Wall Street Gossip.

(Special to The Times-Dispatch.)

NEW YORK July 24.—In the first bour while as market felt the effect of forced liquidation, resulting from the calling of loans, it was evient that there was throng pressure from two are operators who had undertaken a concerted

liquication seemed to have been included.

The break in Southern Pacific was not an unnatural result of the fact that considerable amounts of the stock had for a long time been in the heads of weak holders, and it seems not improbable that much of this has lately been forced on the market.

The decline in Union Pacific was in sympathy with the break in Southern Pacific and did not reflect any development in the company's affairs, which are in excellent shape. The reports of selling by an important interest in the property are without foundation.

The Well following was credited with bringing shout the break in St. Paul for effect on the general market, but the buying on the decline seemed to be of good quality.

THE EARLY AFTERNOON

THE EARLY APTERNOON:
In the early afternoon the market was erratic, but there seemed to be considerable short covering at various points, based on expectation of a favorable bank statement. There were a number of unfavorable rumors in circulation, which however, seemed to the put out so as to facilitate the covering movement.

Some liquidation broke out in International Paper, which was not unlooked for, in view of the decline in Union Bag and Paper on Thursday. It is well known that the concessions made to labor have decreased the margin of profit very considerably.

Liquidation and bear pressure combined were responsible for the weakness in Rock Island, but there was a tendency in good quarters to regard the preferred at current quotations as not unattractive.

Amalgamated Copper showed fair rallying power on the break, but there was a tendency

COTTON MARKETS.

NEW YORK, July 24.—The cotton market opened steady at unchanged prices to an advance of 5 points on all positions erecept July; which started 5 points on all positions erecept July; which started 5 points lower. At first the list showed some firmness as a result of corering that seemed to be brought about chiedy by the disappointing weather map, showing only slight showers where rain had been expected. Temperatures were blain to portions of the belt, and this also induced correing. In the first few minutes trading was negrly active, but prices were forced up to a level of 5649 points higher on months later than August, while the two old crop positions remained at about the opening level. Then there was a little realizing, which gained force as the lack of bull support developed, and before mid-day a decline of from 2018 points was apparent. This was followed in the early afternoon by a shar advance under supporting orders, believed orlginate with the New Orleans pool, and which were responsible for another panic of Soc, was rushed up to 13.05. From 12.22, the lowest of the session, August advanced and solon, and which the were responsible for another panic of Soc, was rushed up to 13.05. NOTSO DULL FOR SUMMER

Business of Country Better Than Usual.

RAILROADS DOING WELL

Increase in Earnings of Last Year More than Maintained-Depressing Effect of Decline in

(By Associated Press.) NEW YORK, July 24.-R. G. Dun and Company's weekly review of trade to-mor-

every section of the country indicates that there is less than the customary midsummer duliness in business, and collec-tions are more prompt than usual. A large proportion of the unions have signed a working agreement with the employers in the building trades of this city, and fully one-half the men have returned to work. Earnings of railways reported for July exceed last year's by 12.9 per cent., and those of 1901 by 24.1 per cent. Farm work still retards retail distribution of merchandise in Western sections. Foreign trade at this port for the past week shows a gain of \$2,569,295 in value of imports, as compared with the same week last year, while exports decreased \$502,090. Good news as to the progress being made toward settlement of labor disputes was neutralized by the decline in securities, in so far as the iron and steel industry is concerned. There are many indications that interruptions from strikes would be less frequent than in the immediate future, and there was a general disposition to fully sustain prices. But the heavy liquidation and the new low record prices for steel issues had more influence upon conditions in the actual business. Nearly a half million tons of steel rails have been ordered for next year's delivery, and other steel shapes are attracting close attention. The trade will benefit by the greater stability of prices securing the revival of the billet pool.

Footwear factories have much work in sight, buyers having placed orders freely, and there are still many representatives in the Boston region from which shipments continue to eclipse all earlier records.

Heavy receipts of live stock, following the accumulation of poor quality hides early in the year, explain the unsatisfactory situation in the Chicago market, and foreign dry hides have also lost another fraction.

Domestice mills are steadily curtailing productions of cotton goods, and infated prices are only made possible by speculative selling.

Failures this week numbered 191 in the United States, against 266 a year ago, and nineteen, in Canada, compared with seventeen last year.
