The Mecklenburg Hotel Is Having the Best Season in Its History

ABOUT TWO HUNDRED THERE

A Masquerade Ball and Other Pleasures—A List of the Recent Arrivals.

(Special to The Times-Dispatch.) HOTEL MECKLENBURG, CHASE CITY, VA., Aug. 20.—The Mecklenburg is filled to overflowing with new guests on every train. It is by far the most successful season in the history of Chase City and the company is one of the most delightful in its history.

Judge Bryan, of Newbern, N. C., arrived yesterday, and is the perfect type of a Southern gentleman. (Col. Washington Duke, the millionaire tobaccoist, is again at the Mecklenburg.)

W. E. Weatherly, of Baltimore, accompanied by his son, is at the Mecklenburg for an indefinite stay. Mrs. Weatherly is a charming lady and much admired by every one here.

THE DAILY BULLETIN. The Daily Bulletin, published by Manager Huddlestone, is making a decided hit and is enjoyed by every one in its use. Quite a number of raps are made at the courting couples.

Mr. Jack Cranston, of the Buffalo Lithia, came over on Wednesday with a party of five ladies and two gentlemen. They spent two days and had a good time.

Dr. Everett, of Raleigh, who has been here for over a month, left for home several days ago, much to the regret of every one at the hotel. Dr. Everett had many honors conferred on him while here, among them being unanimously elected President of the Owl Club, Big High Chief of the Fat Men's Club, Secretary of the Lunch Club, &c.

There was a masquerade ball last night in which the guests of the hotel and natives of Chase City took part. It was highly enjoyable.

This is the Mecklenburg's most successful season, and as it becomes better known it will grow more and more popular. Any one who desires a season of pure enjoyment, with splendid water, pure air, and an unsurpassed table, can do no better than to come here.

(Special to The Times-Dispatch.) SOUTH BOSTON, VA., August 20.—The delightful dance given last Friday evening by Mr. and Mrs. J. D. Tucker at their beautiful home, on Washington street, to honor their guest, Miss Katherine Howard, of Washington, D. C., was the swellest social event of the season. The pretty sloping lawns, with their growing plants and evergreens, and also the front and side porches, were illuminated with Japanese lanterns and the halls and parlors were lighted with shaded electric lights of various tints, while numerous electric fans served to cool the brow of the victim so charmed by the fascinations of the dance, music being furnished by the Danville orchestra.

The punch bowl was gracefully presided over by Miss Nellie Nolan, of Birmingham, Ala. At midnight the dainty refreshments furnished by Mr. Francisco, of Danville, consisting of ice cream in blocks of three colors (violet, sherry and rose) were served.

Miss Margaret, of Cincinnati, Ohio, is visiting Mrs. Margie Logan at her home near Salem.

Another sweet singer at Arton this season—Miss Goodwin, of Washington—has a superb voice, particularly in the singing and her lovely collection of songs has been a rare treat to the guests who assemble each evening to hear her.

THE BUFFALO LITHIA FULL

Two Hundred Guests Gathered at This Famous Resort.

ITS WONDERFUL WATERS

An Old-Timer Tells of Incidents and People Who Came for Health—Remarkable Cases.

BUFFALO LITHIA SPRINGS, VA., August 20.—Special.—From the time whereof the memory of man runneth not to the contrary, these waters have done for suffering humanity cures as miraculous as was wrought upon Naaman by his bath in the Jordan, at the command of God's prophet.

In the olden days, when "the wilderness filled the landscape," and there was no accommodation here, the sick used to camp around the place, and such as could get shelter in the neighborhood did so.

There is no kind of stomach trouble or malarial disease which the water from spring number one does not absolutely cure, and the proprietors, not only on the ground, but in the most advertised free board for all afflicted with malarial diseases who failed to be cured by the use of this water.

I was there during the war with a severe attack of jaundice, which had succeeded typhoid fever, taken in camp just before the battle of Bull Run, when the stench brought disease and death to many. My case had stubbornly refused to yield to the treatment of the best physicians, and as a dernier resort I went to Buffalo. I had no appetite and had not taken a meal for several days. It was only a few days before I was eating and enjoying "Uncle David Shelton's fine mutton and the jaundice disappeared soon.

My father was raised within a few miles of this place, and used to tell me of a woman who was brought here who had been bed-ridden for several years. She was taken in by a neighbor. The water was brought to her fresh from the spring regularly for some days. Soon she began to sit up, and again soon she got so that she could walk to the spring and sit around and enjoy the outing.

Three months after she had her husband brought to her. She had meantime gained the good will of all the neighbors who gave her a "party" the night before she was to leave for home. She who had not before for many years left her bed danced all night and went home sound in health.

The late Dr. Foote of Warrenton, N. C., a man who stood as high, both professionally and socially, as any, told me that he had Bright's disease, and while his physicians advised against it, having no hope for his recovery, he demanded to be brought here. The journey in that frail state was almost too much for him, but after getting here he rallied. He was absolutely and permanently cured of a disease whose mysterious workings have baffled the skill of the most learned men in the medical faculty.

Spring No. 2 has proven itself an absolute cure in all rheumatic, gouty, and uric diseases is now so well known to eminent gentlemen in the medical profession that whenever they find such afflictions they send them at once to this "Pool of Salom."

I had not been here before for several years, but the sight of the old place brought to my mind reminiscences—some gay, but mostly sad—for there are few of us left who used to congregate here every August—lang syne.

While a boy in the forties, when everyone was having a good time, and the grown-up people were drinking more water than anyone else, the late Hon. William A. Goode, who then represented this district in the United States Congress, capped the climax by drinking seventeen glasses before breakfast, a feat long talked of amongst all the people.

The management is semper legit alice Colonel Goode owned it. Mr. Wagstaff is one of the finest business men ever produced in this county. He seems to grasp a situation intuitively and every department shows his intelligence. The farm is in splendid shape and the making of all the cottages, and hay used. He is as modest as any young maiden here, and while his management is magnificent it is all done so quickly that he seems to think it only a matter of course.

Colonel Archer is as always "up to snuff" as a business man, feeding and entertaining his guests, and his urban smile is soothing to all with whom he comes in contact. The bon homie with which Col. James T. Alexander presides over the office calls for and receives the admiration of every one, particularly the ladies, to whom he is so polite and attentive that were it a woman I could not but love him. I missed Northern from the office, and all who knew him regretted his absence. Mr. Knight, it seems, has taken his place and is as genial and hospitable as possible.

Colonel H. M. Neely and wife, of Memphis, Tenn., are here. Colonel Neely is a lineal descendant of that Robert Irwin who signed the Mecklenburg declaration of independence, and is one of the most distinguished citizens of the South.

Cousin Tom, of Graham and family, were in the city, and it was an unalloyed pleasure to shake his honest hand once more.

Mr. H. J. Nottingham and wife, of Accomac, are very popular here and amongst others.

There are about two hundred guests at the Buffalo Lithia Springs. Late arrivals are: C. M. Burke and daughters, of Raleigh, N. C.; T. T. Hay, of Raleigh, N. C.; W. N. Jones and family, of Raleigh, N. C.; J. T. Schlez and son, of Raleigh, N. C.; W. Graham and family, Mobile, Major J. R. Turner, of Raleigh, N. C.; Dr. H. Turner, of Philadelphia; Major Judin, of Barbours; Rev. Mr. Proctor, Judge Whitehurst and daughter, Judge Wilcox and wife, of Norfolk; Mr. and Mrs. H. W. Parker, of Richmond; N. T. Moad, of Richmond; Mrs. Gonzales, of Atlanta; Mrs. Nelson, of Philadelphia.

It has been a successful season and a delightful company.

CHARLES CITY NOTES.

(Special to The Times-Dispatch.) CHARLES CITY, VA., Aug. 20.—Mrs. MALVIBER, of High Hill, left this week to spend several weeks with her friend, Miss Sadie Leigh, of South Boston, Halifax county, Va.

Miss Minnie, of Fredericksburg, is spending this month with Mrs. Robert Carter, of High Hill.

The ladies of Charles City have been very successful with their fair this year. Some of the goods of from sixty to over a hundred.

Dr. Bernard W. McCray, Mr. C. A. Motley, Mr. H. F. Cook and Mr. Charles Ferguson, of Richmond, spent Saturday and Sabbath with their friend, Charles T. Clark, of Hardens.

Mrs. J. M. Gill and daughter, Emma, spent Monday with Miss Alice Royall, at Rivermont.

If rain and warm nights make the corn grow, the farmers on the James should have immense crops of that grain to gather in this fall.

REMARKABLE OFFER OF FREE SERVICE

To the Sick and Afflicted—Cures Them in Their Own Home As Easily As Though They Called in Person—Physicians Invited to Send Him Cases Pronounced Incurable.

ROCHESTER, N. Y., Aug. 19.—The almost miraculous cures of hopeless invalids made by Prof. Thomas F. Adkin, of this city, have been of such a startling character that they have aroused widespread wonder, admiration and curiosity. Time and again he has taken cases pronounced hopeless incurable by the best medical profession, and restored the patients to life and health in a most phenomenal manner.

There is considerable mystery attached to his method of accomplishing these marvels, as it is known that he does not use the drastic drugs and medicines that doctors depend upon. He claims to have discovered that a certain law of nature has peculiar properties heretofore unsuspected, and that by the application of this law there is no disease he may not cure. And it is a matter of proof that with the mysterious power this discovery gives him he has made the blind see and the lame walk. He has revived the flickering spark of life in bodies on the very verge of the grave, and restored to health men and women given up to die by doctors and specialists. He seems to have absolute control over human life and the diseases that attack it. Notwithstanding what might be considered a most favorable opportunity, he does not extort money from those whom he treats, saying:

"I prefer to give life and health. I am not a millionaire, but I am well able to afford to give my services free to the sick and afflicted. My discovery is my own, and I do with it as I please and I would charge every patient a thousand dollars if I wanted to. But I don't. And I know of no law to compel me to take money for restoring a man to health. I do not care that the disease is, I am just as ready to cure consumption, cancer, paralysis, Bright's disease or any one of the so-called incurable diseases as I am to cure rheumatism, stomach trouble, catarrh, female weakness or any other ill that flesh is heir to. I am just as ready and willing to give my services free to a poor man as I am to a rich man. When it comes to a question of life or death, sickness or health, the amount of money a man has makes no difference to me."

"A prince or a pauper, I treat them just the same. To me, as to the law, all persons are equal. I see and admit of no difference between patients as far as I am concerned. If I choose to help all who are ill without pay there is nothing to prevent my doing so. And I may as well tell you right here that I mean to keep on curing any one who asks me of any disease they may have just as long as I am willing and able. What other men do, what they fail to do or what they charge makes no difference to me. I feel that it is my duty to carry out my own plans in my own way, however they may seem to you. I cannot bear to think of men and women and little children continuing to suffer and die when I have the power to cure them and to restore them to life and health so easily and quickly. And there is no disease I may not cure."

"Do you think that a husband, living here? Well, my dear, I can't but wonder that the truth, I know the wonderful power

"I have because I have tested it in thousands of cases. You wish to know how it is to be incurable. Well, not long ago I had a young lady as a patient. Miss H. L. Kelly, of Seal Cove, Maine. The doctors said she had consumption and could not live, that her case was incurable. And to them it was. 'The poor girl was so despondent,' thinking her in spite of all the doctors said; made her lungs heal and grow strong, and put the flesh back on her wasted body. Ordinary medical treatment seldom, if ever, cures cancer. The surgeons may cut it away again and again, but it comes back. I cure it, and I do not have to resort to the butchery of the knife, either to the doctors or the patient. She had been in a terrible death before when I took her case, but I cured her, entirely and permanently. Paralysis is another supposedly incurable disease. A Mr. R. A. Wagon, of Finesville, Me., was paralyzed for over four years and nothing the doctors could do gave him any relief. That did not discourage me. I took the case in the face of their verdict and to-day the man is walking around as well as you or I. So it was with Mrs. L. A. Phillips, of Finesville, Me. She had been in various hospitals and under the treatment of various doctors, who all failed to cure her. She was suffering, including kidney trouble, catarrh of the bladder, gravel, female weakness, nervousness. The medicine that doctors gave her did her no good, but my treatment did. I cured her, and she is now as well as you or I. These are only random cases from the many hundreds I have cured, and I mention them to you and you want to know more of how I cure any disease tell some one who is sick to write to me.
