SLEEPING CAR PRIVILEGES. Some of our able and esteemed contemporaries are under the impression that the Virginia Constitutional Convention has placed sleeping-car companies under the control of the corporation commission.

WILL NOT EXPOSE HIS LEGS. The modesty of ex-Governor James S. Hogg, of Texas, refuses to be led astray, even by the glittering pomp of royalty or the opportunity to extend the glad hand to his Majesty, King Edward VII, of England.

WORLD RECORD MADE.

WONDERFUL SPEED MADE BY TELEGRAPH OPERATORS IN ATLANTA. A RICHMONDER'S GREAT SKILL.

Wirt White, of Richmond, Captured the Second Honor—He Showed Marvelous Skill—Lightning-Like Work of F. M. McClintic, Winner of the Carnegie Medal—Great Enthusiasm and Interest Was Displayed.

After the most spirited contest on record—a trial speed, the like of which has never been seen before—the contestants in the telegraphers' tournament left the city last night.

During the day the winners in the various contests received hundreds of telegrams from out of town friends congratulating them on their success.

Owing to the fact that the last contest did not occur until 4 o'clock Sunday morning, it was impossible to get the result in time for yesterday's paper.

F. M. McClintic, the winner of the Carnegie medal, who is without doubt the fastest operator in the country, in speaking of the contest last night, said: "Beyond any doubt, the Atlanta contest was the greatest I ever held."

Mr. McClintic's work in winning the Carnegie medal is nothing short of marvelous. Never before in the history of contests have men undergone the enormous strain that they were compelled to stand Saturday night.

The executive committee has under consideration the time and place for holding the next annual tournament.

The medals and money were presented to the successful contestants during the smoker.

Mr. White returned from Atlanta last night, and gives some additional particulars of the contest.

"THE BATTLE ROYAL." The great events—namely, the "Carnegie prize," ten-minute straight-sending, and the thirty-minute message-sending—did not take place till about 3 o'clock Sunday morning.

For the first of these, which was open to all contestants, a qualification of fast receiving was first required before the competitor was eligible.

White led out with 500 words of clear-cut Morse in ten minutes.

TELEGRAMS TO BE "RUSHED." Then came the message contest. White was selected on account of his style and speed to send as many messages as he could in ten minutes.

Wood's Seeds. Va. Second Crop Seed Potatoes. These are the result of growing two crops in the same year.

T. W. Wood & Sons, Seedsmen, RICHMOND, VIRGINIA.

Spring Wretchedness, Misery and Suffering Permanently Banished When You Use Paine's Celery Compound.

A Cured and Grateful Farmer's Wife Declares That Paine's Celery Compound Almost Raised Her from the Grave.

A few words to weak, broken-down, nervous, and sick women at this time, and the partial of Mrs. Shepherd's letter, will be sure to kindle hope and inspire fresh confidence in many a home where some loved mother, wife, or daughter is hovering between life and death.

"I had been sick for eight years, and no longer can tell what I suffered. I would have spent my nervous headache when I would keep my bed five and six days, and could not raise my head off the pillow.

"I had given up all hopes of this life, until my husband read one of your pamphlets. After I had been using it I felt better than I had for three years."

Diamond Dyes are the simplest dyes made. A child can use them. could in thirty minutes to be correctly copied. He went about it with calmness and confidence.

For the first three or four minutes all went well; then Bruckner, of Dallas, a star receiver of the Postal, got a message hung in his machine and became a little "rattled."

When the forty-fifth message was passed and former records were being approached, there was intense interest among the operators watching the contest.

Half of the fifty-first message was sent before the key was opened. Then followed an ovation to Messrs. Emanuel and White seldom witnessed among operators.

DEATH OF DR. W. E. BIBB. A Venerable and Much Beloved Physician of Albemarle. (Correspondence of the Dispatch.)

FREE UNION, VA., March 3.—The remains of Dr. W. E. Bibb were interred in Mount Airy, the family burying ground yesterday, and this death ended the career of a very remarkable man and physician.

He loved the practice of medicine, and gave his life and services to the poor. He did more charity work here than all the churches combined.

While the members of the congregations slept, Dr. Bibb was climbing the mountains, forcing swollen streams, endeavoring to relieve suffering humanity.

MAJOR PETER WOODWARD DEAD. An Aged and Respected Resident of the City of Staunton.

STAUNTON, VA., March 4.—(Special.) Major Peter Woodward, aged 79, died suddenly here today of heart failure.

MAJOR ESTERHAZY SEEN IN NEW YORK.

Man Who Confessed Forgery Dreyfus Bordereau Recognized in Restaurant—Face Haggard and Thin.

(New York Herald—Italy.) Shabbily dressed in a gray overcoat and slouch hat, with hollow eyes and sharp cheek bones almost protruding through a sallow skin, Major Ferdinand Walsin Esterhazy, the man who confessed to the forgery of the Dreyfus bordereau, sat at a table in a restaurant in Broadway, near Thirtieth street, for two hours Sunday evening.

When Major Esterhazy entered the place with his companions, Count Pangart and Mr. Wahrer sat at a table talking in French, and as soon as Major Esterhazy heard the accents of his native tongue, he immediately recognized the man at the table.

"There can be no doubt of the identity. No one who had ever once looked into the face of Esterhazy, as I did many times, could ever forget it. But he has changed considerably. He is now wearing an imperial, which he did not do when I last saw him, and he has allowed his hair to grow long on the back part of his forehead. But his eyes and sharp lines of his face cannot be disguised. He is very much thinner now than when he was in Paris, and looks terribly haggard."

Count Pangart believes that Major Esterhazy is here under an assumed name, and may possibly be in some business.

Major Esterhazy declined to be interviewed by the Herald, but he confessed to being the author of the "bordereau" which declared that he committed the forgery under orders of Colonel Sanhner and his superior officers.

THE STARVATION PLAN. Of Treating Dyspepsia and Stomach Trouble is Useless and Unscientific.

The most certain failure of the starvation cure for dyspepsia has been proven time and again, but even now a course of dieting is generally the first thing recommended, because of indigestion or any stomach trouble.

Many people with weak digestion, as well as some physicians, consider the first step in attempting to cure indigestion is to restrict the amount of food eaten to barely enough to keep the body together.

All this is radically wrong. It is foolish and unscientific to recommend dieting to a man already suffering from starvation, because of indigestion. It starves every organ, nerve, and fibre in the body.
