The Professor Said "Don't Drink Coffee"

(A certain Professor in a Chicago University in a late talk to students.)

"We talk of drunkenness as a crime but continued, "but tea and coffee drinking at meals is more injurious than liquor to some men."

Think they will quit? Yes. Many of them know that with good health they can "do things" in this world, so when they find stomach trouble, weak eyes, bad blood and muddy skin, or any of the many incipient signs of disease set up by Coffee they quit.

Then they take on Postum Coffee. Because it furnishes the Coffee flavor, charming color and all the pleasure of Coffee drinking and does not destroy stomach and nerves but makes for the sure rebuilding of the entire body on healthful, sturdy lines. There's a Reason.
