

ORPHANS IN AFRICA

RICHMOND LADY WILL FOUND A HOME IN THE WILDS.

IN THE CONGO FREE STATE.

Mrs. T. A. Cary's Unique Memorial to a Little Daughter—Bishop Gibson Issues an Address—Presbyterian Quarterly—Notes of the Churches.

As a memorial to a little daughter, Mrs. T. A. Cary, of this city, will found an orphan's home in the wilds of Africa, for blacks, where parents are dead or unable to care for them.

A copy of the Kassa Herald, the output of the American Presbyterian Congo Mission Press at Lubo, has just been received at the office of the Central Presbyterian here.

The subscription price of the paper is \$1, but 50 cents in clubs of five or more. Mrs. M. A. Morrison, of Lexington, Va., has been established as the agent here.

The Bishop of Virginia, has issued an address to the clergy and laity of the diocese, setting forth the need for more contributions to missions and for the spread of the missionary spirit.

Concerning the appointment of the Diocese of Virginia to the missions, Bishop Gibson has some interesting remarks to make. He says in part:

"The Board of Managers made a great mistake in excluding the gifts of the Woman's Auxiliary and the children's fund, and the amounts to be credited on the apportionment to each diocese. It may be said the apportionment would have been greater by the amount of these gifts, and that in current phrase, 'now as broad as it is long.' There is a grave error here, which anyone familiar with the working of practical affairs cannot fail to see.

The Presbyterian Quarterly, a magazine highly prized in the denomination, has lately reverted to the hands of its former publisher, Dr. Sumner, of Clarksville, resumes the position of managing editor, with Drs. Strickler, of this city; Reed and Beattie as associate editors; Whitte and Shepperson, of Richmond, become again its publishers.

The Quarterly will be devoted, as in former years, to the discussion, in somewhat more elaborate form than is practicable in the weekly papers, of the great problems of religion and of the life.

BISHOP TALBOT REPLIES. In the current issue of the Southern Churchman Bishop Talbot, in an open letter to the presiding bishop, answering various charges brought against him by Dr. I. N. W. Irvine, a presbyter of his diocese.

Turning Gray?

Why not have the early, dark, rich color restored? It's easily done with Ayer's Hair Vigor. Nearly everybody uses it. Ask your own friends. Probably they know how it always restores color, checks falling, and keeps the hair rich and glossy.

"I have used Ayer's Hair Vigor and have found it a great remedy. It checked the falling of my hair when all other remedies had failed."—Mrs. G. A. Morrison, Millinocket, Me.

CRUTCH-BOUND

The crutch is a poor substitute for legs, and affords a very inconvenient and tiresome mode of locomotion—there is no more pathetic sight than a person slowly and painfully moving along the street supported by these artificial limbs.

When Rheumatism settles in the bones and muscles of the legs, it is safe to predict that the victim will eventually become helpless and crutch-bound. The corrosive, most intense pain, the knees and ankles swell, and when the natural oils and fluids that lubricate these parts are completely destroyed the joints become locked and the muscles drawn and stiff, and crutches a necessity.

The acid poisons that produce rheumatic pains form in the blood, and are distributed through the system, and lodged in the arms, shoulders, hands, back and feet, or other parts of the body—resulting often in total disability.

JAPAN CLAIMS MARCOS ISLAND.

Formal Notice to Such Effect Served on State Department.

WASHINGTON, D. C., July 24.—The Japanese Government has served formal notice on the State Department that it claims possession of Marcos Island, toward which is now heading an American expedition under Captain Roselli, with a purpose to seize the guano deposits. Regarding it as extremely desirable that no collision occur, the State Department, has taken measures to advise Captain Roselli that he must offer no resistance to the soldiers of the Japanese warship, which also is speeding for the island.

Roselli landed on the island about thirteen years ago. He put up a sign and deposited a bottle setting forth his claims to the island, erected a flag pole, and hoisted the American flag. Then he sailed away from the island, leaving it unoccupied, a fact which may vitiate his title. Of these facts he informed the State Department in a letter some two or three years ago in the Treasury the bond required by the guano island laws. In fact, this bond was only filed within the last year. Meanwhile, finding a deserted island some Japanese landed, and began to take away the guano. There are believed to be two scores of them now on the island, and the Japanese government holds that their title is good.

The imported labor will come largely from Italy and the central part of Europe.

THEY WILL NOT OPPOSE FRANCHISE AMENDMENT.

Indications Are That if the Republicans Do Not Declare for It, They Will Not Oppose.

RALEIGH, N. C., July 24.—(Special.)—Ex-State Democratic chairman James H. Fore, thinks the Republican State Committee will declare in its platform that it does not and will not antagonize the franchise amendment to the Constitution. His opinion is that Chairman Simmons's open letter has brought almost this result.

DROUGHT IN RALEIGH SECTION

RALEIGH, N. C., July 24.—(Special.)—The drought is now doing damage of a serious kind in the Raleigh section. It is suffering and will be cut short. Cotton has dried. It is noticeable that both cotton and corn are standing the drought and heat better on sandy soils than on clay soils.

THE STATUS OF JURORS.

Effect of the New Constitution is to Make Them Incompetent. On July 14th, the first day of the current term of the Louisa County Court, the grand jury indicted J. Wesley Hicks for the murder of his son-in-law, Melton Bourne, and the trial was set for yesterday. When the case was called the following plea in abatement was offered and allowed by J. Wesley Hicks: The said defendant, in his own proper person, comes and says that the grand jury, composed of E. B. Terrell, Frederick Kean, Thomas McGee, T. C. Chiving, W. W. Farrar, and George Timberlake, who found the indictment, were not qualified grand jurors under the Constitution and laws of the State of Virginia, in that, that none of them are registered voters under the Constitution of Virginia, and especially as to W. Mr. Minor says: "Two patients ought to be kept at the home for the city's \$500." The Virginia Home for Incubables has cared for fifteen of Richmond's sick poor for the city \$500.

Mr. Satterfield says: "They get the city's \$500 and I think the city ought to get something in return." It is not a gratuity in this city that cares for fifteen of Richmond's sick poor for the small sum of \$500?

The article published in the News of Tuesday has put our institution before the public in a false light, and is calculated to injure it, but I am sure after the above facts are published it will make friends for the home instead of enemies.
