LEGAL NOTICES.
VIRGINIA—IN THE LAW AND EQUITY COURT OF THE CITY OF RICHMOND.
 Virginia State Insurance Company, which was, etc.,
 vs.
 Atlantic Varnish Works, et al.
 (Extract from Decree of February 10, 1902.)
 On consideration whereof the court doth adjudge, order and decree that this cause be referred to one of the commissioners of this court, who is directed to take the following accounts and make report thereof to this court, to-wit: An account of all the debts and liabilities of the Atlantic Varnish Works, together with their respective amounts, to whom due, and their priorities, and to whom due, and all the liens on the real estate, plant, and fixtures of the Atlantic Varnish Works, with their amounts and the order of their priorities, if any, and an account of all the liens on the personal estate other than plant of the Atlantic Varnish Works, with their amounts and the order of their priorities, if any.
 "And said commissioner is directed to give notice of the time and place of taking accounts, numbered two and three, by publishing the same once a week for four successive weeks in the Richmond Dispatch, and such publication shall be equivalent to personal service of such notice on the parties, or any of them."
 Office of Commissioner Wm. M. Turpin, Room No. 11, Shafer Building, Richmond, Va., February 11, 1902.
 TO ALL PARTIES IN INTEREST, I hereby advise that I shall proceed at 10 A. M., to execute the foregoing decree, where and when you may attend, if you think proper to do so.
 Given under my hand this 11th day of February, 1902.
WILLIAM M. TURPIN,
 S. S. P. Patterson p. q. Commissioner.

C. A. ASHBY'S TRIAL.
 CITY ENGINEER MARYE'S SLAYER
 TO BE ARRAIGNED TO-DAY.
MANY LAWYERS TO TAKE PART.
 Hill Carter and Al. P. Thom May Look After the Case on Behalf of the Marye Family—The Defendant Will be Represented by Four Able Attorneys—The Illinois Sails.
 NEWPORT NEWS, VA., February 10.—(Special.)—The trial of Attorney C. Aylett Ashby, the well-known attorney, indicted for the murder of City Engineer Marye, son of the late Morton Marye, will begin in the Corporation Court to-morrow morning, when an effort will be made to secure twelve jurors from the venire of thirty summoned to-day.
 A sensational development in the case is known to the family of the victim of the tragedy had retained the services of Attorney Hill Carter, of Richmond, Va., to represent it at the trial. It is stated that Captain Al. P. Thom, of Norfolk, Va., will also be identified with the trial on behalf of the Maryes, though he may take no active part in it.
WHAT MR. CARTER MAY DO.
 The statement is also made that Hill Carter will not figure in the case as prosecuting Mr. Ashby, but as the essential features of the defence will be an attempt to prove provocation and justification for the shooting, the Richmond attorney will simply represent the family in order to defend the good name of the late City Engineer.
 It is probable that provocation will be admitted to a certain extent, but beyond that the plea will be fought.
 Jack Lee, the notable Longhairs lawyer, who has been retained to assist in the defence, arrived in the city to-day.
ATTORNEYS FOR THE DEFENCE.
 There will be four attorneys' court to conduct Mr. Ashby's case, these besides Mr. Lee being R. M. Lett, Colonel J. C. Baker, and C. C. Mitchell.
 Major Henry, of Tazewell, a relative of the defendant, and Judge Garnett, of Norfolk, a relative of the late Marye, have arrived in the city, and will attend the trial throughout, ostensibly as observers, possibly as advisors, but taking no active part in court.
 This trial will present one of the most notable arrays of lawyers ever gathered in one case in Virginia, and a closely contested legal battle will result.
 Commonwealth's Attorney C. W. Robinson will prosecute the case. Interest in the trial is intense all over the State, both families being very prominent.
THE ILLINOIS SAILS.
 The battleship Illinois sailed this morning for New York on her final acceptance trial, having been the property of the Naval Board of Inspection and Survey, of which Captain C. J. Train is chairman temporarily while Rear-Admiral Robley D. Evans is assigned to special duty in connection with Prince Henry's visit.
 The board arrived this morning from Washington by steamer and went aboard the Illinois at 9:30 o'clock. An hour later the big ship weighed anchor and steamed out to the ocean.
 The trial proving satisfactory, the Newport News Shipbuilding and Dry-Dock Company will be relieved of further responsibility for the ship's behavior and will be paid the last installment of the contract price.
 A thousand tons of picked steam coal are stowed in the battleship's bunkers, to be used on the speed runs.
 All of the Illinois' stores were not sent over from the navy-yard before the ship's departure, and Rear-Admiral Cotton notified Captain Converse that they would follow on the cruiser San Francisco, which has been ordered to proceed to New York on Friday.
 The San Francisco was only commissioned several weeks ago, after being laid up at the navy-yard for three years being remodelled.
 The cruiser Cincinnati will probably accompany the San Francisco from Hampton Roads to New York City. Three ships will be joined there by the Olympia and Hartford, the five comprising Admiral Evans' special squadron.

Valentine Parties
 have become very popular, and we are prepared to supply everything to make the Dinner, Luncheon, or Supper a REAL VALENTINE AFFAIR. We have a large variety of Heart Cakes, Heart Boxes, Heart Ice-Cream Moulds, Heart Cakes, and Ices.
 We also make up fancy pieces for TABLE DECORATIONS in the shape of Hearts, Baskets and Hats.
Any Design Made To Order.
 Have you ever tried our Cream Mints; Marron, Grape, and Orange Glace; Patties, Cream Puffs, Eclairs, Angel Food, Marzipan, and Fancy Cakes? All the latest Creams and Ices.
 Let us furnish your reception and you will be pleased with our style and quality.

Deafness and Head Noises.
 This section through the head and neck, for the purpose of showing how deafness may be produced by catarrh extending from the throat along the tubes (from B to 2) leading to the middle ear.
 The various parts taken together which grasp, conduct, and hold sounds, are

DEAFNESS AND HEAD NOISES.
 The real organs of hearing (2, 3, 4) are nearly 2 inches inside the head, the eardrum, eustachian tube, blocks the air from the auditory canal entering the internal ear; therefore, air can only enter a sound ear through the eustachian tube (B to 2) called the "Eustachian tube," which passes from the throat to the cavity of the middle ear.
 Without the eustachian ear sounds cannot be heard. Most cases of deafness are due to either swollen mucous membranes lining the Eustachian tubes, or catarrhal secretions called "mucus," more or less blocking up or closing the tubes and interfering with the circulation of air in the middle ear.
 The chronic inflammatory process in the lining membrane of either Eustachian tube causes it to swell, and in many cases actually becomes thickened so as to diminish its calibre or even close it up.
 Closure may be complete, or only partial, the hearing being being usually in proportion to the degree of obstruction. Catarrh of the Eustachian tubes is the most frequent cause of "head noises," as well as of deafness.
 Nearly all "head noises" are due to some interference with the circulation of air through the Eustachian tubes. Any swelling, thickening, or obstruction, or disease of any kind that results in partial or complete closing of these tubes may cause the "head noises." The various head noises resemble the escape of steam, the roaring of the ocean, the ringing of bells, the singing of a tea-kettle, in fact, almost every conceivable sound may add materially to the existing distress, irritate and annoy during the day, and prevent sleeping at night.
 It is difficult to get local applications into the Eustachian tubes, and even if you could they would likely do more harm than good. Local applications do not cure catarrh, for it is a constitutional or systematic disease, of which the diseased mucous membrane is but a manifestation. The only rational business and successful treatment for catarrh is the internal administration of searching alterative remedies, in fact, almost every conceivable poison and correct the constitutional or systematic taint. After this is accomplished the local lesions of the mucous membrane are cured.
 The same systematic remedy that will cure catarrh in one part will just as surely cure catarrh everywhere else it may be manifest.
 A local application may drive in or suppress catarrh at one point, only to have it appear elsewhere, and it never really cures. The catarrh shows itself elsewhere, or reappears as spasms, or returns when the local treatment is stopped.
 Not so where systematic remedies are used. With them the disease is cured, and will stay cured.
 This is why those who have been cured by using Stuart's Catarrh Tablets are so enthusiastic in their praise, and why successful treatment for catarrh is the internal administration of searching alterative remedies, in fact, almost every conceivable poison and correct the constitutional or systematic taint. After this is accomplished the local lesions of the mucous membrane are cured.

After this is accomplished the local lesions of the mucous membrane are cured.
 The same systematic remedy that will cure catarrh in one part will just as surely cure catarrh everywhere else it may be manifest.
 A local application may drive in or suppress catarrh at one point, only to have it appear elsewhere, and it never really cures. The catarrh shows itself elsewhere, or reappears as spasms, or returns when the local treatment is stopped.
 Not so where systematic remedies are used. With them the disease is cured, and will stay cured.
 This is why those who have been cured by using Stuart's Catarrh Tablets are so enthusiastic in their praise, and why successful treatment for catarrh is the internal administration of searching alterative remedies, in fact, almost every conceivable poison and correct the constitutional or systematic taint. After this is accomplished the local lesions of the mucous membrane are cured.
