

Happy Childhood Knows What's Best

Medicine that a child dislikes, will not do it much good. Sensible parents will give the little darlings medicine that tastes good and does good, and don't grip or gripe; the kind they like themselves.

"I rely upon Cascarets entirely in looking after my children. I have never had a child who has not been cured by Cascarets. My little boy three years old was troubled with a cold and cough, and he was given Cascarets, and before he had taken one box, he was sound and well."

"My little daughter complained of not feeling well and began to vomit and became very sick. I gave her Cascarets, and she was cured in less than half an hour. She got up as well as ever. Cascarets are a house hold necessity."

"My little girl was greatly troubled with worms, but after giving her Cascarets, she is entirely well."

"Medicine that a child loses his little innocent who can't protect themselves, makes them peevish and afraid of the medicine, it will not be effective. Children like Cascarets. Candy Cathartic, ask for them and are kept healthy always and easily against the damages of childhood's ailments."

bruised, and the shafts and dashboard of the buggy broken, while Miss Houghton received no injury at all, not even fainting as if she had been in no danger whatsoever. She sat in the buggy, tried to turn the corner out of the way of the hay wagon, but the horse refused to obey the lines.

The wagon and hay belonged to Mr. W. P. Hing. It is probably well that the attempt to turn the corner failed, as the young lady would, in all probability, have been thrown to the stony street, and received serious injuries.

HAVE YOU A COLD?

Pe-ru-na Will Cure it Before it Becomes Chronic.

Mrs. Eleanor Cohn, 505 Sixth Avenue, New York, Writes: "For bronchial trouble or any other disorders of the throat, lungs, or stomach, I believe Pe-ru-na is at the head. I caught a heavy cold which developed into bronchitis in its most serious form, but I got well in it, as my experience had been that most patent medicines are worthless. When I began using it, I had been confined to my bed for a week, and in a few days I felt my strength returning, the cough left my throat less sensitive, and in two weeks I was entirely well."

Mrs. W. Washburn, Financial Secretary of Camp No. 2, Sons and Daughters of America; also, Recording Secretary of the Lady Standard Mutual Benevolent Association of New Orleans, La., writes from 123 Villere street, New Orleans, La.: "Recently, I caught a severe cold, which kept getting worse and kept doing being repeatedly exposed to cold in our rainy season. It settled all over me, and in a few days I had chills and fever, with inflammation and headache, so that I was unable to be about. I had one of your booklets in my home, and had read in an indifferent way of the value of Pe-ru-na, but when I became sick, I thought about it, and sent for some. I found it truly wonderful. It simply hunted out every sick and aching place in my body, and within a week I was able to be about. It has cured me, and has been in the best of health since."

A PLAIN TALK. On a Plain Subject, in Plain Language. A cold is the starting point of more than half of the fatal illness from November to May. A cold is the first chapter in the history of every case of consumption. A cold is the first stage of chronic disease, the most loathsome and stubborn of diseases. A cold is the legitimate parent of a large family of diseases, such as bronchitis, pleurisy, pneumonia, and quinsy. To neglect a cold is almost suicide. To fail to provide against this well-nigh inevitable evil is dangerous negligence.

Pe-ru-na is a safeguard as a preventive, a specific as a cure for all causes of catarrh, acute and chronic, coughs, colds, consumption, etc., etc. If you do not derive prompt and satisfactory results from the use of Pe-ru-na, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address: Dr. Hartman, President of The Hartman Sanitarium, Columbus, O. "But reading in the papers about Pe-ru-na I decided to try it without the least bit of hope that it would do me any good, but after taking three bottles I noticed a change in my appetite, which seemed to get better, so I kept on, never getting discouraged, and finally my cough got better, and the pains in my chest got better, and I could rest at night. Now I can lie on my back to sleep all night without waking, until I am called in the morning, and you may well think how thankful I am for Pe-ru-na. At times I thought I would choke, but I kept on using it, and I was cured. I have neither the cough nor the sore throat since I used the Pe-ru-na. I cannot thank Pe-ru-na enough. It has cured where doctors failed, and I talk Pe-ru-na to everybody. I recommend it to everybody."—Mrs. W. M. Hohmann.

GERMAN PRAISE FOR AMERICANS.

Naval Expert Comments On Progressive Methods of Ship-Building. BERLIN, January 7.—Tara Schwartz, a German naval constructor, who was recently sent to the United States by the marine general staff to investigate ship-building there, has submitted his reports. Herr Schwartz says that all of the principal ship-yards in the United States facilitated his investigations in every way. His descriptions are accompanied by masses of photographs and drawings of new machines, especially of pneumatic contrivances used in ship-building. The investigator says that materials for the construction of steel ships are lower in price in the United States than in any other country, and that the only thing to be complained of is the fluctuation of prices, which makes competition with foreign ship-builders difficult.

The German investigator refers to the splendid body of American workmen, earning wages from 20 to 30 per cent higher than those paid in Great Britain, and 100 per cent higher than the wages paid on the continent, and says that wage bills in the United States are counterbalanced by economical processes of machinery which are not found in European yards.

Herr Schwartz reports that notwithstanding the wages paid, freighters are being built on the Great Lakes as cheaply as tramp steamers, are built in Great Britain.

Herr Schwartz reports that the new consolidation of ship-building companies in the United States is the largest and richest ship-building concern in the world, and he says that it will devote its resources to economic ship-building, reducing the present method of obtaining material to uniformity, and to the centralization of ship-construction and its management.

SETH LOW'S FIRST MESSAGE. No Man Need Submit to Graft Hereafter, He Says. NEW YORK, January 7.—Mayor Low sent his first message to the Board of Aldermen yesterday. "If during the next two years," the message says, "any citizen or any employee of the city pays money illegitimately, either to avoid injury or inconvenience, or to secure his rights, he will do it because he wants to, and not because he must."
