

HAS PASSED THE HOUSE

Bill for Deficiency Appropriation for Pensions Goes Through After Stormy Session.

AMENDMENTS ARE OFFERED

Fight on the Measure Was Party One-Chinese Exclusion Bill Was Accepted.

(By Associated Press.) WASHINGTON, April 10.—The House today passed the last of the supply bills of the government, the general deficiency appropriation measure, after a stormy session, which lasted until 1:15 in the evening.

The contest was a party one over the deficiency appropriation for pensions, which the Democrats tried ineffectively to amend by incorporating as a law, the recent executive age disability pension order.

An effort was made by Mr. Moon, of Tennessee, to secure a year and may vote on his amendment as to the age disability order, but the Speaker refused to recognize him for this purpose.

On a pro forma vote to recognize the bill, the Democrats angered by the Speaker's refusal to recognize Mr. Moon, secured a roll call, but after the vote had been taken all further opposition ceased, and the bill was passed.

Mr. Underwood (Democrat, Alabama) offered an amendment reducing the total deficiency appropriation for pensions to \$2,000,000, and Mr. Livingston (Democrat, Georgia) offered another providing that no part of the appropriation shall be paid to any claimant for pension under the President's order.

Another amendment by Mr. Miers (Democrat, Indiana) increased the appropriation to \$5,000,000, while still another amendment was offered by Mr. Moon (Democrat, Tennessee) providing that persons who served ninety days or more in the service in the United States during the Civil War, shall when they reach the age of sixty-two years, receive \$5 a month; after sixty-five years, \$8 a month; after sixty-eight years, \$10 a month; after seventy years, \$12 a month.

It developed that this last amendment was a sharp move by the Democrats. Mr. Hemenway made a point of order against it, because he said it changed existing law. Mr. Underwood promptly stated to the bill, and Mr. Moon defended the President's order and inquired if the President was more entitled to violate existing law than the House.

Mr. Hemenway declared that in the confusion, he did not get the drift of the amendment and was defending the appropriation as provided by the bill, said the Democrats had been wandering around for two months for an issue in the coming campaign, and they thought they had it now, but he said, the Republicans would meet them on that issue.

Mr. Williams (Democrat, Mississippi) said the order was another illustration of executive usurpation. He emphatically declared that the order was a change of existing law and insisted that the commissioner of pensions had committed an impeachable offense.

Mr. Moon indignantly denied that he offered his amendment for political effect. His amendment, he explained, was offered solely that there may be no doubt of what the soldiers are entitled to, because he believed the order a wise and sensible one, if enacted into law in pursuance of the Constitution.

The point of order against the Moon amendment was sustained, and Mr. Underwood declared that the majority to do things. He congratulated the Republicans for having found the substantial legislation was a thing superior to technical rules. The bill, he declared, was a felonious assault, a lynching, he directed against the rules of the House.

But he said, no Republican voice had suggested it was not in order. Mr. Williams produced laughter when, noticing Speaker Cannon occupying a seat on the floor, he said that he was almost struck with paralysis by the fact "that the Speaker is sitting now by the gentleman from Indiana (Mr. Hemenway), adding and abetting him in this felonious attempt to strangle the rules."

Conference reports on the fortifications and army appropriation bills were agreed to.

Mr. Underwood (Democrat, Alabama) offered an amendment reducing the total deficiency appropriation for pensions to \$2,000,000, and Mr. Livingston (Democrat, Georgia) offered another providing that no part of the appropriation shall be paid to any claimant for pension under the President's order.

Another amendment by Mr. Miers (Democrat, Indiana) increased the appropriation to \$5,000,000, while still another amendment was offered by Mr. Moon (Democrat, Tennessee) providing that persons who served ninety days or more in the service in the United States during the Civil War, shall when they reach the age of sixty-two years, receive \$5 a month; after sixty-five years, \$8 a month; after sixty-eight years, \$10 a month; after seventy years, \$12 a month.

ECZEMA ON LITTLE GIRL

Sleepless Nights for Mother and Awful Suffering of Child.

CURED BY CUTICURA

Had Given up All Hope of Ever Making Any Cure.

"My little girl has been suffering for two years or more from eczema, and during that time I could not get a night's sleep, as her ailment was very severe."

"I had tried so many remedies and spent much money, deriving no benefit. I had absolutely given up all hope of making any cure. But as a last resort I was persuaded to try a set of the Cuticura remedies, and to my great delight a marked change was manifested from the first application. I gave the child a bath with Cuticura Soap, using a soft piece of muslin cloth. This I did twice a day, each time following with the Cuticura Ointment, and at the same time gave the Resolvent, according to directions. One box of the Ointment and two bottles of the Resolvent, together with the Soap, effected a permanent cure. I submit this publication if you desire, hoping it will add to your success and assist so many thousands of sufferers in curing themselves." Mrs. I. B. JONES, Ashgrove, Ind. T.

The first step in the treatment of the chronic forms is to remove the scales and crusts and soften the skin, by warm baths with Cuticura Soap. The scalp, ears, elbows, hands, ankles and feet will require frequently a thorough soaking in order to penetrate the thickened skin and crusts with which these parts are often covered. Dry carefully, and apply Cuticura Ointment, lightly at first, and where advisable spread it on pieces of soft cloth and bind in place. Take the Resolvent, pills, or liquid, in medium doses. Do not use cold water in bathing, and avoid cold, raw winds.

Sold throughout the world. Cuticura Soap, 25c. (No form of Cuticura Soap sold for less than 25c. per box.) Cuticura Ointment, 25c. Resolvent, 25c. (No form of Resolvent sold for less than 25c. per box.)

to. The report on the latter bill was criticized by Mr. Hay (Virginia) because it contained legislation not enacted in either house of Congress.

LIQUOR PEOPLE SAID TO BE FOR HIS HONOR

(Continued From First Page.) Democratic Club in the Masonic Temple for one night this week, though at this time there is nothing tangible concerning it.

The campaign is a remarkable one in many respects. Up to the present, the most earnest supporters of the two majority candidates seem unable to forecast the result with any degree of confidence, and are admitting that the fight promises to be close at the finish.

Still from the talk that is heard on all sides, it seems a fair deduction that the McCarthy stock rises with his very public utterance, and if the tide now evidently running toward him, shall continue, his friends claim, and his opponents seem to fear his success.

One of the most interesting ramifications of the very complicated and complex situation is the position of the liquor dealers in favor of Mayor Taylor's renomination. A representative of The Times-Dispatch has made diligent and widespread inquiry on this line, and from nearly every source the strong belief is ventured that this potent factor in local politics will be lined up almost solidly for His Honor's return to the mayoralty.

Indeed, many who are close to the liquor dealers were stating this as a fact on the streets yesterday, and while it is said no one has actually been created by endorsing the nomination, yet word has come around that Mayor Taylor's renomination is desired by those in the liquor business. Another bulwark of Mayor Taylor's strength is said to be the police and fire departments and the health department of the city, all of

which work a considerable number of them.

To size up the situation about, as most Taylor people put it, the language of a councilman on the subject, might be quoted aptly here.

Why They Believe It.

When asked last night how the fight would go in his section, he said: "Captain McCarthy seems to have right much strength, but I do not think he can win. Mayor Taylor has a strong pull. The ins and the liquor dealers will over-balance the other side and elect him."

The relative merits of the candidates, discussed in nearly every group and almost any advocate of one will undertake on slight provocation to point out the alleged shortcomings of the other.

A Taylor man, for instance, will say that he fears Captain McCarthy might prove unable to elect, and immediately a friend of the latter will point to his winning fight for the debt settlement on a business basis and his battle which resulted in securing largely increased taxes from the railroads, together with his watchful record as city accountant, and as a sound business principle ingrained in the official life of his favorite.

Say He's Conservative?

The Taylor people bank on the conservative record of their candidate, and declare that he has refrained at all times from doing anything which might land in court matters around the City Hall. They delight to refer to this as "Honest Dick," and to the wonderful hold he has hitherto had on what he terms the "Tin Bucket Brigade."

And so the fight goes on, each side apparently hoping to elect an absolutely certain victor. In the end, when the silent ballots shall have been polled, from whose ardent there can be no appeal.

When it became so generally talked around yesterday that the liquor dealers would be largely for Mayor Taylor in the primary, there was an apparent disposition on the part of the sporting fraternity to offer odds on his renomination, though so far as could be learned, little or no money was actually put up.

Hard to Foretell.

What developments will take place in the limited time that will elapse between the 20th of April, when the votes will be cast, no living man can foretell, for it is, indeed, a struggle in which there have been and may be yet new developments at almost every turn, but it is certain that McCarthy is making it arousing the voters to a deeper interest in their municipal affairs, and will have the effect of bringing a very large percentage of those qualified to participate in the primary to the polls on election day.

In the account of the Sanger Hall meeting in Sunday's Times-Dispatch, Captain McCarthy was, by a typographical error, made to say that "offices were not" as a reward for services, when, as a matter of fact, he reiterated his oft-repeated declaration that "offices were not" created for such a purpose. In the same connection he was made to say he did not desire the office, when he said he desired it, when he said he desired it.

UPTOWN RESTAURANT.

Mr. Lawrence Formally Opens New Business Here.

Mr. Al. M. Lawrence, who for the past five years has been manager of the Commonwealth Club, has opened a modern restaurant at the corner of 11th and Main streets. On last Friday night Mr. Lawrence held a formal opening of his restaurant and had a great number of friends and relatives present. During the evening music was rendered by Foster's Quartette.

The opening of this modern restaurant will be a great boon to the up-town merchants who live a distance from business.

BARTON HEIGHTS.

Mr. C. A. Horseley, of Williamsburg, is visiting at the Seminary.

Miss Lula Beck, of Louisa, is visiting her sister, Miss Mary Beck, of Brook Road.

Mrs. Gertrude Mearns, who has been visiting Mrs. E. J. Reed, has returned to her home in Don Air.

Mr. George Wesley, of Baltimore, is visiting friends on the Heights.

Mr. A. R. Hagland, of Philadelphia, is visiting at the Seminary.

Mr. C. H. Hargrove, of Petersburg, is visiting at the Seminary.

Mr. James Cox, of Baltimore, is visiting at the Seminary.

Mr. R. H. Kildwell, who has been visiting at the Seminary, has returned to his home in Baltimore.

Mrs. Kellogg, of Newport News, will be the guest of Mrs. W. C. Cashy in a few days.

AUCTION SALES—This Day.

By Geo. E. Crawford & Co., Real Estate Auctioneers, 803 E. Main Street.

TRUSTEE'S SALE OF 72 1/2 ACRES OF LAND ABOUT 10 MILES NORTH OF RICHMOND.

By virtue of a deed of trust, dated April 2, 1902, and duly recorded in the clerk's office of Hanover County Court, Deed Book 48, page 408, the undersigned trustee, to secure a certain amount of money therein specified, as evidenced by certain notes therein described, default having been made in the payment of one of the notes, and being required so to do by the beneficiary, will sell at public auction, upon the premises,

TUESDAY, APRIL 10TH, at 6 o'clock P. M., the estate described in said deed as follows: All that certain tract, piece or parcel of land, lying and being in the county of Hanover, Va., containing 72 1/2 acres, and bounded as follows, to-wit: Commencing at a stake on the river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake; south 20 degrees west, 40 poles; south 28 degrees west, 14 poles; south 19 1/2 degrees west, 14 poles; north 72 1/2 degrees west, 50 1/2 poles to a stake; north 42 degrees west, 32 poles to a corner under river with Survey 22, poles to a stake on public road, across public road south 60 degrees east, 50 poles to a corner at White Oak Station, with Survey 22, poles to a stake;
