

TO BE HEEDED NOW.

In the Spring You Are Always Run Down.

This Will Tell You Just What To Do For Yourself.

And Just Why You Should Follow Exactly This Plan.

In the spring everybody needs to think about taking a spring medicine. Not only is this a common practice, but a very necessary and healthful one.

Perfect health cannot be maintained while the system is clogged and the organs sluggish, and the person has a languid and weakened feeling, with more or less nervousness and debility.

The best spring medicine, indorsed and recommended by physicians, druggists and the people, is Dr. Greene's Nervura blood and nerve remedy.

Mrs. Etta Sumner.

Being constantly published in the papers. The following is from Mrs. Etta Sumner of Goodells, Mich.

"I have been afflicted," she says, "with nervous debility for a year. My nerves were completely prostrated, and I suffered at the slightest excitement."

"After I had finished the second bottle, I could sleep with a quiet mind, and eat with ready and refreshing appetite. I have taken three bottles and am entirely cured of all my sufferings."

Dr. Greene's Nervura blood and nerve remedy is, indeed, the greatest of all spring medicines, for it makes the sick well and strong.

Dr. Greene, of 35 W. 14th St., New York City, has the largest practice in the world, and this grand medical discovery is the result of his vast experience.

DISCOVERY OF GREENE'S BODY.

Colonel Gardner Lays at Rest Traditions as to Grave.

SAVANNAH, GA., Sunday.—The discovery and identification of the body of General Nathaniel Greene, of Revolutionary fame, set at rest a controversy of many years respecting the General's grave.

The investigation was made by a joint commission from the Rhode Island Society of the Cincinnati, of which General Greene was the first president, and the Georgia Historical Society.

Colonel Asa Bird Gardner, president of the Rhode Island Society, was at the head of the commission. The search was made with the aid of the local Health Department and Park and Tree Commissioners.

General Greene won undying fame in the southern campaigns of the Revolutionary war. As a mark of appreciation of his services, the Georgia Legislature erected to him a large and costly monument at Mulberry Grove plantation, a few miles out of this city.

It was at Mulberry Grove that General Greene died, of a sunstroke, in 1786. He was buried with military honors in the old burying-ground on south Broad street.

Various Traditions.—But the vault in which the body was found was not marked. In 1820, an earnest search was made for the body without success.

The most generally credited story was that the body had been placed in the vault belonging to the Mulberry Grove estate, that Mrs. Mossman, daughter of Lieutenant-Governor Grahame, to whom the estate had been reversioned, had caused the Greene casket to be removed from the vault and thrown into Runaway Creek, regarding its presence as a desecration of the vault of her father.

A few months ago the Rhode Island Society of the Cincinnati voted to erect a memorial to General Greene after ascertaining positively, if such were possible, where his bones rested.

The work of opening the vaults was begun on Friday, March 1st. It was in the seventh vault that the body of Colonel George Noble Jones, of the Continental army—that the body was found. There was no casket, but only a rim of dust to show where it had been.

Within this dust rim was a large and corroded silver coffin-plate. Brought to the light and closely scrutinized, it showed these letters:

AEL GREENE, 1786.

There were also discovered a part of a glove, which crumbled to dust as it was touched, several army buttons bearing the insignia of the Mulberry Grove estate. It crumbled upon being handled, even when great care was taken.

Splendid Skull.—The large size and peculiar formation, however, were carefully noted, and upon his receipt of the skull of the family of Colonel Gardner, the city and spoke of the skull to the Mulberry Grove estate, which was in the course of the day. He was asked what he thought of the present anti-vice crusade in New York and Devery after Lewis Nixon had demanded it, but would express no opinion.

OH! FOR STRENGTH!

Weak Nerves, Tired, Exhausted Bodies.

The Complaint of Thousands upon Thousands.

Health and Strength are Within Your Grasp.

Dr. Greene's Nervura Makes You Strong and Well.

It is the Great Restorative of Brain and Nerves.

Oh, those nerves of ours, how they do bother us! Weak, tired, and nervous is the complaint everywhere. We overwork, dissipate, weaken our bodies, ruin our health, and finally break down.

Sleeplessness and indigestion are early symptoms, for the nerves are too exhausted and irritable to permit rest, and the stomach too weak to digest food.

It is nerve and brain exhaustion which makes the brain tired, and the arm nerveless, the limbs trembling, the muscles weak, and the whole body without strength, energy or ambition.

It is loss of nerve and vital power which is slowly but surely sapping the very life itself, and unless help is sought from the right source, the end will be shattered nerves, insanity with softening of the brain, nervous prostration, heart failure, paralysis or premature death.

Beware of such symptoms! A well known druggist, Charles W. Eggleston, 329 Park Avenue, Worcester, Mass., suffered from nervous prostration and all its terrible symptoms. He writes the following letter telling what he knows is the best way to get well.

"Some time ago I was taken with nervous prostration. I suffered terribly with my nerves and could get no sleep at all. I became fearfully exhausted, my stomach was in a terrible condition from dyspepsia, and I could eat hardly anything."

"I used several medicines but without benefit. Being in the drug business myself, and having had many customers speak in the highest terms of Dr. Greene's Nervura blood and nerve remedy, I determined to try it. After taking only one-half bottle I began to feel much better."

"I slept soundly all night, and my appetite was splendid. After taking three bottles, I ate three square meals a day, and had not the slightest distress. My nerves were perfectly strong and I felt like a new man, being completely cured of all my troubles."

"Out of the respect I bear the manufacturers of Dr. Greene's Nervura blood and nerve remedy, and my desire to have the sick and suffering made well and strong, I unhesitatingly say that this medicine is the best and most wonderful remedy known to-day."

"It does just what is said of it, it cures disease. Don't hesitate to use it, sufferer as it is, its being the discovery of one of our best known and most successful physicians."

As this letter is from a dealer in medicine, his word is authority on such matters. Everybody knows that Dr. Greene's Nervura blood and nerve remedy is the great leading medicine of the age. Take it and you will be made strong, healthy and vigorous.

Dr. Greene, the most successful specialist in curing nervous and chronic diseases, discovered it. He can be consulted free, personally or by letter, at his office, 35 W. 14th St., New York City.

ed intact, and all of the teeth remain in sound condition. An examination with a microscope showed that a number of them had been plugged with a dentist's work. The examination said he would judge them to be those of a man about 45 years old.

General Greene, at the time of his death, was 45 years old. Accurate measurements were made of a number of the best preserved bones. The thigh-bone was found to be eighteen inches long, that of a man more than six feet tall. General Greene was of commanding stature.

In the vault was found a smaller skeleton, which is believed to be that of George Washington Greene, who was drowned when 13. It is the tradition that he was interred in the same vault with his father.

The bones were placed first in cracker boxes, and then in zinc-lined cases, the two lots being kept separate. These were hermetically sealed. Heavy lids were then screwed on.

Nothing but the bones of father and son was put into the boxes. The metal plate, the buttons, the shreds of what appeared to be the General's uniform, and a ring were sealed in a small box by Colonel Gardner, which he took to New York with him. He said it was his purpose to take the remains to General di Cesnola, director of the Metropolitan Museum of Art, and submit them to him.

While Colonel Gardner is satisfied with the results of his investigations in this matter, it would please him to have General di Cesnola say that the buttons are really of the pattern worn by the major-generals of the Continental army. It is probable that the relics will be permitted to remain in the Metropolitan Museum.

BRYAN IN NEW YORK.

Notices no Coldness—Doesn't Like Closure for Senate.

(New York Herald—11th.) William J. Bryan had a number of callers at the Hoffman House yesterday, and said at the end of the day that he had not noticed any coldness in the manner in which his visit to this city had been treated. He will leave New York to-night or to-morrow morning and go back to Nebraska and the Commonwealth.

Colonel Bryan went to the Madison Avenue Presbyterian church in the morning, and after hearing Dr. Parkhurst preach he went to the home of Major O. J. Smith, in west Fifty-eighth street, for dinner. He was out most of the afternoon, and failed to see several Tammany men, who left their cards for him.

In the evening he received some visitors at the Hoffman House. When I saw him there he expressed satisfaction at his reception in the city and spoke of the receipt of the Mulberry Grove estate, which was in the course of the day.

ANCIENTS HAD SENSE.

Dated Beginning of Year from Opening of Spring.

When All Things in Nature Start Afresh.

Some Other Things in Which the Ancients Have Given Us Points.

The ancients began their year with the advent of spring. How much more appropriate thus to begin the New Year with the new life of nature in the awakening spring. At this season all processes throughout the natural world start afresh.

The ancients also showed their sagacity and appreciation of the great changes and active processes of spring-time, by realizing that this is also the time for renewed life and energy in the human system. They well knew that the blood should be cleansed from impurities and the nerves re-invigorated at this season. Hence the establishment of the custom of taking a good spring medicine.

This most sensible and healthy custom is followed by almost everybody at the present day, few people of intelligence venturing to go through this trying time of change from winter to summer without taking a spring medicine.

The unanimity on this subject is a settled fact; the only question heretofore has been in regard to what is the best thing to take. The people have now become unanimous in their decision that as a spring tonic and restorative, Dr. Greene's Nervura blood and nerve remedy is pre-eminently the best.

Year after year Dr. Greene's Nervura blood and nerve remedy has proved itself the surest, most positive and reliable remedy. Made from pure vegetable medicines, it invariably cleanses, purifies and enriches the blood, making the blood rich and red, and at the same time, by its invigorating effects, giving strength, power, vitality and energy to the nerves.

Dr. Greene's Nervura blood and nerve remedy has proved itself the most perfect of medicines and just what everybody needs for a spring remedy. Try it this spring.

Mr. Stoughton L. Farnham of Manchester, N. H. says:

"Some time ago I was troubled with lassitude and a feeling of fatigue. I did not have the ambition to do anything that demanded unusual physical exertion."

"I was recommended by a friend to try Dr. Greene's Nervura blood and nerve remedy. I took two or three bottles and am prepared to say that it did me good. I can recommend it as a tonic, as I know it helped me."

Remember Dr. Greene's Nervura blood and nerve remedy is recommended by physicians, in fact, it is a physician's prescription, the discovery of the well-known specialist in nervous and chronic diseases, Dr. Greene, of 35 W. 14th St., New York City, who can be consulted free, personally or by letter, at his office, 35 W. 14th St., New York City.

rule the Republicans are considering for the Senate?" I asked. "I don't care to see a 'cloture rule' there," said Colonel Bryan. "I don't think that free debate in the Senate has ever been the cause of any injury to the interests of the people."

Colonel Bryan said that he would meet some publishers to-day for the discussion of practical questions, which concerned him as the proprietor of the Commonwealth. "You know," he added, "I am a business-man now." He said that he was well pleased with the success of his paper thus far.
