

COULD NOT HOLD VIRGINIA MAN

Governor Montague's Rendition Warrant Would Not Hold.

TWO MURDERERS MUST HANG

New Officers for the Reorganized Bank at Fayetteville.

(Special to The Times-Dispatch.)

RALEIGH, N. C., March 22.—Governor Glenn has revoked a warrant he issued some days ago honoring a requisition from Governor Montague, of Virginia, for Edward McKinney, now of Taylorsville, Alexander county, who is wanted in Grayson county, Va., on the charge of taking a watch from I. B. Bryant. There is no precedent in the history of the State for such a revocation, but the Governor says the developments satisfied him that this was not a case in which such a requisition would apply, the offense, according to the evidence, not seeming to be larceny at all. Mr. J. L. Gwaltney, of Taylorsville, was here to appear before the Governor in the interest of McKinney; and he procured an order for the release of the prisoner from custody.

The Governor grants a conditional pardon for James Burdine, colored, from Henderson county, who has served fourteen years of a twenty year sentence for manslaughter. The pardon is under the act of the recent Legislature, empowering the Governor to issue such pardons to hold good during the good behavior of the convict.

TWO MUST HANG

The Supreme Court hands down eighteen opinions, the first in two weeks, two murder cases being among them. These are Dan Teachy from Duplin county, under sentence to be hanged for killing W. Robert Ryermark, in Duplin county, and the other Will Ekum, under a similar sentence for the murder of Guy Walkston in Lenoir county. The Supreme Court holds in both cases that the trials below were without error, and in every way fair. So that there is nothing left, but for the prisoners to pay the death penalty unless there is executive clemency, and this is not at all probable.

Governor Glenn to-day paid a \$250 reward for the capture of Tom Hunt, a white man, charged with burglary and murder in Robeson county. The prisoner has been delivered to the sheriff of Robeson.

MILK ORDINANCE

The Board of Aldermen of Raleigh are having drafted for adoption a stringent ordinance for the regulation of the milk supply of the city, under the direction of the City Board of Health. The plan is to provide for the regular inspection of cows and milk, as handled by each dairyman, no milk to be sold except by those holding licenses issued after inspections. It is announced that J. O. Wilmington, State bank examiner, under the Corporation Commission, will resign to become vice-president and general manager of the Bank of Fayetteville, which is now being reorganized after his recent failure to resume business April 10th. It is not known who will be his successor. Mr. Miller Hughes, also of Raleigh, will become cashier of the reorganized bank.

In the case against Paul Young, from Wilmington, involving the right of courts to sentence persons convicted of assault and battery to terms in the public roads in this State, the Supreme Court handed down an opinion written by Chief Justice Clark, in which it is held that the General Assembly having under the authority of the Constitution adopted work on the public roads as a part of the punishment for misdemeanors and crimes, the Supreme Court has no power to declare such sentences void.

ROMANTIC MARRIAGE

The Ceremony at 3 o'Clock in the Morning.

(Special to The Times-Dispatch.) WILMINGTON, N. C., March 22.—There was a romantic marriage in this city at 3 o'clock this morning of Mr. O. L. Richardson of Richmond, Va., and Miss Florence White, of Florence, S. C. Rev. Harold Thomas, pastor of the Chapel of the Good Shepherd, officiating. The groom-attended to the register of deeds after 2 o'clock, and the officier, in order to be on the safe side, called by long distance telephone the mother of the prospective bride and ascertained that the young woman was of age. Then the license was issued. The bride was in the telephone exchange at Florence, but was temporarily transferred to Mullins, S. C., and took advantage of the change to make the trip to Greensboro.

A Big Industry

(Special to The Times-Dispatch.) SPENCER, N. C., March 22.—In order to meet the growing demands upon its shops at this place, the Southern Railway Company has increased the working hours of the entire force of employes in every department. The number of employes has also been materially increased and new men are being added to the payroll every day. A night force is likewise employed at night. The payroll for this month is said to have been the heaviest in the history of the shops.

Jeffries to Meet Higashi

(Special to The Times-Dispatch.) NEW YORK, March 22.—James J. Jeffries has accepted the challenge of Higashi, the Japanese wrestler, for a meeting of the rough and tumble order.

Counteracting Effects

A woman in Sydney, Australia, thinking to make a sure thing of it, injected into her veins three doses of arsenic, with the result of counteracting the effects of the arsenic and her attempt at suicide was not a success.

Armour's Extract of Beef

may be served in soups, gravies, etc., at the cost to each person of about one cent a meal. A penny that earns big health dividends. Our cook book "Culinary Wonders" mailed free. Armour & Company Chicago

MRS. INA M. LOWRY.

You Can Feel Better at Once!

When everything seems an effort, when you feel tired most of the time, when you wake up every morning as tired as when you went to bed—then there is something wrong. Nature is protesting against some neglect or some abuse. Nature protests more often against nerve neglect than any other cause. Remember, your strength is not in your muscles—the muscles simply work when the Nerve Force tells them to. Even your brain does not work by itself—the substance in your brain cells must have energy to do its work; this energy must be nerve force—the same great power-of-life that controls every organ of the body. Every form of weakness, or sickness, or disease, comes from a lack of Nerve Force to keep the organs working properly. When one speaks of "a good constitution," one simply means a strong, healthy nerve system. When the nerve system is not strong and well-nourished, it follows inevitably that one is easily "over-worked"—easily run down—just as Mrs. Lowry describes.

"For several months my system had been run down and I felt all worn out, tired, did not feel able to get out of bed in the morning and felt just as tired when I got up as when I retired. Had no appetite and looked pale and sallow. A friend who had used Paine's Celery Compound a couple of years ago, and who recommended it very highly, induced me to try it. I felt better at once and I found that at the end of six weeks it had changed me into a well woman, and I cannot say too much in its praise. I shall take a bottle every Spring and Fall and feel sure that it is all the medicine I shall need. Very truly yours, Mrs. Ina M. Lowry, 3109 Dunham Ave., Kansas City, Mo. (Worthy Matron Order of Eastern Star; Rec. Sec. Kansas City Friendly Aid Society.)

Paine's Celery Compound is giving new Nerve Force to thousands every day by feeding and restoring the nerves to their full strength. It never fails to build up the run down system to full, ruddy health.

Two days' treatment proves its marvelous power. You feel better at once.

Try Paine's Celery Compound to-day. Take just one dose when you go to face the hard part of the day's trials.

See how much better you feel. See how much more easily the trials roll away. Paine's Celery Compound feeds the nerves—restores them to their strength—gives them new power to send vitality and health to every part of your body, new courage to your heart, new animation to your brain.

Remember this—Paine's Celery Compound is the prescription of one of the most famous physicians this country has ever known, Prof. E. E. Phelps, of Dartmouth University.

All reputable druggists recommend and sell Paine's Celery Compound.

WELLS, RICHARDSON & CO. BURLINGTON, VERMONT.

A COLONIAL DRAMA SPLENDIDLY PLAYED

"Captain Barrington," at the Academy, a Well Staged Production.

Few plays of the colonial period, dealing with the Revolutionary War are more thrilling than "Captain Barrington," which was presented at the Academy last night by Mr. William Bramwell and his excellent company. The climax of the third act, a splendid revival of his big success, "The Glided Fool," will be the attraction Tuesday night at the Academy. Seats will go on sale to-day at the box office.

Mr. Bramwell played three roles, that being Captain Barrington, George Field and General Washington. He made some very quick changes, and did excellent work in all these roles. All of the members of the cast were entirely capable, and gave a satisfactory portrayal of their respective roles.

"Captain Barrington" will be repeated to-day, matinee and evening.

Rose Coghlan Next.

Rose Coghlan and Howard Kyle will make up a double star programme headline for the Academy Saturday matinee and night. The play that brings two such prominent players to Richmond at a time is "Diplomacy," the famous piece by Sardou.

Miss Coghlan has received the universal judgment of having made the best if not the only entirely satisfactory Countess Ziska. Mr. Kyle, perhaps one of the day, will play the leading male role and he is considered a worthy successor to Charles Corlihan, now dead.

The cast, it is promised, will be made up of excellent people and the settings will be sumptuous.

De Wolf Hopper. In the revival of "Wang," DeWolf Hopper, who was last seen here in "Mr. Pickwick," will come to the Academy next Monday night and this star has so long been a favorite of the Richmond people that a big and representative audience is promised him. Mr. Hopper will bring one of the largest comic opera companies on the road. The costumes are reproductions of those which made the piece famous and the scenery the same that attracted such big patronage at the Lyric Theatre in New York for the past year and a half.

Mr. Goodwin Tuesday. Richmond has had nearly all of the big successes of New York this season and many notable revivals. Nat Goodwin, in a splendid revival of his big success, "The Glided Fool," will be the attraction Tuesday night at the Academy. Seats will go on sale to-day at the box office.

LETTER TO THOMAS B. HICKS

Dear Sir: The cheap paint to buy is the one that covers more than you think, the cheap one to wear is the one that young when old.

Mrs. Moore, of Kelsey, N. Y. bought 10 gallons Devco to paint her house two coats; her painter said it would take that. Had 4 gallons left.

Mr. James Ackley's house, in Cairo (Catskill Mountains), N. Y. was painted Devco; it wore 14 years; and the paint was in good condition then. He was going to paint; the last we knew, though, that's the way to preserve a house; repaint when there's no occasion.

Yours truly F. W. DEVOE & CO

How do I know, she plaintively asked, "that you haven't told me all this so you could get the privilege of hugging and kissing me for a while?"

"Oh, well, if you want proof of my sincerity, I'll promise not to hug or kiss you until you are married."

"No, George, no!" she cried, "don't say that! Think me foolish if you will, but don't think me cruel!"—Chicago Record-Herald.

PEOPLE OF SOUTH FORGE TO FRONT

Are Awakening to Their Opportunities and Taking Advantage of Them.

LYNCHBURG'S FINE EXAMPLE

Has Come to be One of Leading Manufacturing and Distributing Points of South.

To the careful student of economic conditions, the awakening of the Southern people to their own peculiar opportunity, the immediacy of which is scarcely comparable, carries with it a sense of extreme gratification. When the theory was practically demonstrated that our section could successfully make into the finished product the raw material, such for instance, as cotton, iron and hides, thus turning into money for the benefit of the southern consumer the varied advantages arising from climatic conditions, cheap labor and saving of carriage charges, the first step was taken to revolutionize our industrial situation. It is now seen that our people were as nearly independent as it is possible for a section to be and could provide within itself the supply for every demand, with something to spare for the outside world.

PROBLEM OF DISTRIBUTION. The second problem in southern development was the problem of distribution. No product of the skill of man, however perfect, would ever become of general use if there were no means of moving it to the outside world, but like a light under a bushel would fret itself away in obscurity. The necessity, however, furnished itself and simultaneously with the producer the distributor became a factor in the field of commerce. For years the merchant, who supplied the needs of the community, made annual trips to the northern markets to secure his stocks, for the southern wholesaler was an alien. The southern manufacturer would have to send his goods to the North for sale, but to obviate the necessity of certain points advantageously located, wholesale houses were organized to take care of this business, an army of salesmen invaded the territory, the southern distributor, the trade from the accustomed channels with offerings so advantageous to the southern buyer that the great houses of the North once dependent upon the southern orders, have abandoned the field to their enterprising southern competitor.

To subsidize every available inch of tributary territory, the southern distributor has had to contend for every broad for the keen business man of the North has not given up this lucrative outlet without a struggle. Our people have combated the conditions and demonstrated their ability to meet every form and kind of competition in the South, with in her own borders supplying every part of the machinery for production and distribution.

LYNCHBURG'S FINE EXAMPLE

As an evidence of the character of remarkable enterprise that has become so manifest may be mentioned the merchant body of Lynchburg, Va., whose full page double-colored advertisement appears in this issue of the Times-Dispatch. As opponents of the retail trade, they are hearty business co-operation and a liberal spirit of enterprise they are undoubtedly the leaders. Twenty years ago the city was dependent upon the outside for the manufacture of tobacco. A small number of its larger retail merchants attended the county court roundabout the place, the purpose of which was to sell and distribute every thing and her bustling, salesmen are everywhere in the South, with the city as the leading shoe market in the South and ranks among the first six in the whole country. She stands at the head in the distribution of dry goods and notions and along every other line of supply for southern consumption she is truly a leader.

The quality of the men behind the mercantile machinery which has raised Lynchburg in twenty years from business obscurity to the prominent place among the markets of the South, bids fair to see the accomplishments of their great ambition, that what St. Louis is to the South, Lynchburg shall be to the new, awakened and rehabilitated South.

SERIOUSLY ILL.

Mr. J. H. Overby, Veteran Clerk in Auditor's Office in Hospital.

The many friends of Mr. John H. Overby, a veteran clerk in the office of Auditor of Public Accounts in Maryland, who doubtless he grieved by his serious and even dangerous illness. Mr. Overby is now a patient at the Memorial Hospital, where his condition is being guarded by the best medical skill. Mr. Overby has long been employed in the auditor's office and is widely known throughout the State. His brother-in-law, Mr. D. O. Overby, has been notified of his condition.

Mr. R. T. McLeod, another employe of the auditor's office, all at the Memorial Hospital, suffering from a relapse from grip. He was ill a fortnight ago, but became well enough to venture out. A few days later he had to return to the hospital.

FIVE PROFESSED.

Largest Congregation Yet at the First Church Meetings.

Last night's meeting at the First Baptist Church, where Rev. George W. McDaniel, the pastor, is carrying on evangelical services, was the best he has had. The crowd was very large, it being necessary to turn the side rooms and the gallery into chairs for those who had come to hear the gifted speaker.

The interest is becoming greater each day, great numbers of young men and ladies being in attendance. Dr. McDaniel preached a touching sermon, and his response to the audience was grand. Numbers also asked an interest in the prayers of the church.

Dr. McDaniel will preach to-night at 8 o'clock in the lecture room, and a service will also be held in the church at 10 o'clock. All are cordially invited to attend these meetings. Young men and ladies are especially invited to be present.

CONTEST FOR A BOY.

All the Idle Negroes in Norfolk Being Put Under Arrest.

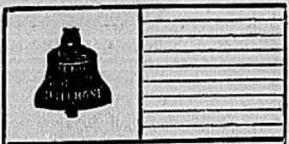

(Special to The Times-Dispatch.) NORFOLK, Va., March 22.—The contest for the possession of a boy, Kirkland J. Lambert, began by habeas corpus proceedings in the Court of Law and Chancery to-day by the order of Judge W. E. Martin. The father of the boy shall bring him into court on the 24th, Henry C. Godfrey, who enters suit, declares that he is the father of the boy, and the boy and his mother had control of his property and his person since January 15, 1902. Recently the boy was taken to a hospital for an operation, and before he called to take him home, the boy's father, Charles Lambert, had called and taken the boy to his home. Mrs. Lambert, the wife of Charles Lambert, refused to surrender his ward and declared she would not give up the boy. Godfrey attempted to take him by force from her house. The indications are that there will be a strenuous contest between the two men, but that the boy has been living, and the father of the child, for possession.

Chief of Police Boush has given the

police orders to gather in all idle negroes in the amount of street corners and have no visible means of support. They are arrested as vagrants and for some days now Justice Simmons has been sending such defendants to jail in default of good behavior bonds. Chief Boush says that there is plenty of work in the city for men of all classes to keep employed and fitness and street loafing will not be tolerated. Consequently the police are busy and the jail is filling rapidly, for there are hundreds of vagrant negroes. They depend on the livelihood they can get from the women who work as domestics and bring food and clothes from the houses of the white people where they work.

HOW TO CURE RHEUMATISM.

Thousands of people are suffering in agony from rheumatism in its various forms. There are other thousands who have suffered these same agonies, but who have been entirely cured by the use of Larrabee's Rheumatic Liniment. This remedy has been known and successfully used for over three-quarters of a century, and its wonderful curative powers are attested by thousands of voluntary testimonials from people who have been cured of rheumatism, neuralgia, lumbago, toothache, backache, catarrh, etc. Rheumatism succumbs immediately to the wonderful powers of Larrabee's Rheumatic Liniment, and, in fact, it may be said that neither pain, nor ache, nor any description can withstand a few applications of this marvelous cure. Larrabee's Rheumatic Liniment is manufactured by the Carrollton Chemical Co., of Baltimore, Md., and is sold by druggists at 25 cents a bottle. If preferred, it will be mailed on receipt of price.
