

SEVEN WERE INJURED

LOCOMOTIVE AND STREET-CAR COLLIDE NEAR NORFOLK.

NO ONE WAS FATALLY HURT.

But Many Were Considerably Bruised—Motorman Stuck at His Post—The Congressional Fight—Motion to Disbar Attorney P. J. Morris in Another Court.

NORFOLK, VA., August 4.—(Special.)—A collision between a Seaboard Air-Line locomotive and a crowded suburban street car on the Norfolk, Portsmouth and Newport News railway's Port Norfolk division this afternoon, seven people were injured.

The accident occurred on a crossing and narrowly escaped being fatal to many. Motorman Mitchell bravely stuck to his post and tried to stop the car. He received serious injuries about the face and head. Two of the six passengers hurt were seriously injured. Engineer Deans, who was seriously injured, was taken to the hospital. The locomotive was hurt. A terrific thunder and rain-storm swept the section this evening, prostrating the wires and cutting the city off from long-distance telephone connection. Lightning struck in several places, but no loss of life is reported.

DEBATE DIDN'T MATERIALIZE.

What was expected to be one of the most interesting joint debates of the congressional campaign failed to materialize at Prince Anne Courthouse today. Congressman Maynard, whose sole campaign arguments are the facts affecting his record, and Candidates Joseph T. Lawrence and Dr. J. F. Bryant, who have attacked his record, met there. The contest was changed to a joint debate, which is open in a thirty-minute speech, each of his opponents to have an hour, and he to close in fifteen minutes. This he declined, claiming half an hour in which to reply, and was refused. Congressman Maynard said tonight that he considered fifteen minutes was too little time in which to reply to a two-hour attack upon his record by two men. He thinks that the demand of his opponents caused him to win voters among the 300 people who heard his oratory.

STAGE HANDS SATISFIED.

The long-standing disagreement between the Academy of Music and the union stage hands was settled yesterday, when Stage Carpenter Fantone was admitted to the union. He was the bone of contention between Lessee, Leath, of Richmond, and the union.

Norfolk coal dealers today raised the price of coal to \$5 per ton. The remains of Mr. W. Sewell Smith, son of the late Elder Smith, a prominent banker, who died yesterday at Wythe, were buried here today after a religious mass at the Sacred Heart church, which he died while serving in the Spanish-American war. He was very popular.

On motion of Attorneys W. W. Old and Robert M. Hughes, a rule was today issued by Judge Martin, presiding for Judge Hancock, citing Attorney P. J. Morris to appear in the Corporation Court Monday, August 11th, and show cause why he should not be removed from the court should not be revoked.

From this action, it would appear that there was good foundation for the claim of Attorney Morris that disbarment proceedings similar to those brought against him in the Court of Law and Chancery, where his license was revoked, would have to be brought against him in every court in the State, where he is a practitioner before his license to practice in the same could be annulled. Attorney Morris is now on the third floor of the Citizens' Bank building.

FIRE COMMISSIONERS ORDER STREET FIRE ALARMS

Several Changes in the Department. Fireman Must Live Near Engine Houses.

The Board of Fire Commissioners met at 8 o'clock last night. All the members were present. The Board appointed a committee to draft an ordinance requiring street-cars to stop on the near side of street corners to be designated as "standstill" corners.

President Frischkorn and Commissioner Lecky were appointed to confer with the Finance Committee of the Council relative to the purchase of two new trucks to replace Nos. 2 and 3 now had numbers 1 and 2 has been in use for thirty-two years. Superintendent Thompson, of the Fire Alarm Service, will arrange a regular street fire alarm station at headquarters, and instruct the officials in the new code with which the stations are provided.

T. W. Bowry, call hosenman of Steamer No. 3, resigned, as his work at the Trigg shipyards prevents him from hearing the alarm. His resignation was tabled, as he has recently been laid off on the shipyard, and the Board will not act on his resignation until he has secured another job. Bowry is an efficient hosenman, and has been in the service a long time.

The Board passed a resolution requiring all call hosenmen to live within six blocks of their respective engine houses. The resolution goes into effect January 1, 1903.

J. J. Walsh resigned as station hosenman. His resignation was tabled, as he was called by the promotion of Call Hosenman Peter White. E. E. Fagan was promoted from substitute to call hosenman in White's stead, and F. D. Gann was transferred to first substitute in Steamer No. 7.

Effective August 16th, J. C. Wilson was appointed first substitute, and S. B. Hardin second substitute, in Truck No. 1. The Board decided to place a new fire alarm in Lee District, and Superintendent Thompson, Commissioner Lecky, and Captain Jenkins were appointed to select a location.

Chief Puller's report showed twenty-two alarms in July, eleven regular and eleven special. After attending to other routine business the board adjourned.

STAD OLD CHARLOTTE SHOCKED ON SUNDAY.

Good North Carolina Object to a Merry-Go-Round on the Sabbath. Manager Apologizes.

CHARLOTTE, N. C., August 4.—(Special.)—This state has received a shock on account of the running of a merry-go-round at Latta Park Sunday. The matter has been vigorously taken up, with the result that the Board of Aldermen met to-night to discuss an ordinance to prohibit the further running of merry-go-rounds on Sunday.

Warrants have been issued for the officers, and they will be tried to-morrow. The Board of Aldermen has decided that this is not all, for the manager of the merry-go-round has come out in a printed statement in his share of the violation of the Sabbath yesterday. One of the printers of the paper is a member of the board.

After dinner to assist digestion, relieve distress after eating greasy and heartily, to prevent constipation, take Hood's Pills.

THE BASE-BALL FIELD.

Results of the Games in National and American Leagues.

ST. LOUIS, 8; BALTIMORE, 2.—(American.) St. Louis took another game from Baltimore to-day without being pushed. The visitors worked in the field and were decidedly off color. Score: St. Louis, 8; Baltimore, 2. Attendance, 1,300. Umpire: Messinger. Carruthers and Johnstone.

CHICAGO, 7; PHILADELPHIA, 8.—Chicago and Philadelphia fought a loosely played eleven-inning contest. In which errors and wild pitches were the order of the day. Score: Chicago, 7; Philadelphia, 8. Attendance, 1,250. Umpire: Mr. Sheridan.

ST. LOUIS, 1; BOSTON, 0.—(National.) St. Louis beat Boston in a seven-inning game, scoring a solitary run in the fifth inning. Catcher and pitcher both hit at his mercy. Rain stopped the game at the end of the seventh inning. Score: St. Louis, 1; Boston, 0. Attendance, 1,250. Umpire: Mr. Brown.

BOSTON, 6; DETROIT, 1.—(National.) Detroit was in fine form and pitched splendidly. Detroit was in fine form and pitched splendidly. Detroit was in fine form and pitched splendidly.

CLEVELAND, 1; WASHINGTON, 0.—(American.) Young was in fine form and pitched splendidly. Cleveland was in fine form and pitched splendidly.

PITTSBURG, 9; NEW YORK, 7.—(National.) The local players lost another game to the Pittsburgh champions here to-day by a score of 9 to 7. Costly misplays were the cause of the defeat.

BROOKLYN, 3; CINCINNATI, 1.—(National.) Brooklyn defeated Cincinnati by 3 to 1 to-day. The pitching honors were about evenly divided.

CHICAGO, 1; PHILADELPHIA, 2.—(National.) White weakened in the seventh inning, and Chicago made seven hits to Philadelphia's six. Up to that time the game had been a pitchers' battle.

NEGRO MAN HELD UP AND ROBBED WOMAN.

Volunteered to Carry Melon Home and Drew Knife and Demanded Money.

Two negroes, a watermelon, and a knife were the cause of trouble at the corner of Fifteenth and Cary streets last night which resulted in the arrest of one of the negroes on the charge of highway robbery. Alice Scott, hearing the cries of a melon-vendor on Franklin street, went to examine his stock, and after some bargaining purchased the largest in the lot, in fact so large was it that she found it hard to handle. The dealer noticing this suggested that a young negro man standing near should help her. He received the tip hastened to her assistance and together they proceeded on their way rejoicing.

As they neared the corner of Fifteenth and Cary, which place is rather dark, the man suddenly drew out a great knife and drawing a knife demanded her money. The woman cried for help at the same time giving up a silver dollar. An officer opportunely arrived on the scene and the man was arrested, who gave his name as Max Douglas. He told a different tale, but the melon dealer bears out the woman in her statement and the man was held for a hearing in the morning when he will probably be sent to the penitentiary. He is a young buck of the balmy type and looks as though he might be capable of worse things.

OTHER ARRISTS. Phillip Roberts is held at the Third Police Station on the charge of breaking into the store of Herman Schwartz, 305 east Byrd street, and stealing \$20 in money and a lot of tobacco and cigars. The arrest was made by Detectives Gibson and Wren.

Frick Racks, a notoriously bad character, well known to the police, was arrested yesterday on a warrant by Officer L. J. Long charged with robbing a woman and hitting James Carter with a blunt instrument.

Benjamin Ross, a supposed deserter from the United States army was arrested in this city yesterday by Officer P. L. Neitz.

Frank Finnegan was arrested yesterday morning by Officer J. B. Lanning. District on a charge of breaking into a store and striking R. E. Hughes Saturday afternoon. Mr. Finnegan is a clerk in a store on West Cary street, and Mr. Hughes is clerk of the Third Market.

C. M. Wood, a white man, was arrested yesterday on the charge of cutting John Elam. He was afterwards bailed by the consent of the Police Justice. The arrest was made by Officers Sale and King.

THE TRIGG BONDS.

The issue is nearly subscribed for. The confidence of local as well as outside capitalists in Richmond enterprise is illustrated in the experience of the Trigg bonds.

The managers of this great enterprise recently decided, for the purpose of developing it further, to ask subscriptions for bonds to a large amount.

One of those most prominently interested said to-day that the present indications are that the issue will be fully subscribed within the next two or three days.

This assures the continuing growth and prosperity of the yards, as it will give abundant capital for operation and development.

Mr. L. T. Myers, vice-president of the company, said yesterday that the introduction of modern labor-saving appliances at the ship-yards had necessitated the laying off of employees, that it was not due to any scarcity of coal. There are still 1,700 men employed at the yards.

Mr. Myers could not say that the men would be put to work again in the near future, and that the company is contemplating large contracts, but as they have not yet been awarded, it is likely that many of the employees will seek employment at other ship-yards.

WILL GO TO SHANGHAI.

Rev. Dr. James to have Charge of American Church. PHILADELPHIA, PA., August 4.—(Special.)—The Rev. Dr. Fleming James, assistant rector at St. Andrew's, Protestant Episcopal church, has been assigned to the parish during the past year, has resigned to accept the rectorship of the American church in Shanghai.

RAILWAY MAGNATES DINED BY FARMERS.

Unique Conference in Which It is Decided to Reduce Freight Rates Rates on Grain. SPOKANE, WASH., August 4.—Grain rates will be reduced from all points in Eastern Washington, and the reduction will take place in time to benefit the farmers on this year's crop. The amount of reduction on the Northern Pacific will be from 1 to 2 cents per bushel.

The announcement was made by President Mellen of the Northern Pacific at Davenport. The occasion was unique in the history of American railroading. Three railroad presidents in response to a plea of Big Bend country, had assembled at the county seat of Lincoln county to hear the farmers' case and to show the farmers' own interests. They were James J. Hill, president of the Great Northern, President S. Mellen of the Northern Pacific, and President A. L. Mohler of the Oregon and Navigation lines of the Harriman system.

ADMIRAL TAYLOR DENIES.

He Only Advocated Strong Defence of the Coast. CHICAGO, ILL., August 4.—Rear-Admiral Taylor denies the story to effect that he has been ordered to Germany and to go to war in 1907. When asked if he had set a date for a conflict between the United States and Germany, he said: "Such assertions as have been credited to me are without foundation, other than I have said in my own country. I am not well protected against attack by any European Power. All naval officers are of this opinion. It would be the duty of me to predict a war with my nation. Our navy should be strengthened, in readiness for any possible war."

mit to construct arcs in their new building. Resolutions providing for paving of alleys and allegation for sidewalk paving were adopted.

Several sewer resolutions from the Finance Committee were sent to the Finance Committee. The Finance Committee reported, recommending the Broad-Street Bank as a city depository, and also recommending the establishment of a Fulton dispensary.

Mr. Pollard's Raise. The recommendation of the same committee raising City Attorney Pollard's salary to \$2,800 and with expenses when called out of the city, was read.

There was some discussion as to whether the resolution could be passed without being referred to the Committee on Charter and Reform, into which the Retrenchment Committee was merged. Mr. Bloomberg held that it would have to be referred to that committee, and the matter appeared to be disposed of for this meeting.

Eight Gallego Mills Verdict. A resolution was adopted authorizing the City Attorney to fight by writ of error the damage suit of the Gallego Mills and another suit which was decided against the city.

The semi-annual report of City Accountant Carlton McCarthy attested that all the accounts were found correct in the following departments: Fire, water, police, school, light, almshouse, stationary, printing, delinquent taxes, cemeteries, weighmasters, and clerks of markets.

The Light Committee asked for \$1,800 to meet deficiency in light bills and provide twenty more lights for the city.

Good Price for Tar. A lively fight was precipitated over the recommendation by the Light Committee that the contract for the sale of the city tar to C. A. Bradley be extended from the two years period to five years. The Bradley bid was \$1.37-1/2 a barrel for two years, and \$1.50 for five years.

Mr. Winston, chairman of the Light Committee, offered the following record of the prices secured for tar in the past: 1897 to 1897.....1.30 1897 to 1897.....1.30

Moreover, Mr. Winston proposed several years ago to pay the average price per barrel of tar, the committee found that the average price was \$2.15, and even then the 15 cents was knocked off.

There was plenty of a combination among the tar buyers, and fears that the city would not get a good price in future if care was not taken in soliciting bids.

The resolution for the extension of the contract with Mr. Bradley was rejected. Mr. Bradley getting the tar for two years at \$1.37-1/2 per barrel.

Ask Another Hearing. A communication was received from the Union Lighting Company protesting against the action of the sub-committee on light deciding to buy 200 Newby lights for the lamps.

The Light Committee asked that the whole matter be referred to the full committee. Mr. Winston claimed that bids were asked for renting of lights and that the bidders did not get a fair show, and had no opportunity to bid for selling them outright.

The Council, after considering argument, recommended the matter to the full committee and bids will be called for.

The Light Committee recommended increase of the salary of the clerks of accounts of the department from \$85 to \$100 a month. Referred to Finance Committee.

Mr. Pollard's Raise Again. President Bloomberg had in the meanwhile looked up the question of referring the recommendation for the raise in the City Attorney's salary to the committee into which the Retrenchment and Reform Committee was merged.

Mr. Winston declared that Mr. Pollard's time was more valuable than that. He gave nearly all of his time to the city anyhow.

Councilman Pollock fought the raise, saying that he would not be doing his duty to let it be made without a protest. It was a big blunder of the Finance Committee to recommend such an increase. Mr. Pollock said that he would not be doing his duty to let it be made without a protest.

CUT PRICES. To close out surplus stock of Summer Goods we will offer special inducements on the following goods: ICE-CREAM FREEZERS, POULTRY NETTING, SCREEN DOORS AND WINDOWS, GARDEN HOSE.

Summer Entertaining. And now a word about entertainments. In summer, by all means welcome your friends to out-of-door festivities. A luncheon on a piazza is a fairly repeat course to its hostess.

Matinees. The Empire and Princess are favorite styles after which to fashion matinees and pelignois—the loose-flowing draperies and pelignois—especially well to the requirements of the figure. Some exceptionally pretty models are of Japanese silk, accordion-plaited to the sleeves, which are big, loose affairs, in many cases being simply a pair of trousers, given a bit of insertion, or ribbon beading, or by a row of fagot-stitching.

Cheese Straws. Mix two tablespoonfuls of flour, two of breadcrumbs and four of grated cheese. Put them into the middle of a dinner-plate; make a hole in the centre, and into it put the yolk of one egg, two tablespoonfuls of cold water, a dash of red pepper, and a saltspoonful of salt. Work the flour, cheese and crumbs carefully into the egg and water. The dough must be hard and quite dry. Knead until elastic. Roll out into a very thin sheet; square the sheet, and then cut into pieces the width of a straw and five inches long. Place on paper in the bottom of a baking-dish and bake until a golden brown in a moderate oven. Tie into little bunches, or make and bake a few rings. Serve the straws in the rings like a bundle of fagots. Pass them around with the salad.

Frocks for a Little Girl. White albatross trimmed with baby satin ribbon makes a dainty frock for a girl of two to ten years. This material comes from forty-eight cents a yard up and the ribbon from fifteen to twenty-five cents for a piece of ten yards. With such a dress sash of five-inch ribbon is pretty. Two yards and a half of ribbon makes a full sash, and a soft satin ribbon for this purpose may be had from thirty-five cents a yard up, there being several qualities.

Three Pillars of the Temple. Take with thee on thy work-full way To let a yea and nae thee do thy duty; In building of thy life each day Thou'lt need them: Wisdom, Strength and Beauty.

Take Wisdom that thou mayst contrive With prudence to design thy pleasure. That on each morning thou mayst give To all thy powers each meted measure.

Take Strength that thou mayst execute Thy plans thy wisdom hath selected; And Beauty to adorn and suit Each stone to all the rest connected.

Thus shalt thou rear a temple fair Of all thy days which have been counted; Then crown the whole with reverence prayer— Thy faults deplored, thy sins repented,— D. G. BICKERS.

The Trust Principle. It is easier to rob a million men of a dollar each, than to rob one man of a million.

If you see a couple walking along the street and the man goes on while the woman passes a shop window, it is a sign that she is a married woman.
