CRISIS IN STREET-CAR FIGHT TODAY

According to the Present Outlook Some Definite Action Will Be Taken.

The street railway situation is still poised in uncertainty, much depending on the developments of the next thirty-six hours. The employees of the company and the general organizer are still hopeful that an amicable solution of the difficulties threatening a strike may be arrived at.

MR. DUNCAN'S FIRE TALK

Labor Leader the Guest of Granite Cutters. GIVES BIT OF HISTORY

In Well-Chosen Words He Told of the Advantages of Agreements in the Preventing of Labor Troubles. Not since the visit of Mr. Frank Morrison, secretary of the American Federation of Labor, to this city three years ago, have the laboring people been honored with a visit from an official of the body until last night, when Mr. James Duncan, first vice-president of the A. F. of L. and secretary-treasurer of the Granitecutters' International Association of America, was the guest of the local branch of granitecutters.

WITNESS WAS DRUNK

More Sensations Each Day in Marcum Case.

Nineteen years ago Mr. Duncan used the hammer and chisel, and occasionally the bush hammer, on government work for the erection of the War and Navy building in Washington, over in the Weathersham quarry, across the river. He spent the afternoon in visiting old acquaintances here yesterday.

EVIDENCE OF CONSPIRACY

Drift of Evidence Tends to Show that Jett and White Were Not Parties to Conspiracy, but Hired Assassins.

(By Associated Press.) JACKSON, KY., June 12.—A number of correspondents arrived here today, including magazine writers and artists for illustrated papers. Provost Marshal Longtree has made no arrests for two nights and two days. Since he closed the "blind tigers" there has been no shooting during the carousals around these places led to report at times of bands of feudists coming into town to attack the jail. Court had to take the noon recess today earlier than usual, because the next witness was unable to get on the witness stand, and it was evident that liquor is still available from some source.

TRAINING SCHOOL

One to Be Opened in Connection With the Methodist Institute.

At the meeting of the Board of Visitors of the Methodist Institute held Wednesday plans were projected for the opening here of a training school for the instruction of young men in the domestic arts of cooking and housekeeping.

BOUNDARY LINE AT LAST DECIDED

Water Still Sweeping Through Broadway and Flooding Section of City.

(By Associated Press.) ST. LOUIS, MO., June 12.—The river continues to fall steadily, but those who expect to see a sudden decline will be disappointed. Each day the heavy pressure of water against the Broadway embankment in East St. Louis probably will destroy a large section of that street. In some places portions of the street have caved in, and to-night a large section of the street has been swept down, but the street car tracks still held the street from giving entirely away. The water is sweeping the Broadway steadily, and in large quantities, and sooner or later will inundate all that portion of the city south of Missouri Avenue.

APPEAL FOR AID

Twenty-three Thousand Persons Homeless and Dependent.

(By Associated Press.) KANSAS CITY, MO., June 12.—Kansas City, Kan., is still sorely in need of aid for its flood sufferers. A second urgent appeal to the country has been issued by the Relief Committee of that city as follows: "The destitution on the part of the flood sufferers in Kansas City, Kan., demands immediate relief. Local charities are totally inadequate to meet the situation. Outside assistance is imperative. Two entire wards, and parts of two others, comprising at least 23,000 souls, out of a population of 60,000 in the entire city, are made homeless and dependent. Hundreds of their homes have been swept away, and those that remain have been left with a desolation both inside and out, from one to three feet in depth. In most instances persons were able to save only the clothing they wore. Their household goods and clothing have been swept away or destroyed by water and mud. The authorities will be unable to cope with the existing conditions unless the outside public shall come to their aid. Money and supplies in large amounts will be needed to prevent extreme suffering. All donations from the general public should be sent to Thomas B. Gilbert, mayor of Kansas City, Kan."
