Work Here to Suppress Drug Habit. NUMBERS ARE APPLYING

Something About This Committee Which Has the Matter in Charge and Which Has Recently Secured Representative Here.

From Richmond and many other quarters of the State there are coming to the Rev. William S. Campbell, of this city, local representative for the International Committee, organized for the suppression of the drug addiction, an increasingly large number of letters and requests from morphia slaves, who, demoralized and devitalized, broken in health and spirit, would, if possible, be released from an intolerable bondage.

It was but a short while ago that the work was introduced here by the committee, which has its headquarters in New York city, but the success with which it has been attended thus far bears witness to the need for it. Of course, the correspondence is confidential, and no names are mentioned, but among the names which have been placed before Mr. Campbell are those of a Richmond physician, a Confederate veteran, several business men, a young lady and others.

All are put in touch with the New York office. The way is opened to them of a wonderful, speedy, painless cure from the drug habit—a cure for which the committee asks no pay if the person who receives it is not able to give.

WHAT IT IS. The committee came into being largely through the instrumentality of the late Rev. John Hall, D. D., LL. D., of the Fifth-Avenue Presbyterian Church, of New York, one of the most distinguished ministers of his day. So impressed was he with the force and magnitude and terrible effects of the use of opium, and with

the downward rush of the debris and other material that was thrown up by the upheaval, the entire operating plant of the French Canadian Coal Company was carried away. The buildings demolished included the tipple, boiler-house, engine-house, electric light plant, railway scales, repair shop and a row of coke ovens. Seven houses, also owned by the company, were smashed into kindling-wood, six of them being entirely obliterated and their occupants killed, while ten other houses, which were situated in the valley, were left to remain and completely demolished. The people residing in these houses were also instantly killed as they slept.

The direct monetary damage will exceed a million and a half dollars. The total loss to the mine company probably will not exceed \$200,000. The Canadian Pacific Railroad Company's loss is heavy, through blocking of its tracks.

IN PICTURESQUE VALLEY. The scene of the catastrophe was originally one of the most picturesque valleys in Canada. A sheet of rock rose to a height of 3,000 feet above the level of the town. The Old Man River followed the side of Turtle Mountain, close up against the foot of which the town of Frank at 3 o'clock in the afternoon, and after that a twilight ensued. The material from the slide came down in almost a vertical wall of rock, and crossed the valley a distance of more than a mile, and went part way up the foothills on the opposite side of the valley to a height far above the highest building in the town.

Pieces of rock are still falling from the strangely altered top of Turtle Mountain. These rocks in many cases are huge masses, weighing hundreds of tons, and as they fall crashing down with colossal thunder they start other fragments of rock in the path of the slide, which rush onward, bearing destruction. For that reason it is extremely dangerous to approach the vicinity of Turtle Mountain to make investigations into the exact cause of the catastrophe.

THE MOUNTAIN SLIDE CONTINUED ALL NIGHT (By Associated Press.)

SEATTLE, WASH., April 30.—A special from Frank N. W. T. says: "The slide from Turtle Mountain continued throughout yesterday and last night at intervals, depositing millions of tons of limestone on that which had come down before, with the result that the mountainside is now a perilous, unbroken field of safety. But two residences in the entire town were used last night, and those not by their owners, but by persons who had fled to the mountainside to take chances. In response to an appeal from the local board of trade, the Dominion government has sent William Pearce with the Ottawa Cavalry to be prepared to the steps for clearing away the obstruction from the river so as to avoid a flood, which would entail further destruction of life and property and in employing the government agent, the government to-day sent a force of mounted police by special train to protect the district as thieves had commenced to operate.

Dr. Marcus A. Brownson, Philadelphia; Rev. Dr. H. W. Gilchrist, San Anselmo, Cal.; Rev. Dr. George A. Funkhouser, Dayton, O.; Bishop G. M. Matthews, D. D., New York; Rev. Dr. W. W. White, New York; Rev. Dr. H. M. Wharton, Philadelphia; Rev. George R. Stuart, Cleveland, Tenn.; Prof. B. Smith, New York; Rev. Dr. McDonald, Danville, Ky.; Rev. Cornelius Van Rensselaer, New York; Rev. Dr. P. Carson, Brooklyn; John Willis Baer, New York; Rev. Dr. John Potts, Canada.

Throughout the entire session special conferences will be held, embracing the following subjects: "Work for Men," "Christian Religious Work for Women," "The Business Man's Relation to the Church," "Young People's Work," "Sunday School Work," "Home Missions," "Church Methods," "The Obligation of the Church to Workingmen," "Mid-Week Meetings," "The Evangelistic Church."

Who hath not turned at manhood's dawn While loitering down the way, To draw aside the veil of years, And stand there boyhood days?

And standing thus 'neath autumn leaves That fall in glittering train; Looked back and said, "Oh soul of mine, That were once more boys again!

To romp once more 'neath the cool tree shade, Playing as children play, Forgetting the cares that vex us now, In idling the days away?

Such memories are won't to bring us back To haunts that ever allure, The woodland's quiet solitude, Mid air so fresh and pure.

Or down in the fragrant meadows, Where the graceful lilies nod, To a black bird perched and singing, On the swaying golden rod.

And just beyond in the willow marsh, Where oft we've basked in contentment, To gaze at ge-winks in their nest, And hear the pleasant's drum.

Or on the hill-top just above, Where was heard the dove's lone coo, Or across the brooklet, farther on, Where the prettiest flowers grew.

But freakish boyhood turns from these, And memory leads us thence, To chase the striped chipmunk, Along the old fall fence.

Once more we hear the droll ting-ling, Of cow-bells on the hill; And the ceaseless plash of the water-wheel, Down by the old grist-mill.

Ah, memory, that gift Divine— Returns to us once more, And paints the hallowed picture Of mother in the door.

Our eyes grow dim with tears that tell How stricken the heart with pain, When we realize 'tis only a dream, And we'll ne'er be boys again. —Warwick Ashby Slavin. Marlinton, W. Va.

SENTIMENT CHANGING

The North Now Taking Saner View of Negro Question.

Official: Can Say What He Pleases in an Official Report and Not Be Guilty of Libel—Joke on Mr. O'Ferrall.

The Times-Dispatch Bureau, No. 1417 G Street, N. W., Washington, D. C., April 30, 1908.

A gentleman residing in Washington has received a letter from Mr. C. J. Heatwole, who is a Virginian, now in New York attending Columbia University, in which he says that he has been very much impressed with the change in the sentiment of the North toward the South on the race question. He says in the course of the letter:

"I attended the Booker Washington meeting at which Cleveland made his famous speech that so tickled the South, and which was so favorably received by the Northern audience as it has been throughout the South. I have been very much impressed with the rapidly with which these people at the North are coming round to the Southern point of view concerning the race question. I think that all the saner class of people here are with the South in their struggle against negro domination. It seems to me, too, that this more liberal sentiment largely a matter of recent growth. Such a calm, deliberate utterance as that of Cleveland at this meeting does more good here than anything we have had in years. It is stirring the hearts of Southerners to declare that in the attitude of the South toward the negro was a racial instinct instead of a mere prejudice. Cleveland's declaration to the same effect has set the thinking people of the North on their feet, meditating upon the subject and I find a more liberal view gaining ground everywhere."

Mr. Heatwole is well known to his friends as a close student of the race question, and he has a better insight into the trend of sentiment at the North.

A great deal of interest was felt here over the suit in Justice Clabaugh's court, in which Captain Charles F. De Arnaud sought to recover from Brigadier General A. L. Winslow \$50,000 for alleged malicious libel. The outcome of the suit has decided that a government official has the right to speak ill of a person in an official document, and that he is not guilty of libel when he speaks in his official capacity, can say anything he chooses in an official report, and not be liable for libel. Attorney Lipcomb, for the plaintiff, said to-day that the case would be carried to the court of last resort.

The plaintiff is represented by William L. Terrell, of the law firm of Terrell, Irvin, Dunagan, an ex-member of Congress from Ohio. District Attorney Morgan H. Beach and Assistant Attorney Atkins were counsel for the defense.

Speaking of Colonel Dungan brings to mind a story he once told. The history of the war is full of how, when a colleague of Colonel Charles T. O'Ferrall, he played a practical joke on the Virginian. The two men have a remarkable resemblance to one another and were frequently mistaken each for the other, even by their fellow-Congressmen. One day when O'Ferrall made a company of negroes, can say anything he chooses in an official report, and not be liable for libel. Attorney Lipcomb, for the plaintiff, said to-day that the case would be carried to the court of last resort.
