COREY TO SUCCEED HIM Mr. Schwab's Resignation as President Said to Be Already in the Hands of the Executive Committee—He Will Not Be Director.

(By Associated Press.) PHILADELPHIA, Pa., August 3.—The Public Ledger to-morrow will say: "Charles M. Schwab, president of the United States Steel Corporation, will sever all official connection with it, effective to-day (Tuesday), his resignation as president now being in the hands of the Executive Committee. "This information came to the Public Ledger from one of the directors of the corporation. For months Mr. Schwab's resignation has been rumored, but each time the rumors appeared it was denied by Mr. Schwab himself, as well as by the corporation's directors. "The Executive Committee will meet to-day and receive Mr. Schwab's resignation. The recommendation will then be turned over to the directors, who will meet later in the day and formally approve it. "Mr. Schwab will also, it is announced, resign as a director, thus completely severing his connection with the company. "W. E. Corey, who on July 1st, was appointed assistant to President Schwab, to perform the active duties of the president of the corporation, it is stated, will be elected Mr. Schwab's successor, but his duties will be practically the same as those he is now performing—the physical operation of the various plants comprising the corporation."

CAMPAIGN OF EDUCATION

Temperance All-Day Picnics—Bond Election for Water Works.

(Special to The Times-Dispatch.) SOUTH BOSTON, Va., August 3.—A campaign of education in the county throughout the county of Halifax, under the auspices of the local Anti-Saloon League, began to-day. The first of a series of temperance picnics were arranged for eight successive days at different points in the county, each day except for an intermission for dinner, which is served on the grounds. At the morning and afternoon sessions addresses are made by Rev. J. W. West, field secretary of the League, and other prominent men of the county. The meetings have been well attended and much interest has been manifested in the movement. Tuesday night an Odd-Fellows' Hall was gathered in the Odd-Fellows' Hall of a union, under the name of the United Sons of Freedom. Several addresses were made and were enthusiastically received. Considerable interest is being aroused in the coming election which will be held on August 12th to the amount of \$300,000. The purpose of securing a clear water supply is to erect and install a sewerage system. It seems that the proposition will undoubtedly be heartily welcomed by the residents. On Friday night, July 31st, a brilliant party was given at the home of Mr. and Mrs. Joseph W. Johnson, at Houston, in honor of their guests, the members of the State and National Legislatures. The dancing continued from 9 o'clock to 12 o'clock, and was rendered by the Columbia Orchestra, of Reidsville, N. C. HEAD-ON COLLISION

Car Telescoped and Twenty-one Persons Hurt. (By Associated Press.) HARTFORD CITY, IND., Aug. 3.—A head-on collision in this morning between a west-bound Pan-Handle freight and the east-bound passenger train injured twenty-one persons, some of them seriously. The freight train was derailed on the main track by a broken drawbar, and a fog prevented the passenger engine from seeing a large sign on the ahead until too late. Both engines were reversed when they met, but the reversal was not made in time to check them. The second baggage car telescoped the smoker, tearing through half its length and sweeping the people from its path like a chair. The shock threw many people from their seats. The passengers who were clinging to the sides of the cars were in the front of the smoker, but it was nearly an hour and a half after the accident before the last one was taken from the wreck.

MILLION DOLLAR CHARTER GRANTED

Architect Anderson Will Soon Begin to Realize From His Brick Tile Invention. The American Hygienic Bricktile Fire-proofing Company, an organization with a capital of a million dollars, was granted a charter here yesterday by the Corporation Commission. At the head of the new concern is a Richmond man and among its directors are prominent and wealthy gentlemen of this city and Washington. Under the charter secured business will be done all over the United States, and branch plants will be established in many places, including Richmond. The main office will be in Virginia, but up in the direction of Washington. The purpose of the company is the manufacture of the Anderson bricktile fireproofing and all clay products. The bricktile is the invention of Mr. D. Wiley Anderson, of this city, who is the president of the organization. Property has been secured in Fairfax county, near Washington, and a big plant, representing an outlay of perhaps \$500,000 will soon be in course of construction. The main office will be at this place. A provision in the charter, however, allows the establishment of subsidiary plants at any point in the country. One of these plants will come to Richmond. The capital of the concern is \$1,000,000. The officers and directors are as follows: President, D. Wiley Anderson, of Richmond; Secretary and Treasurer, W. L. Yeager, of Washington; Directors, D. Wiley Anderson, W. L. Yeager, Captain J. F. Chalmers, of Richmond; Julian T. Wright, of Richmond; Reuben Burton, of Richmond; John Miller, of Washington; Samuel Ross, of Washington, and R. L. Thomas, of Charlotte. The initial meeting of the directors was held in this city yesterday.

A TRAIN'S RUN FOR NEGRO'S SAFETY

Judge Anderson Tells Story of How Man at Covington Was Protected.

Judge George K. Anderson, of Alleghany, who presides over the County Court of that and several adjoining counties, and who, after February 1st next, will preside over the Circuit Court for the district of Alleghany, Bath, Highland and Boone, is in the city on legal business. Speaking of the presence of the two negroes, William and Otto Green, who shot Harry Rudisill, a white man on a James River division train, in Clifton Forge, and of the subsequent developments in connection with the case, Judge Anderson said that the troops had been ordered to Covington to protect the negro and to deliver him safe at Lynchburg by the Sheriff who had authority to do so without calling on the Governor in an emergency such as that presented by the offense. "The negroes were arrested on a train of the James River division of the Chesapeake and Ohio road by a special officer, and turned over to the sheriff of Rockbridge at Buena Vista. It seems that they were then taken from Lexington to the Chesapeake and Ohio Hospital, where the wounded man was for identification. The man had just been operated on and was under the influence of chloroform and could hardly have identified anyone. By what authority the bringing of the man from Lexington was done or by whose orders I do not know. This was done, however, and the negroes were afterwards started for Covington. The fast train No. 1 was flagged by a mob, and it was then that all of the windows of the car were shot. The engineer coolly pulled out while the mob was interested in the shooting, and the negroes were thus landed in safety in Covington jail. "The military were sent from Clifton Forge to Covington Saturday night, and a telephone message was sent to Superintendent of the Chesapeake and Ohio road, to send a train to take the negroes to Lynchburg. At 2 o'clock the negroes and the troops were hurried aboard the train and the run began. The train went through Clifton Forge at good speed, having a head wind, and continued its run without a stop. It was the first time for many years that a train has been through Clifton Forge without stopping, but it was the only way to get these prisoners through in safety. They were taken to Lynchburg and sent thence to Bedford City. "BOODLING" Special Grand Jury Charged to Look Into it Closely. (By Associated Press.) JEFFERSON CITY, MO., Aug. 3.—A special grand jury to inquire into legislative boodling was appointed to-day by the Governor in the course of his charge to the Jury, Judge Hazell said. "The impression widely prevails in the State that 'sandbagging' was indulged in; that hold-up was common; that money was given to such persons and criminals acts by accepting money from those who were financially interested in certain legislation. These matters have not been proved to the bottom. "We now charge you to make a thorough investigation into such a charge against the legislative department of our State government, as well as against all bribe-givers, and if any one is believed to be guilty so as to warrant a conviction you should bring a bill or an indictment against him. No good citizen should be allowed to be a party to such proceedings as are charged against the recent General Assembly and others."

Much Dissatisfaction in Spain Due to Bad Harvests.

(By Associated Press.) MADRID, August 3.—The threatened general strike commenced to-day in several centers, including Barcelona, Murcia, Cadiz, Ronda and Alcoy. The general unrest is largely attributed to bad harvests and to the immediate motive for the strike is to reinforce the demand for the release of numerous workmen who have been taken to prison for offenses in connection with recent strikes. The leaders of the movement are exhorting the members of the labor unions not to return to work until all the imprisoned men have been released. The strike has already collapsed at Barcelona, and the majority of the workmen have resumed work. The strike leaders attribute the failure to the stringency taken by the government. A man was arrested at Barcelona to-day for carrying dynamite cartridges, which he confessed he intended to use in the rioting of the city. He also admitted that he was an anarchist, and the son of Barrera, who was arrested in 1899 for throwing bombs.

Mrs. J.P. Regnier. "My friends say, 'How well you look.'"

MRS. J. P. REGNIER, 764 W. 20th St., Chicago, Ill., writes: "I am anxious to show my gratitude for what Peruna has done for me, and hope this will reach the eyes of some woman who has suffered as I did. For two years I had intense pains regularly every month, had headache and back-ache. At such times I was hardly able to be about, and felt very weak and worn out. I am now feeling very well, but would not be without Peruna in the house. When I see my children are not feeling well and have a little cold, I give them Peruna and they know it does them good, so they take it without any trouble. I am a new woman since I began taking Peruna. My friends say, 'How well you look!' and I tell them what made me well, as some of my friends are going to try it themselves."—Mrs. J. P. Regnier. Women all over the United States recommend Peruna. They praise it as a remedy particularly adapted to their peculiar ailments. But they do not stop there. They recommend it as a family medicine; they give it to their little children. They say they would not be without it in their home.
