# PORTRAIT OF PERRY.

IT WAS ADDED LAST NIGHT TO LEE CAMP'S COLLECTION.

**EX-GOV. FLEMING THE ORATOR.**

His Address Strikingly Brilliant—Widow and Daughters of the Deceased General Present—An Admirable Painting.

The portrait of General Edward A. Perry was hung last night in Lee Camp's gallery of renowned Confederate heroes. The painting, which has been admirably done in the same style as other portraits in this unique collection, was donated by friends and followers of the gallant officer.

The address of the occasion was made by ex-Governor F. P. Fleming, of Florida.

Owing to the fact that the Grand Camp is in session, the attendance was not as large as usual, though the hall was well filled, and many ladies were present.

Commander D. R. Harrison presided, and Captain T. P. Pollard was acting adjutant. The usual business matters were first disposed of, the only particular feature being the donation of \$10 to the relief of the German sufferers.

Captain John E. Laughton, chairman of the Portrait Committee, made the announcement of the presentation, and introduced ex-Governor Fleming, who had kindly consented to make the address. Captain Laughton also called attention to the fact that Mrs. Perry, the widow of General Perry, and his two daughters were among the visitors.

**THE ORATOR WARMLY GREETED.**

Governor Fleming was most cordially greeted. He said in part to duty he "God, in His infinite wisdom, ordained that as heroic, as brave, and as true-hearted a people as ever waged war in defense of home and country should be given the honor of their cause go down in defeat. But, raised by His name, He raised up as the great captain of our armies the most sublime character, other than the one perfect man, of whom history furnishes a record. With complete equipment, he was a commander-in-chief of the Confederate armies, whose portrait adorns this collection, towers in his magnitude—the man, the Christian, the soldier, the patriot, the Grand whom in response to duty he refused the alluring offer of the command of the Federal forces, to return to and share the fortunes of his native State. Grand, when he rode in the white smoke of battle, and the triumphant shouts of his victorious legions. Grand, in the hour of defeat, when he surrendered the small remnant of his war-worn veterans to the mighty hosts which surrounded them. Grand, when the declining years of his life he rejected the tempting offer of pecuniary gain, and devoted his latter years to the education of the youth of his beloved State, and instilled in them the principles of truth, purity, and virtue which characterized his own life."

Governor Fleming paid a beautiful tribute to the women of the South for their heroism and devotion displayed by them, and commended the record and services of General Perry, said:

**SKETCH OF GENERAL PERRY.**

General Perry was born in 1832 in Berkshire county, Mass. He attended school at Lee, near his birthplace, and came south after graduation at the University of Alabama, where he taught school. He then studied law, and was admitted to the bar in 1855 and removed to Florida, where he practiced law. In 1859 he married to Miss Walter V. Taylor. "At the outbreak of the war he was enlisted in a Pensacola company as a private, and came to Richmond in June, 1861, being the first company to leave that State. He served in the 1st Virginia on the campaign, and saw active fighting. He was elected captain in 1862, and later was made colonel, to succeed Colonel George T. Ward, killed at Williamsburg. General Perry was of magnificent physique, being over six feet in height." In closing, Governor Fleming said:

"As he was brave and gallant in battle, in civil life he was true to every obligation of duty and faithful to every trust which devolved upon him. A devoted husband, father, a true friend, a Christian gentleman, I feel it a gratification to have his portrait placed to the memory of my commander and friend, and to place his portrait in the keeping of R. E. Lee Camp, near the field which witnessed his valor and devotion to the cause of his country."

The speech was admirably delivered and very warmly received.

The portrait stood, during the exercises, just in front of the rostrum. It is the most beautiful and perfect work of art by every one to be a splendid likeness.

**With the Association Five Years.**

Mr. S. K. McKee has been general secretary of our local Young Men's Christian Association five years. To-morrow, during this time there have been many changes and steady growth, and at no time in the association's history has there been more real interest than is shown this year. The prospects for the coming season just entered upon are very bright in all departments. The enrollment in the night schools is already 313. The gymnasium will re-open to-day, with the first class, the boys at 11:30, the students at 6 and the young men at 8:30. Everything is rapidly assuming good shape in the building, and while the improvements are not complete, there will be little or no inconvenience from this time on. The bath-rooms are in their usual good order.

There will be a gathering of members next Thursday night to talk over the progress of the association, and to discuss things of interest.

Arrangements are already under way for election night. Private wire will be run in the building, and returns will be received and a concert company will entertain the members between the telegrams.

# Kidney Troubles of Women

A Few Letters to Mrs. Pinkham from Women She has Helped

From Mrs. Bertha Ofer, Second and Clayton Sts., Chester, Pa.

"DEAR MRS. PINKHAM:—I have taken five bottles of Lydia E. Pinkham's Vegetable Compound and cannot praise it enough. I had headache, leucorrhoea, falling of the womb and kidney trouble. I also had a pain when standing or walking, and sometimes there seemed to be balls of fire in front of me so that I could not see for about twenty minutes. Felt tired in the morning when I got up. Had fainting spells, was down-hearted and would cry. I am very thankful to you for what your Vegetable Compound has done for me."

From Mrs. Caroline Samuel, 14 Hammond St., Roxbury, Mass.

"DEAR MRS. PINKHAM:—I write you a few lines to let you know how much good your Vegetable Compound has done me. It should be in every household. I suffered for years with very severe sick headaches and kidney troubles of long standing. Your medicine is my friend of friends. It is worth a dollar a drop."

From Mrs. Mary A. Hipple, North Manchester, Ind.

"DEAR MRS. PINKHAM:—I cannot find language to express the terrible suffering I have had to endure. I had female trouble, also liver, stomach, kidney and bladder trouble. Was obliged to pass urine every few minutes, and it would scald me so that I could scarcely sit, stand, or lie down. I tried several doctors, and also several patent medicines, and had despair of ever getting well. At last I concluded to try Lydia E. Pinkham's Vegetable Compound, and now, thanks to your medicine, I am a well woman. I cannot praise your medicine too highly, for I know it will do all and even more than it is recommended to."

**General Weakness of System**

"DEAR MRS. PINKHAM:—I have you to thank for my health and strength. I have taken your medicine for two years. Before I began its use I was so weak that after I had worked an hour in the morning I was obliged to lie down. I had fearful headaches, could not sleep, had palpitation of the heart, was always tired and suffered in many other ways. Now I am perfectly well and much stronger than I was ten years ago. I am fifty-three years old, and the mother of ten children. I never felt tired since taking your Vegetable Compound."—Mrs. L. WELFEL, 509 Jefferson Place, Union Hill, N. J.

Such letters as these prove that the medicine which overcomes the serious ills of women is

The following exception is made: "In cases of slight obstructions, or from other satisfactory circumstances, the Board of Water Commissioners, having first obtained the approval of the City Council, may cause said work to be done and charged against the property, but collected as other taxes are collected, except that the same shall be paid in three annual payments, with interest at 6 per cent, from the date of performance of the work."

A communication was received from Mr. Edwin M. Pilcher, attorney for the Mayo Bridge and Land Company, requesting a rebate of taxes paid by said company on two lots owned by the city. The matter was referred to the Finance Committee.

**GAYNOR-GREENE DEFENCE.**

George Y. Wisner, Engineer Expert, the First Witness Called.

NEW YORK, October 12.—George Y. Wisner was the first witness called today before Commissioner Shields, at the opening of the defence in the proceedings for the removal of J. F. E. H., and W. T. Gaynor, and B. D. Greene, to Georgia. Wisner is a civil engineer of Chicago. He had examined the work done under Captain Carter's supervision, and testified as an expert at the court-martial that the work was done well and the cost was reasonable. Under cross-examination to-day, Mr. Wisner said he inspected the work done by the Atlantic Contracting Company at Cumberland Sound and in Savannah harbor, under the contracts of 1886, and found the work to conform with the specifications of the contract.

He believed that if the work (Gates at Cumberland Sound) had been completed, it would have answered all the purposes required. The completion of the contract was stopped when Captain Gillette took charge of the district.

For the first time since the proceedings began, B. D. Greene and John F. Gaynor sat with their counsel, and Captain Greene frequently prompted the witness. The District Attorney objected to most of the questions and answers, but was overruled, on the ground that Captain Gillette had been asked exactly similar questions when he testified for the government.

**"EVERY MAN HAS HIS PRICE."**

Mr. Erwin asked Wisner, on cross-examination, how much he was to receive for his testimony. Counsel for the defence promptly objected.

Mr. Erwin replied quickly: "The question is material, because it is but natural that a man's testimony should be influenced by his interest in the matter under discussion. It is an admitted principle in law that every man has his price."

"Not in the North," interrupted Mr. Kellogg, of counsel for the defence. "Here we have some upright men."

Commissioner Shields ruled the question improper.

To the other questions, Mr. Wisner acknowledged the authorship of some printed criticisms on the government's work at Charleston, S. C. He denied that he ever attacked, or insinuated, that they were merely criticisms, published in 1881.

The remainder of the session was devoted to an examination of the photographs of maps put in evidence during Captain Gillette's direct testimony.

Mr. Wisner, replying to the District Attorney, said that the difference between the exhibits as shown by the photographs and as shown by the government specifications were trifling, and such as were well within the discretion of any contracting engineer to make.

The cross-examination of Mr. Wisner was ended, and the hearing adjourned until Monday.

**Autumn Recipes.** (Harper's Bazar.)

A number of fancy waists are now being turned out to wear under the jacket with what is called the correct tailor suit for autumn. It is so essentially severe in its outlines that it seems but a natural thing to have some sort of fancy waist. Indeed, many of the tailor gowns have two or three waists. There is a new material for waists that is called silk flannel, has quite a little weight to it, looks just like a dull-finish satin, and is to be had in all the different shades. It should be made up simply for it does not require trimming, excepting of the flat and severe order, and looks best in the designs in which flannel or cloth would be made. It must not be tucked or pleated, and in that respect is like good cloth. A good model for one of these waists has a stitched yoke and collar, with the waist itself bunched a little in front, fastening at the left side and trimmed with attached folds of flat velvet ribbon, exactly the same shade as the material.

**Autumn Waists.** (Harper's Bazar.)

The bodices of cloths and silk embroidered by hand, in scallops, and bow-knots, and of sized polka-dots, are made with small yokes of tucked chiffon, and are exceedingly dainty; but again these cannot be classed with those that are suitable for every-day. It is said the silk flannel wears splendidly, and at all times it does not soil quickly. There is one thing that ought always to be remembered in wearing light elaborately made silk waists—that when they are soiled they are most untidy in appearance, and there is no excuse for them whatever. It is troublesome and expensive to have them cleaned, but an elaborately made waist of silk or satin or lace that is not fresh makes the whole costume with which it is worn look out of style. This is really the time of year when a woman with a moderate income

**Alcohol in Illness.** (W. O. Atwater, in Harper's Magazine for October.)

In talking with my physicians about this subject I have been much impressed by the frequent and emphatic statements of their experience in administering alcohol to patients in forms of disease when the bodily activities are at a low ebb. They tell me that they frequently find that people in such condition will take without intoxicating effects quantities of alcohol which would under ordinary circumstances produce drunkenness. They say, further, that there are many cases in which the bodily functions are maintained and life is even saved by alcohol when ordinary food could not be endured. In their valuable treatise on Stimulants and Narcotics, Dr. Anstie gives the details of a number of interesting cases of this kind, which he evidently studied with great care.

From the standpoint of the physiologist, this effect of alcohol is not so entirely natural. The bodily functions are weakened and the power of digestion is impaired. While the patient is lying still the labor required of the muscles is not large, and the chief need is fuel to carry the body through the time of rest. The material which is wanted is a material which will not have to be digested, can be easily absorbed, is readily oxidized, and will supply the requisite energy.

SCOTTSDALE, VA., October 12.—(Special.)—From the large amount of fertilizer that has been handled at this place during the last two weeks, it is natural to suppose that our farmers are seeding a large acreage of wheat and grass this fall. They are so very busy since the rains came that they come to town very seldom.

News was received here yesterday of the death at Nashville, Tenn., of Mr. Overton D. Watson, a brother of Mrs. J. H. Farrar, of this place. The deceased was the youngest son of the late Dr. Overton D. Watson, who was a native of this county, and was reared near Charlottesville. Dr. Watson was an A. M. of the University of Virginia, and a graduate in medicine of the same institution. He was a personal friend of the late Dr. George P. Holman, father of the lamented Judge Holman, of Fivayama county.

Mr. R. Lindsay Locke, of the famous Bethesda church of this place, left for Norfolk yesterday.

Miss Bettie Harris and Mrs. J. H. Farrar, returned this week from a very pleasant visit to friends and relatives, in Nelson county.

Mr. Fred H. Farrar, who came home to recuperate his health after a spell of typhoid-fever in Richmond, is improving nicely, and hopes soon to be out and well.

Their presence at the meeting was under the auspices of the Bryan, Stevenson, and Maynard Club, and was presided over by Vice-President R. W. Withers. The Phoenix Band furnished the music.

**NEW "CUT OFF"**

On the Norfolk and Western Railroad Completed.

ROANOKE, VA., October 12.—(Special.) The new "cut-off" on the Norfolk and Western railroad from Beltspring, on the New River Division, to Vickers, on the main line, was completed yesterday, and freight trains are now running over the new route. The "cut-off" is eight miles long, with one bridge over New River. It is a great saving in grades, being almost level, and the \$400,000 it cost is considered well expended. There will be no change in the running of the passenger trains. Perhaps the largest funeral ever held in Roanoke was that of Mrs. E. C. Welch to-day. She was the wife of a prominent Elk, who is foreman in the Roanoke Machine-Works. Several departments of the great shops closed down here will be little or no inconvenience from this time on. The bath-rooms are in their usual good order.

There will be a gathering of members next Thursday night to talk over the progress of the association, and to discuss things of interest.

Arrangements are already under way for election night. Private wire will be run in the building, and returns will be received and a concert company will entertain the members between the telegrams.

**Fell Down the Steps.**

Mrs. A. R. Higgins, of No. 301 south Laurel street, fell down the steps at her home yesterday morning and was badly injured. Dr. Stuart McLean was called in and treated her injuries, which consisted of several cuts on the face and scalp. She was resting as well as possible last night.

**Arrests for Assault.**

John Henry was arrested last night and lodged at the Second Station, charged with beating Fred J. Yerry. Both parties are colored.

Robert Taylor is at the Second Station, charged with beating Gordon Ellis. These, too, are colored.

**Henrico Circuit Court.**

The Henrico Circuit Court was in session yesterday.

The Circuit Court was in session, and in the suit of C. W. Burr vs. Mary T. Hessler, judgment was rendered in favor of the plaintiff for \$24.90.
