HIS MISSION TO SUCCEED. McIntire Believes Remains of Mrs. Monroe will be Removed. SENATORS INTERESTED.

Quite a Number Promise the Project Their Support—Governor Approves and Appreciates How Monroe's Descendants Feel—Gossip.

Hon. W. W. McIntire, of Maryland, feels well-nigh certain that he has accomplished his mission to Richmond, and that the General Assembly will take prompt action on the bill for the removal of Mrs. Monroe and daughter to this city, to be reinterred beside President Monroe in Hollywood.

This gentleman, who is a former Congressman and a Baltimorean of prominence, as well as experienced in bringing things to pass and dealing with legislative bodies, spent much of yesterday in getting the Governor and members of the Legislature interested. He had only to relate how the two gravely injured and neglected and far from the burial places of their kin, to do so. He visited Hollywood Cemetery, and Superintendent Hooper informed him that there was room for a plenty on each side of President Monroe's tomb for the two graves, and that the cost need not be more than \$50.

Mr. McIntire will leave this city this afternoon for Baltimore, putting the matter in the hands of Senators McMillaine, Cromwell, and others of the Legislature.

SAW THE GOVERNOR. Early yesterday morning Mr. McIntire called upon Governor Montagu at the Mansion. He laid the case before his Excellency, and at once was assured of the approval of the Executive. Mr. Montagu told his visitor that he was very interested, and will do all in his power to help Mr. McIntire. The visitor met a number of Senators, President Willard, of the Senate, Speaker Ryan, of the House, who spoke encouragingly of the idea, and a number of others. He says he was never more pleasantly received, and that all the nice things he had heard about Virginians were true.

VISITS MONROE TOMB. Yesterday afternoon he had a conference with Lieutenant-Governor Willard at the Westmoreland Club. Later he went to Hollywood and visited the tomb of Monroe. On his return from the cemetery he called to see Superintendent Hooper, who told him that it was the easiest thing in the world to dig room for the two graves beside the former President's tomb, and that the cost of removal would not be more than \$50.

Mr. McIntire will remain in the city until this afternoon, and will again be seen by the Governor, and will also see Senator Ford, who represents Fairfax county in the upper body.

Upon leaving he will entrust the matter to friends he has made in both houses, confident that his trip to Richmond will be fruitful to the fullest extent of his wishes.

STUART MONUMENT. Cumberland Veterans and Sons of Veterans Aid the Movement. CUMBERLAND, Md., January 28.—This is County Court day, but little business was done and the court adjourned at an early hour to allow the veterans of the county to hold a meeting, the object of which was to form a plan to raise money to aid the Stuart Monument Association in erecting a monument to that gallant Confederate officer, who fell before Richmond in 1861.

Major A. R. Venable, of Prince Edward, who was one of General Stuart's staff officers, was present and delivered a splendid address, which was greatly appreciated by all who heard him. Dr. John L. Banks, who, with his command, served with General Stuart during the war, was unanimously elected chairman, and Captain John A. Booker acted as secretary.

The following committee, most of whom are sons of Confederate veterans, were appointed to solicit subscription: J. Thornton Foster, C. C. Corson, S. W. Sheppard, V. A. Gilliam, T. H. Perkins, A. T. Coleman, J. T. Agee, C. T. Agee, Henry Amos, P. G. Grimes, J. W. Foster, Willie Robinson and Millard Parker.

UNIFORM TICKETS. The Committee Postponed Action for Another Year. ATLANTA, Ga., January 28.—The meeting of the Interterritorial Committee on Ticket Contracts, consisting of railroads from all parts of the States and from Canada, representing the great passenger associations, ended to-night. After debating for two days the problem of adopting for ticket contracts uniform rates which would be uniform throughout the United States and Canada the committee decided to let the matter go over to the next meeting.

The question will ultimately be submitted to a meeting of passenger men for formal action.

SWEETHEART'S KILLED. Harry Sanders and Miss Russing Killed by S. A. L. Train. SAVANNAH, Ga., January 28.—Harry Sanders and Miss Lillie Russing were yesterday killed by a S. A. L. train crossing by a Seaboard Air Line passenger train Savannah to-day. They were in a buggy with Miss Russing's brother and wife, both of whom miraculously escaped unharmed. A bluff obscures the railway track at the crossing and the buggy was on the track before they were aware of the approach of the train.

Sanders and Miss Russing were to have been married in a few weeks. The young woman's body was horribly mangled.

SAID TO HAVE TAKEN FINE DIAMOND RING. A Chambermaid Under Arrest at the Second Station Charged With This Offense.

Langulshing behind the bars of the Second Station, charged with having betrayed the confidence imposed in her by a trusting employer and stolen a fine, pure white diamond ring, valued at about \$100, Mildred Sherman spent last night, having been arrested by Patrolman Willshire yesterday afternoon at the Norfolk County Jail, of No. 209 East Marshall Street, will appear again in the Police Court this morning, the ring having belonged to him.

The woman, who is said to be a first-class chambermaid, was recently employed by Mr. Weinfeld, and until recently has made a capital hand at the work for which she was used. Lately, however, it seems little trinkets have been disappearing from the different rooms with marked regularity, and suspicion fell upon her.

Last Tuesday afternoon a fine diamond ring was stolen, and the police were notified. Patrolman Willshire went to work on the case, with the result that yesterday afternoon he arrested the woman. The ring was also recovered. It will be used as evidence in the trial of the case to-day, after which it will be returned to Mr. Weinfeld.

JUSTICES OF PEACE WANT TO RIDE FREE. They Think They Are Entitled to the Same Privileges Policemen Enjoy.

There is a movement on amongst the justices of the peace of the city to secure for themselves free transportation on the street cars.

The magistrates of Richmond are of the opinion that under the new Constitution they already have the authority of a police and are empowered to make an arrest, report a case or serve a warrant, which is the case, they say, of a goodly portion of them, are confident that the street railroad companies may be required to let them ride free of charge.

In speaking of the matter last night, a well-known justice of the peace said that a magistrate was nothing more or less than a walking grand jury, his oath of office obliging him to enforce the laws of the State. He said they were clothed with police authority and could see no reason why a justice should not be entitled to free transportation on the street cars.

The question is yet in its infancy, and no definite action will be taken until the advice of attorneys has been sought. There are in Richmond twenty-one magistrates—three in each ward—and the money expended by them for street car fares runs up to the hundreds. It would prove a big saving to them and a comparatively small loss to the car company if they could get around paying their fares.

A FINE SHOWING MADE BY SOUTH ATLANTIC. The annual meeting of the stockholders of the South Atlantic Life Insurance Company was held yesterday.

ASHAMED OF ROOSEVELT. New Yorker Is Hot Over Teddy's Negro Attitude. FIFTEENTH AMENDMENT.

This Should Be Repealed and None But White Men Allowed to Vote. Writes Strenuous Letter About the Strenuous President.

(By Associated Press.) AUGUSTA, Ga., January 28.—Judge W. E. Dye, the recognized political authority of Georgia, was quoted in the New York Sun of Sunday as severely condemning President Roosevelt, and his attitude toward the South regarding negro appointments. Touching this interview, Judge Dye to-day resolved the following letter from New York:

"By way of introduction, I will say I am a native of New York; have voted the Republican ticket since Grant's first election, but Roosevelt's disgusting attempts to force social equality of the negro upon our white race is so offensive that he will never get my vote again; and I believe many of us many of the North of similar opinion. I have been convinced for a long time that none but white men should have ballot; that fifteenth amendment was a great mistake, and ought to be repealed.

"Negroes here are getting more and more impudent. Notice it especially on street cars, where they make themselves especially offensive. Were fifteenth amendment repealed there would be one accord among us Americans.

"We do not desire slavery, but neither do we wish social equality, which our accident President seems desirous of bringing about.

"Indiana postoffice matter, 'Crum' affair, Boston Washington, shows Roosevelt's colors. I am ashamed of him as a New York man.

"Agitate repeal of fifteenth amendment. This should be a white man's country. Believe me,

(Signed), "ANTON REIFF."

GAVE UP BUSINESS FOR HIS RELIGION. Noble Action of an Aged Member of the Second Baptist Church.

Through the magnanimity of a church member who, in taking the step brings upon himself more or less serious inconvenience, a prominent Baptist congregation of Richmond is relieved for all time of the stigma of having upon its rolls a person engaged in the whiskey traffic, against which the Dover Association has so strongly and so repeatedly declared itself.

The agitation against the whiskey element has been long and bitter in the association. Unanimous vote showed unanimous sentiment, so far as the traffic itself is concerned, but hot discussions followed every suggestion of what should be done with the congregation step by step. Its membership persons suggested in its business. There were many radicals who wanted the hand of fellowship withdrawn from the churches if they did not expel the objectionable members. The question is a sore one, and as late as the last meeting of the association, a few months ago, there was a big debate, and a decided division of opinion. It was, by the way, shown at this meeting that only four churches in the association came under the ban.

THE SECOND CHURCH. The majority of these four churches are in Richmond, and one of them was the Second Church, of which Dr. W. R. L. Smith is the pastor. In the Second Church was an old man—respected and beloved—who since the war has been dealing in whiskey. He is now advanced in years and there seemed no way whereby he might be kept out of the church and out in some other business. It was too late. Moreover, he had been in the church and had been in the liquor business before the agitation began. The upshot of it was that the congregation voted by him, and resolutely refused to turn him out whatever the association might say or do.

The generosity of the church is equalled only by the generosity of the aged gentleman himself. A few days ago he announced that he had decided to leave the whiskey business, and relieve the congregation of its delicate and embarrassing past. It is known he has no other occupation in view, but nevertheless, he felt constrained to take the step. He did it voluntarily, and the magnanimous act was appreciated by the church.

WHAT DR. SMITH SAYS. Somehow the report got abroad that the church had asked the man to withdraw from the whiskey business. Dr. Smith declares the report to be absolutely incorrect. When seen yesterday he said in effect:

"The church took no hand in the matter. It was voluntarily and magnanimously done. Of course we feel relieved, but we should have kept on without molesting the dear old brother. He was in the whiskey business since the war, before the Dover agitation began, and we would not, in a sudden spasm of virtue, turn him out. Of course, if some man in the church would make a movement to go into the whiskey business, we should object; likewise should we refuse to receive a new member engaged in the business. But here the case was obviously different.

"This is one more from the small army of aged men of churches over whose membership the fight has been made. The member in question is aged and may, or may not, succeed this late in some other business. This congregation has been through the matter and we all earnestly hope that despite his age, he may find a good opening somewhere."

NOT A WORD OF TRUTH IN IT. Daniel Has No Idea of Resigning His Seat in the Senate.

(Special to The Times-Dispatch.) WASHINGTON, D. C., January 28.—Senator Daniel was at his desk in the Senate to-day for the first time since he went home for the Christmas holidays.

Major Daniel received a warm welcome from his many friends in the Senate, all of whom expressed great gratification at the news the Senator brought in regard to the condition of his son, who is ill in Lynchburg. Mr. Daniel has recovered from his fever, and is now convalescing. Senator Daniel would have nothing to say in regard to the Lee statue.

"I have said all I think I ought to say upon this question, and in response to the request for his views," he said, "I will say, though," he continued, "that I was very glad indeed to see that Senator Depew and other Northern gentlemen were favorable to the resolution."

Asked about the report that he might resign his seat in the Senate to practice law in New York, Senator Daniel smiled and said, "Not a word of truth in it."
