THE NEWS FROM ROCKBRIDGE.

Killed a Bear; Captured Cub—Lexington, Va., March 13.—(Special.)—The annual competition for prizes by the members of the gymnasium team of Washington and Lee University took place to-night in the gymnasium at the University before a large audience of invited friends of the contestants.

The exhibition given by the team on the bars, as well as the tumbling, reflected great credit upon Dr. William Wentzbacker, the physical director of the University.

Those competing were Messrs. Hall (captain), Glasgow, Davis, McPheeters, Moffett, Stone, and Burke, of last season's team, and Chaffee, Landis, Boise, Gil, Sampson, and McCulloch, of the new men.

The contest was judged by Dr. W. A. Lambeth, physical director of the University of Virginia.

The remains of Mr. G. H. Johnson, a former citizen of Botetourt county, who died at the home of his son-in-law, Mr. J. W. Churchman, of Augusta county, through Lexington Wednesday for Lynchburg, where the interment was made.

Rev. C. W. Trawick, of the Buena Vista Presbyterian church, has tendered his resignation as pastor. The session of the church will meet March 25th to consider the resignation.

KILLED A SHE-BEAR.

Henry Bentley, of Newbrook, while out hunting with his hands in the Blue Ridge mountains, was attracted by the barking of his dogs around a cliff near a big stump.

Thinking that a wild cat or fox was treed, the hunter fired for development. Nothing came out of the stump,

GOOD ROADS AGAIN.

THE CONVENTION IN DANVILLE WAS WELL ATTENDED YESTERDAY.

GOVERNOR MONTAGUE'S SPEECH.

It Was Cordially Received and Full of Practical Suggestions—He Favors the Appointment of a Road Commissioner and Thinks the Legislature Ought to Lend a Helping Hand—Other Addresses.

DANVILLE, VA., March 13.—(Special.)—The Good-Roads Convention met here this morning under the most favorable auspices.

Contrary to expectations and the predictions of the Weather Bureau, the day was clear and springlike.

When Mr. James G. Penn, chairman of the Executive Committee, rapped the convention to order a few minutes before 11 o'clock in Municipal Hall, there were at least 1,000 people in attendance, including those in every walk of life.

Prayer was offered by Dr. T. B. Thames, pastor of the First Baptist church, after which came the address of welcome delivered by Mayor Wooding.

ADDRESS BY GOVERNOR. The chief interest in this session of the convention centered in the address by Governor A. J. Montague. On being introduced by Mr. Penn, the speaker was greeted by such an outburst of applause that it was fully a minute before he could proceed.

He began by expressing the pleasure it gave him to be once again among his friends in Danville, and to lend his humble encouragement to an enterprise that was superior to all others.

Governor Montague then referred to a speech he delivered at William and Mary College thirteen years ago on the question of good roads, and said that his study of the subject at that time had led him to recognize that our public highways are a trail of mud in winter and of dust in summer.

He reminded his hearers that it cost as much to have bad roads as good roads, and that this being so, they may not make an effort to have them good.

PROSPERITY COMES WITH THEM.

Governor Montague pointed to the greatness of Rome, and attributed the success of that city to the good roads that led into it.

Continuing, the speaker called attention to the macadam road from Staunton to Winchester, and said that it had much to do with the prosperous condition of that section of the State through which it passed.

"You cannot build good roads with money no more than you can build a good house unless you have an experienced mechanic," was his next sentence.

Governor Montague said that Virginia needs a road commissioner to look after her roads, and she will never have good roads until she has such an officer though he assured the audience that he did not advocate this want because he desired to avoid such an office.

This commissioner to be an expert in road-making, and would require that his position be kept free from politics.

The Governor said that he did not care to criticize the General Assembly of Virginia, but it was a fact that they had had much time spent in enacting minor measures and not enough given to great issues like that of good roads and a good dog law.

"There is not a State in the Union," said the speaker, "that has issued bonds to improve its highways that has had to increase taxes. The increased revenues resulting from the improvement of the highways have always met all obligations."

The Governor closed his splendid address with an appeal to the people to take more interest in securing good roads. He said he could build good roads out of Danville and other mountain cities, and he also could build good roads to the surrounding towns, and take from Danville the trade that properly belonged to her.

HOPES FOR GOVERNMENT AID.

He expressed the belief that the national government would soon be giving aid to the movement, but it is not wise to wait. North Carolina was referred to as the most progressive State in the South.

With good roads and mountain cities, said the speaker, "these counties would be filled in summer with wealthy people, seeking health and pleasure. I would suggest to you," he added, "that you request your legislators to give you the means and necessary to build the roads, and if they fail to comply with your request, turn them out and elect men who will. As Governor, I promise to do all in my power to further the cause."

The address was a splendid one, and was delivered in the Governor's usual impressive style.

It is needless to say that his remarks were frequently punctuated with applause. Governor Montague left on the afternoon train for Richmond.

The presentation was made in the lodge room by Mr. A. E. Boward, and was quite a surprise to the Doctor, who feelingly responded.

Mr. Reginald Walker, of Richmond, addressed the Epworth League of the Methodist church last night. His subject was "Missions." Besides members of the league many others were present.

Miss Cora Lee Smith and Mr. E. Stone, both of this city, were married at the home of the officiating minister, Rev. George T. Tyler.

Test for Yourself the Wonderful Curative Properties of Swamp-Root

To Prove What Swamp-Root, the World-Famous Kidney and Bladder Remedy, Will do for YOU, Every Reader of the Richmond Daily Dispatch

May Have a Sample Bottle Free

Dr. Kilmer & Co., Binghamton, N. Y.

Gentlemen,—In justice to you I feel it my duty to send you an acknowledgment of the receipt of the sample bottle of Swamp-Root you so kindly sent me. I had been out of health for the past five years with kidney and bladder trouble. Had our best physicians prescribe for me. They would relieve me for the time being, but the old complaint would in a short time return again. I sent for a sample bottle of Swamp-Root, and I found it did me a world of good. Since then I have taken eight small bottles bought at my drugstore, and I consider myself perfectly cured. It seemed as though my back would break in two after stooping. I do not have the smarting and irritation, nor do I have to get up during the night to urinate, as I formerly did three or four times a night, but now sleep the sleep of peace. My back is all right again, and in every way I am a new man. Two of my brother officers are still using Swamp-Root. They, like myself, cannot say too much in praise of it. It is a boon to mankind. We recommend it to all who are suffering from kidney and bladder diseases.

My brother officers (whose signatures accompany this letter), as well as myself, thank you for the blessing you have brought to the human race in the compounding of Swamp-Root.

We remain, yours very truly,

Officers of the 58th Police Precinct, Greater New York.

If you are sick or "feel badly," begin taking the famous new discovery, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince any one.

Weak and unhealthy kidneys are responsible for many kinds of diseases, and if permitted to continue, much suffering, with fatal results, are sure to follow. Kidney trouble irritates the nerves, makes you dizzy, restless, sleepless, and irritable. Makes you pass water often during the day and obliges you to get up many times during the night. Unhealthy kidneys cause rheumatism, gravel, catarrh of the bladder, pain or dull ache in the back, joints and muscles; makes your head ache and back ache, causes indigestion, stomach and liver trouble; you get a sallow, yellow complexion, makes you feel as though you had heart trouble; you may have plenty of ambition, but no strength; get weak and waste away.

Swamp-Root is pleasant to take and is used in the leading hospitals, recommended by physicians in their private practice, and is taken by doctors themselves, because they recognize in it the greatest and most successful remedy that science has ever been able to compound.

If you are already convinced that Swamp-Root is what you need, you can purchase the regular fifty-cent and one-dollar size bottles at the drugstores everywhere. Don't make any mistake, but remember the name, Swamp-Root—Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

IMPORTANT NOTICE: Swamp-Root, the great Kidney, Liver and Bladder remedy, is so remarkably successful that a special arrangement has been made by which all of our readers who have not already tried it may have a sample bottle sent absolutely free by mail. Also a book telling all about kidney and bladder troubles, and containing many of the thousands upon thousands of testimonial letters received from men and women cured by Swamp-Root. In writing be sure and mention reading this generous offer in the Richmond Daily Dispatch when sending your address to Dr. Kilmer & Co., Binghamton, N. Y.

WITHDRAWAL OF ELECTRIC CURRENT

IMPORTANT NOTICE FROM Richmond Passenger and Power Company.

THE ATTENTION OF THE PUBLIC is respectfully called to the following report of the Superintendent of the Light Department of this company in reference to the WITHDRAWAL OF ITS ELECTRIC CURRENT FROM BUILDINGS IN WHICH VERY MUCH HIGHER VOLTAGE THAN THAT FURNISHED BY THIS COMPANY IS USED FOR LIGHTING PURPOSES.

Major James D. Patton, President Richmond Passenger and Power Company, has resolved, upon the basis of the report of the Superintendent of the Light Department, that the question of the advisability of this company's continuing to furnish electric current to buildings, in which high voltage electric current for light purposes is being used, is being considered.

My reasons for suggesting this action are well known to you, and you will recall that for more than a year past I have repeatedly called your attention to the danger, both to persons and as a fire risk, of high-voltage electric currents for lighting purposes within buildings.

I am aware that the suggested withdrawal will subject this company to considerable loss of revenue, and will entail the severance of business relations from some who for many years have been our patrons; but the time has now arrived, in my opinion, for this company to decline to risk its record for safe electrical distribution by continuing to furnish service to buildings subject, as I believe, to a very great fire risk.

Very respectfully, W. W. TRAFFORD, Superintendent of Light Department. And also to the resolution adopted by its Board of Directors:

Resolved, That the Superintendent of the Light Department be instructed to cancel all contracts with customers using high-voltage current for lighting purposes within the buildings, but such contracts should be cancelled so as to cause the least inconvenience to customers.
