

ESTIMATES FOR SUPPORT OF NAVY

Recommendations of Department to Congress Have Been Made Public.

SOME THINGS IN THE LIST

Appropriation of \$200,000 for Government Hospital at Norfolk.

Growth of the Navy.

(From Our Regular Correspondent.) WASHINGTON, D. C., November 23.—The estimates of the Navy Department, showing the amount needed for the maintenance of the navy for the ensuing fiscal year, which Congress will be asked to appropriate, have been made public. Among the items for which appropriations will be asked are the following:

Bureau of yards and docks: Norfolk navy-yard, \$16,618,375, the same as appropriated for 1933; extension of railroad tracks, \$5,000, the same as for 1933; piers and slips, \$100,000, same as for 1933; dredging, \$6,000, same as for 1933; extensions of electric plants, \$20,000, same as for 1933; paving and grading, \$10,000, same as for 1933; railroad rolling stock, \$3,000, same as for 1933; extensions of fire protection system, \$10,000, decrease of \$5,000; extensions of heating systems, \$5,000, increase of \$3,000; locomotive, \$5,000, same as for 1933.

New Appropriations.

Underground conduit systems, \$15,000; improvement to 100-ton shears, \$15,000; telephone system, extensions, \$2,000; sewers, extensions, \$5,000; office for paymaster of yard, \$12,000; water closets at fitting out basin, \$5,000; plumbers' shop for \$1,000; iron and rivet, \$17,000; electric elevator, building, No. 11, \$4,000; wharf extension at St. Helena, \$5,000; roads at St. Helena, \$4,000; storehouse and loading room for clothing at St. Helena, \$3,000; house for contagious diseases, \$2,000; coal pier and coal storage (to cost \$100,000), \$50,000. Total for the ensuing fiscal year, \$272,000.

The total appropriated for the fiscal year, 1935, was \$388,000. The decrease this year is owing to the fact that \$100,000 was spent last year in purchasing more land, and \$250,000 was appropriated for the continuation of the work on the dry dock.

An appropriation of \$200,000, under the head of public works, for the construction of a new hospital at Norfolk, is asked for the government hospital at Norfolk.

An appropriation of \$15,000 for the construction plant at the Norfolk yards asked for by the Bureau of Construction and Repair, the same as is now appropriated.

For the officers' quarters a new appropriation of \$20,000 is asked, and an appropriation of \$50,000 for a water tower.

The items—the hospital, the construction plant, officers' quarters and water works—bring the total amount the government will be asked to appropriate for the Norfolk yard to \$387,000, which is still considerably less than the appropriation for the fiscal year ending in 1934.

Growth of the Navy.

The following recapitulation of the estimates of the support of the navy for the fiscal year ending in 1935 will prove of interest as showing the growth of the navy: Pay of the navy, \$19,224,093, at present, estimate 1933, \$20,600,000; pay, miscellaneous, \$600,000, no change; contingent, \$63,000, no change; Bureau of Ordnance, \$1,200,000, last year, estimate for 1935, \$1,200,000; Bureau of Ordnance, \$3,765,706.75, last year, estimate for 1935, \$3,765,706.75; Bureau of Equipment, \$6,498,028, last year, estimate for 1935, \$6,498,028; Bureau of Yards and Docks, \$12,704,922, last year, estimate for 1935, \$12,704,922; Naval Academy, public works, \$3,000,000, last year, estimate for 1935, \$3,000,000; California Training Station, \$18,000, last year, estimate for 1935, \$18,000; Rhode Island Training Station, \$14,000, last year, estimate for 1935, \$14,000; Naval War College, \$8,125,000, last year, estimate for 1935, \$8,125,000; Great Lakes Training Station, \$35,000,000, last year, no estimate for 1935; United States Naval Home, no appropriation; California Academy, \$100,000, 1933; Public Works, Bureau of Ordnance, \$319,000, last year, estimate for 1935, \$319,000; Public Works, Bureau of Equipment, \$7,500,000, last year, estimate for 1935, \$7,500,000; Public Works, Bureau of medicine and surgery, \$50,000, last year, estimate for 1935, \$50,000; Bureau of Medicine and Surgery, \$250,000, last year, estimate for 1935, \$250,000; Bureau of Supplies and Accounts, \$2,202,382.28, last year, estimate for 1935, \$2,202,382.28; Bureau of Construction and Repair, \$8,105,824.26, last year, estimate for 1935, \$8,105,824.26; Bureau of Steam Engineering, \$3,672,000, last year, estimate for 1935, \$3,672,000; Bureau of Construction and Repair, \$1,222,720, last year, estimate for 1935, \$1,222,720; Bureau of Steam Engineering, \$19,250,000, last year, estimate for 1935, \$19,250,000; armor and equipment, \$12,000,000, last year, \$14,000,000 estimated for 1935, no appropriation last year, estimate for 1935, \$846,000. Disciples' Union Service.

The special services being conducted at Seventh Street Christian Church by Rev. J. E. Pounds and wife, of Cleveland, Ohio, continue to grow in interest, and there are additions at nearly every service. The union Thanksgiving services of the Disciples of Christ will be held at seventh street church this morning at 11 o'clock. Rev. J. J. Haley delivering the sermon. The offering will be delivered among the W. C. A. at the Retreat for the Sick and the Home for Incurables.

Easy for the Police.

The police had practically nothing to do last night in the way of arrests. The center of population was from Tenth to Seventh and Broad, and very little was doing, so far as the police were concerned. Despite the fact of the large crowd there was no disorder at all, and as a consequence the police had little to do but look wise.

Woggle Bug Party.

There will be a Woggle Bug Party at the Bickers home, No. 410 North Twenty-seventh Street, to-morrow night for the benefit of the Bantick Children's Club and the Nineteenth Street Mission's hospital. Mr. Bantick will be requested to represent the celebrated bug.
