Special Train to Save Wife.

Husband Breaks Records to Get Her Away from Colorado Springs.

DENVER, CO., October 22.—Warned by her physician that his wife could live but a few hours unless taken to a lower altitude, William Erhart, a wealthy New Yorker, on Monday night chartered a special train over the Santa Fe road and started for Kansas City with his wife and her medical attendant from Colorado Springs.

The Santa Fe broke its record in getting the train ready and in running to Newton, Kan. The train started an hour after Mr. Erhart telephoned for it and made the run to Newton, 570 miles, for which the limited requires 17 hours, in 11 hours and 40 minutes. At Newton Mr. Erhart left the special and started for Galveston, Tex., his wife showing much improvement.

The woman's building was constantly thronged. Indeed, it was a great success. The exhibit was large and complete, and elicited warm praise from both masculine and feminine visitors.

Many nice premiums were given, and the ladies in charge, as well as the mercantile firms that so generously donated the premiums, deserve congratulations.

Effort to Organize a Lutheran Church—Slump Tends Confidence.

BRISTOL, VA., October 22.—(Special.)—Will Hopkins, a young man who was formerly employed at the Bristol iron furnace, was arrested here this week on a charge of theft and forgery. Hopkins, it is claimed, left Bristol a few months ago for the reason that he had stolen a number of checks from the office of the Bristol iron furnace, and after having forged signatures to them, passed them at a school in the city. He returned here only a few days ago to find that the officers had not forgotten that he was wanted. Hopkins is about 22 years of age. Hopkins waived his right to a preliminary hearing, and, being unable to give bond, was remanded to jail.

Rev. A. Philipp, of the Lutheran church, will preach in Bristol on next Sunday at which time an effort to organize a Lutheran church here will be made. There are more than a hundred Lutherans in Bristol, and they are very anxious that the plan to establish a church of that denomination here shall succeed.

Carlos Williams, the young son of Dr. and Mrs. J. T. Williams, who enlisted in the United States navy six months ago, was this week transferred from the Lancaster to the Indiana, and will go with that vessel to the West Indies at once, to be away from the American coast for twelve months. A number of Bristol boys enlisted at the time Williams did, but it is said that most of them have deserted.

MATRIMONIAL. Rev. B. Cabell Hening, pastor of the First Baptist church, who was called upon Monday to unite in marriage a young couple who had eloped from Wise county, seeking the bride in this city. The contracting parties were C. E. Horn, aged 20, and Miss Minnie Greer, aged 18.

At the same time, Rev. Alfred H. Burroughs, the greatest matrimonial parson, united in marriage Alfred T. Petermann, a young farmer, and Miss Laura A. Mann, both of Scott county, Va.

Mrs. R. N. Addison, whose first husband, for reasons unexplained, ended his own life some six years ago, was married this week to Mr. R. P. King, a traveling man, and the couple are residing at the boarding house of the bride in this city. Rev. G. W. Summers was the officiating minister.

Colonel Campbell Slemm, the Republican candidate for Congress, in the Ninth Virginia District, spent Sunday at Hotel Hamilton, in this city, and met a number of his political friends and advisors. To newspaper friends who inquired, he expressed himself as confident of winning the Bristol vote. The Democrats will hardly take the Colonel's confidence in serious mood, as they feel that the new registration is in the main favorable to the re-election of the Congressman. The district is normally close. There will be a heavy falling off in the vote as compared with former years, and fortunes will be cut down in all counties, but there are few surface indications favorable to the candidacy of Colonel Slemm, while it must be admitted that the loss of the colored vote is against him.

Husband Breaks Records to Get Her Away from Colorado Springs.

DENVER, CO., October 22.—Warned by her physician that his wife could live but a few hours unless taken to a lower altitude, William Erhart, a wealthy New Yorker, on Monday night chartered a special train over the Santa Fe road and started for Kansas City with his wife and her medical attendant from Colorado Springs.

THE TEXTILE WORKERS' IN SESSION.

The Convention Decided Against the Application of the Silk Workers for Separate Charter.

WASHINGTON, D. C., October 22.—The United Textile Workers of America met today's sessions discuss the recommendations made by the officers of the organization. There was a long discussion over the proposition of the silk workers to apply to the American Federation of Labor for a separate charter, and the convention decided against the application. The position taken by the delegates was that the United Order has complete jurisdiction over workers in all textile industries, silk as well as every other.

PEARY'S OPERATION WAS EXAGGERATED.

Amputation Confined to Two Toes and He Will Return to Duty in Three Weeks.

WASHINGTON, D. C., October 22.—A letter received by Admiral Endicott, Chief of the Bureau of Yards and Docks, from Commander Peary, makes it appear that the operation undergone by the explorer at Philadelphia was not as severe as was at first supposed. The amputations were confined to two of the frost-bitten toes, and the officer is coming along so well that he expects to be able to return to duty in the course of three weeks.

A SECRET TREATY BELIEVED TO EXIST.

Between Germany and Great Britain to Divide the Portuguese Possessions in South Africa.

LONDON, October 22.—The general belief that a secret treaty in existence between Germany and Great Britain relative to the prospective division of the Portuguese possessions in South Africa received further confirmation in the House of Commons today, owing to the evasive replies of the Under Foreign Secretary, Cranborne, to questions on the subject. The Secretary parried all queries, saying that if such a treaty existed, he, in the nature of things, was precluded from giving its terms.

ILL-TREATMENT OF PORTO RICAN LABORERS.

Governor Dole Investigating the Alleged Abuses—A Move to Develop French Settlements.

HONOLULU, October 15.—(Via San Francisco, October 22.)—Acting upon a request from the authorities at Washington, Governor Dole is investigating the alleged abuses of Porto Rican laborers at Paaulo plantation, Hawaii. Complaints of ill-treatment at various places about the island have been frequent.

The French Consul at Honolulu has received advices to the effect that the Messageries Maritimes line of steamers, plying between Marseilles, France, and Sydney, N. S. W., will probably extend its route from Sydney to New Caledonia, Tahiti, Honolulu, and San Francisco. This move will be practically to develop the French settlements of New Caledonia and Tahiti.

The commission is composed of Senators LeCato and Bryant, Delegates Harman, W. W. Baker and Newhouse, and Messrs. Joseph Bryan, W. D. Chesterman, and M. E. Marcuse.

THE HITCH IN THE NAVY DEPARTMENT.

Secretary Moody May Decide the Question Upon Which the Constructors Cannot Agree.

WASHINGTON, D. C., October 22.—Secretary Moody may decide the question about the building of cruisers, which has become necessary by a disagreement of the constructors of the department. Some interesting facts in connection with the provision of the last naval appropriation bill have developed since the action of the board in deciding in favor of heavy armor and armament for the cruisers instead of high steam power and speed.

It is claimed that the provision was so carefully worded that it allowed the Navy Department to build four battleships instead of two battleships and two cruisers. The two battleships are to have 16,000 tons displacement and are to cost \$4,200,000. The cruisers are to have 14,500 tons displacement and to cost \$4,600,000, or \$47,000 more than the battleships.

The reason given for the greater cost for the cruisers is that they were to have a higher speed, with larger engines and equipment for supplying power. By reducing the steam power and reducing the armament, the intention of those who wanted four battleships is accomplished. There is no limit as to speed for the cruisers or the battleships, nor as to the armament, except that both battleships and cruisers shall carry the "heaviest armor and most powerful armament for vessels of their class."

DEATH PERPETUATES THE MYSTERY.

Mrs. Ada Gilbert Dennis Carries Her Secret With Her to the Grave—May Never Be Solved.

WASHINGTON, D. C., Oct. 22.—After hovering between life and death since last December, Mrs. Ada Gilbert Dennis, the victim of one of the most mysterious assaults in the history of the District of Columbia, died at Garfield Hospital in this city today. With her death the last hope of a solution of the mystery has disappeared.

Mrs. Dennis came here from Gettysburg, Pa., and married Walter Dennis, a Washington actor. She was found Dec. 10, insensible in her bedroom. Her skull was crushed. Various theories were advanced as to the motive of the crime, but no definite clue was ever obtained. Robbery was suggested, but rejected, as \$100 on the table had not been taken by her assailant. In one of her semi-rational moments she exclaimed: "It's a woman."

Subsequently she made contradictory statements. She never recovered sufficiently to make a rational statement of the affair.

HOPELESS OUTLOOK FOR THE NATION'S WARD.

The Indian in the Same State To-Day as He Was a Generation Ago—Missionary Work.

NEW LONDON, CONN., October 22.—Reports and address on missions occupied the attention of delegates at this morning's session of the convention of the American Missionary Association.

In address on Indian and Alaskan missions, the Rev. Dwight M. Pratt, D. D., of Cincinnati, O., affirmed that the Indian can never be redeemed and uplifted and fitted for the duties and responsibilities of citizenship by the civil government. The vast sums expended for this purpose in the last thirty years, he said in effect, had accomplished but little. The Indian today is as much a ward of the nation as he was a generation ago. He is unable to be educated to citizenship and Christian manhood, if he is ever to be emancipated from the nursery and from his swaddling clothes and made an independent and constructive factor in our national life. It is said to be through just such vital and effective work as is done by this association.

The Rev. H. A. Bridgeman, of Massachusetts, spoke on Missions in Porto Rico.

Chinese missions were considered in a report and address by the Rev. Harlan P. Burch, D. D., of New Jersey, and a view of educational work in the South, was presented by the Rev. Edward H. Byington, of Massachusetts.

Bear Trees a Congressman.

ST. AUGUSTINE, FLA., October 22.—While Congressman R. W. Davis and a party were out hunting in the lower part of this county, a large black bear began hunting the Congressman. The latter ran, but the bear was too fast, and the Congressman was obliged to climb a tree. He shot at the bear with his revolver, but it was hours before help came.
