might have been expected.

Local showers relieved the situation in a number of counties. The main work of the week was the securing of the wheat crop, harvesting of oats, and hay making. Correspondents are generally of the opinion that the latter crop will be a light one.

Winter wheat harvest is now completed, and farmers are hauling up, stacking, and housing the crop. Threshing has progressed favorably, and as a rule, the yield and quality are good. In some instances rust has injured the crop, and moulding and sprouting in the sheaf, reported, but this is not extensive enough to affect the outlook materially.

Spring oats are ripening, and harvest has commenced. Some fields are yielding very well, but on the whole, only a fair crop is looked for.

Corn has made good progress during the week, but is still irregular. On highlands it is needing rain. Corn bins are reported to be injuring the crop in several localities, and the high temperatures of the week caused the blades to dry considerably. Tasselling has begun. Some fields are grassy and in need of cultivation.

Tobacco is generally reported to be in good condition, and the growth in several counties, and is coming in in the more forward fields. Hot weather caused some burning in the hill. A few fields are late, and locally rain would be of benefit.

Fruit, except apples, is reported abundant, especially peaches and plums. Apples continue falling, and the prospect for a crop is not encouraging.

MEETING OF YOUNG METHODISTS. All Epworth-Leaguers to Gather in Atlanta—Baptist Young People.

The first general Epworth League Conference of the Methodist Church, South, will be held in Atlanta, July 25th to 30th next.

This promises to be one of the greatest gatherings of young people ever held in the South, and certainly the greatest gathering of Methodist young people in the South. A large number of excellent speakers have been secured, some of whom come from Richmond and Virginia.

Mr. W. C. Cottrill, transportation leader for the Virginia Baptist Young People's Union, has received information that the following persons will attend the Convention of the Baptist Young People's Union at Cincinnati tomorrow: Dr. W. E. Hatcher, Dr. W. R. Smith, Rev. M. Ashby Jones, Mrs. R. E. Spots, Mrs. M. A. Hunter, and Mr. A. C. Howell.

These will leave the city to-day. Others will go, but their names have not yet been given to the transportation leader.

A large number of the Richmond pastors and quite a sprinkling of laymen went to Williamsburg yesterday morning to attend the meeting of the Dover Baptist Association. President Boatwright of Richmond College, and a number of those who could not go yesterday, will go down this morning at 10 o'clock. The delegates to the woman's meeting, held in connection with the Dover, will also go down this morning.

The Supreme Court. The Supreme Court of Appeals will meet in Staunton on the 4th of September. The court cleaned up the docket at the adjournment at Washington yesterday.

Judge Keith, president of the court, is at his home in Warrenton; Judge Cardwell came down to Hanover and will rest there for several weeks. The opinions written by Judge Cardwell at the last term of the court have been highly complimented.

Personals and Briefs. Mr. John Currie is at the White Sulphur, to spend several weeks.

Mr. George D. Gaines is quite sick at his residence, No. 708 West Clay street.

Mrs. James Cannon is at Ocean View, on Monday she will go to Old Point Comfort.

Miss Mary N. Wilkerson, of Farmville, is in the city, visiting relatives and friends.

Mrs. John S. Wellford has returned home, after a pleasant visit to relatives in Mathews county.

Mrs. P. J. White, who has been spending some time at Buckroe Beach, has returned to her home in Richmond.

Miss Ethel Merritt has left to visit Miss Carrie Wright in Fredericksburg, and will be gone several weeks.
