MR. BLOOMBERG TALKS OF QUEBEC

Had a Fine Trip and Saw Many Interesting Things in Quaint Old City.

Mr. Sol L. Bloomberg, who has been to Quebec attending the Grand Lodge of the Royal Arcanum, has returned to the city, and is greatly pleased with what he saw.

In the first place, Mr. Bloomberg said the order was in fine shape and was doing grand good, both financially and fraternally.

But his most interesting talk concerned the quaint old city of Quebec and what he saw there.

While there he attended a Masonic lodge, whose charter is 151 years old, but which he found to be perfectly healthy and capable of being easily run.

Mr. Bloomberg was entertained at the country seat once owned by the late Duke of Kent, who was the father of the late Queen Victoria.

The dinner was given by Past Grand Master Fitch in honor of the present grand master of Quebec and the grand master of New Jersey, and there were twelve in the party.

The home is an elegant one eight miles from Quebec, and overlooks the splendid Mount Moreau Falls, which Mr. Bloomberg thinks equal in beauty to the Niagara. He was struck with the gorgeously lighted churches in Quebec, and went to St. Anne de Beaupre, which is twenty miles out in the woods and which is regarded in holiness as next to the Church of Rome. The chancel rail of this magnificent edifice cost \$5,000.

Mr. Bloomberg spoke of the narrow streets, many of which are only eight feet wide, and he said the street car service was about the most interesting he saw in the city.

Mr. Bloomberg that before the roads were constructed the came to Richmond and looked into the system here, and used that as his model.

Mr. Bloomberg was accompanied by Mrs. Bloomberg, and they were in Quebec for about two weeks.

AT FAIR OAKS

A Park There With Every Kind of Amusement.

Extensive improvements and expenditure of money are being made near Fair Oaks, which is near the junction of the Seven Pines and York River Railroad, by a corporation known as the Rovers Beach and Fair Oaks Amusement Company.

Bliss Black is president. Mr. Black, who is now in the game, is building a scenic and musical railway and pavilion and making improvements to cost about \$150,000.

What is known as a musical railway larger than the one at Reservoir Park and a pavilion 100x50 feet are in course of construction. The company, which operates a small amusement resort at Rovers Beach, the Coney Island of Boston, has secured about 150 acres of land in Henrico county near the junction of the Seven Pines Electric Road and the York River Railway.

About forty acres of this tract consists of woodland, and of this fifteen or twenty acres is in oak, affording fine shade. Wells are being sunk, and an abundance of water is assured. Booths for the sale of refreshments will be built, and lights and conveniences will be provided.

After the completion of the plant twelve or fifteen men will be required to operate the railway and other entertainments. Other attractions will be provided. The plan of the promoters is to make it a permanent project, and that is to say, one operated every summer.

William Byrd Council, The regular weekly meeting of William Byrd Council, Jr. O. U. A. M., was held Monday night in Davidson's Hall, with some forty of fifty members present.

Although this Council is not quite two months old it has grown in membership to be among the largest in the city, and

by the energetic and untiring efforts of its members it is constantly increasing its membership, as there are from two to five taken in each meeting night.

Last night, however, was the banner night of its history in the way of initiating members, as some twelve or thirteen were conducted through the mysteries of the order.

It is strange, considering the great number of societies that have formed in Richmond the past twenty-five or thirty years, that this is the first one that adopted the name of the founder of Richmond.

After the regular routine of business was transacted, members were made by several brothers of visiting councils, and plans discussed for the entertainment of the State Council, which meets in this city in April, 1904.

The Kind Our Mother Used to Take.

IT Was The Best Prescription Then—It Is NOW.

In the old days it was sometimes considered fashionable to be delicate, pale and with an inclination to faint at the least provocation. It is different now. America is raising a strong race—a race of vigorous and healthy mothers.

When a woman becomes nervous, suffers from backache, sleeplessness, a general tired-out and fagged feeling, with dragging-down pains, she turns to the right remedy. She is positive she can get relief and assistance from Doctor Pierce.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors of Doctor Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500

in legal money of the United States, for any case of Leucorrhoea, Female Weakness, Prolapsus, or Falling of the Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

There is every reason why women should not trust their delicate constitutions in the hands of unskilled persons. It requires a thorough medical education to appreciate and understand the womanly organism.

When a woman has ill and pains that she cannot bear—when life seems dark for any woman, she should confide her troubles to a physician of standing in the community, or one who has a national reputation. Certainly it would not be the part of wisdom to confide in an ignorant person without medical education simply because she is a woman.

There is every reason why she should write to some great specialist, one who has made the diseases of women a specialty for a third of a century, like Dr. R. V. Pierce, founder of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y. All correspondence is held sacredly confidential, and he gives his advice free and without charge.

Very often find that it is repugnant to their feelings to consult their family

physician. In such a case they will put perfect confidence in Dr. Pierce, who has made such a success in the treatment of woman's diseases, for he will give you the very best advice possible, and without cost to you. To grow beautiful, healthy and happy should be the desire of every woman. It is then possible to hold a husband and make home happy and bring contentment to it.

Dr. Pierce's Favorite Prescription gives the mother health to give her child. It cures nervousness, nausea and sleeplessness. It makes the body comfortable and the mind content. It gives physical vigor and muscular elasticity so that the baby's advent is practically painless.

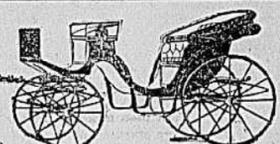

"I write you to let you know I received your kind and ever welcome letter and your kind and fatherly advice," writes Mrs. Ida Martin, of Berry, Ky. "I commenced your treatment the next day after receiving your letter, some months ago, and followed your advice as closely as I could. Am glad to say I am in better health than have been for years. Believe I suffered from every disease that any over-worked, run-down woman could. Was not able to do anything, could not get one good night's sleep; had heart disease of the worst type. A disordered liver was one great trouble, and, passing through change of life, it seemed to cause me excruciating pain in breast and shoulders. I had no appetite, could not sleep nor do any housework. I took treatment from three of the best doctors in our town but grew worse every day, so I decided to write to Dr. Pierce for advice. I took the medicine just as you advised and continued until I had taken six bottles of 'Golden Medical Discovery' and 'Favorite Prescription.' I know that your medicines did more for me than all the medical treatment I had ever taken."

Mrs. Geo. W. Wood, of Whitehall, Mich., writes: "I feel that I must let you know how much good your 'Favorite Prescription' has done for me. In June, three months ago, an eight-pound boy was born to us—my first child. I took eight bottles of Dr. Pierce's Favorite Prescription before his birth and got along nicely; was sick only a short time, and when baby was born I felt nearly as strong as I ever did. Was staying at my mother's at the time, and when baby was one week old I rode from there to my home, a distance of about two miles. Got up the fourth day and remained up, and when baby was two weeks old I walked to town and back which is quite a distance from where we live. I also felt so strong that I set up for a short time the very day he was born. Baby is healthy and growing very fast and I give the credit to your wonderful medicines."
