

DANIEL WILL TAKE THE STUMP

The Senator Expects to Help Elect Judge E. W. Saunders in the Fifth.

VIRGINIANS HAVE FLITTED

Washington Now is in the Throes of an Ice Famine.

(From Our Regular Correspondent.) WASHINGTON, D. C., July 2.—Senator Daniel will participate in the Virginia campaign this fall. He does not expect to make many speeches outside of the Fifth District, where Judge E. W. Saunders is the candidate to succeed Mr. Ewanon.

"I think there is no reasonable doubt of the election of Judge Saunders," said Senator Daniel, to-day. "He is one of the ablest men in the State, and deserves, and will doubtless receive the honor of representing a portion of the State in the House of Representatives. He will be a credit to Virginia in the halls of Congress."

The Senator has several matters here requiring his attention, so that he will not be able to go to his home, near Lynchburg, for several days. The Virginians Have Flitted. Senator Martin is in Albemarle enjoying the cooling breezes at "Scottlands," his country home. Mrs. Martin and the children preceded him thither some weeks ago.

Mr. Flood, of the Tenth District, is at Winchester, visiting his relatives, but he will go to Clifton Forge to deliver an address at the Fourth of July celebration in that place. Representative Lamb will deliver a Fourth of July address at Lanexa. Representative Maynard has an invitation to make one of the "short" talks to be given at the Tammany Hall Fourth of July celebration, but he does not know whether he will accept. Representatives Jones, Hay, Glass, Rixey, Slemp and Southall are luxuriating at their country homes, keeping cool, and possibly dreading the time when they will have to fare forth to do battle for their seats, all save Mr. Southall, who has declared he does not want to come back here, and will allow Mr. Lassiter to do the floor-walking, and the general worrying.

New Canal Commission. Immediately after the adjournment of Congress the President appointed the following Isthmian Canal Commission: Theodore P. Shonts, chairman; John H. Stevens, Charles E. Macgregor, F. C. Haynes, U. S. A. (retired); Mordcaid and Benjamin M. Harrod, C. E., U. S. A. Mr. Stevens, who is chief engineer, becomes a member of the commission. He takes the place of General Oswald H. Ernst, who retired from the active list of the army recently and will hereafter devote himself to the work of the International Waterways Commission. It was announced at the office of the commission in this city to-day that Mr. Stevens would continue to draw his salary as chief engineer, and that he would not receive additional compensation for serving as a member of the commission.

The feature of the appointments, to make use of a genuine Irish pig, is the non-appointment of Joseph Bishop, whose nomination as one of the commissioners was sent to the Senate last December. Bishop was employed by the President at a salary of \$10,000 a year, and it became evident that it would be a difficult matter to get an appropriation for the canal work unless Bishop was got out of his salary.

The President, therefore, made Bishop a member of the commission and also secretary of the body. But the Senate would not act on the appointments, allowing all of them to go over, because Bishop was named as a member of the commission, to have charge of the work of constructing the canal. The feature of the President's nomination to act as a recess appointee is taken to mean that he will not longer fight to have him kept in his good place. Bishop remains the secretary of the commission.

Washington Has Ice Famine. Washington is in the grasp of an ice famine. It is claimed that in a few days the manufacturing plants of the city can supply but one-third of the demand, and that the rest will be much suffering from the scarcity.

The confectioners of the city have united in a scheme to erect an ice manufacturing plant, and work is expected to begin within a week. Much suffering has already resulted from the shortage of ice, even hospitals being unable to obtain the usual supply. Ice is quoted at \$10 a ton to-day, and it is expected that the price will advance to \$20 on the Fourth of July. The dealers have been saying repeatedly that there were several cargoes of ice on the way here from Maine, but investigation by the confectioners has revealed the fact that no ice has been shipped from Maine to Washington.

"Especially the BUFFALO LITHIA WATER of Virginia."

For Bright's Disease, Albuminuria, Renal Calculi, Gout, Rheumatism and All Diseases Dependent Upon a Uric Acid Diathesis.

Samuel O. L. Potter, A. M., M. D., M. R. C. P., London, Professor of the Principles and Practice of Medicine and Clinical Medicine in the College of Physicians and Surgeons of San Francisco, Cal., in his "Hand-Book of Materia Medica, Pharmacy and Therapeutics," in the citation of remedies under the head of "Chronic Bright's Disease," says: "Mineral waters, especially BUFFALO LITHIA WATER of Virginia, has many peculiarities. BUFFALO LITHIA WATER is highly recommended." Also, under "Albuminuria," BUFFALO LITHIA WATER is mentioned.

George Walsted Boyland, A. M., M. D., of Paris, Doctor of Medicine of the Faculty of Paris in the New York Medical Journal, August 22, 1896, says: "There is no remedy as absolutely specific in all forms of Albuminuria and Bright's Disease, as BUFFALO LITHIA WATER, whether acute or chronic, as BUFFALO LITHIA WATER, Spring No. 2, accompanied by a milk diet. In all cases of pregnancy, where albumin is found in the urine, as late as the last week before confinement, if this water and a milk diet are prescribed, the albumin disappears rapidly from the urine and the patient has a positive guarantee against puerperal convulsions."

T. Griswold Comstock, A. M., M. D., of St. Louis, Mo., says: "I have often prescribed BUFFALO LITHIA WATER in Gouty and Rheumatic conditions and in Renal Calculi, accompanied by Renal Colic, and always with the most satisfactory results. In Renal Calculi, where there is an excess of Uric Acid, it is especially efficacious."

Medical testimony which defies all imputation or question mailed to any address. BUFFALO LITHIA WATER is for sale by druggists and grocers generally. Hotel at Springs now open. PROPRIETOR BUFFALO LITHIA SPRINGS, VA.

LIBRARIANS TO DIVIDE SESSION

One Week of Convention in North Carolina and Other in Virginia.

FINE SPEECHES DELIVERED Kennedy Calls Attention to Value of Divorcing Library from Politics.

(Special to The Times-Dispatch.) NARRAGANSETT PIER, R. I., July 2.—One of the most important sessions of the convention of the American Library Association, now in progress here, was held to-day. It was a joint meeting of the library department of the National Educational Association and the American Library Association. The speakers were Dr. Nathan C. Shaeffer, Superintendent of Public Instruction of Pennsylvania; Dr. Jasper N. Wilkinson, president of the Kansas State Normal College, and Clara W. Hunt, superintendent of the children's department of the public library of Brooklyn, N. Y. Dr. Shaeffer sounded the keynote of the meeting when he said that the National Educational Association had come to realize that the school could accomplish comparatively very little without the aid and co-operation of the library.

Clearing-House Library. The branch known as the National Association of State Librarians held its third and last session with Mr. John P. Kennedy, State Librarian of Virginia, in the chair. Among other things, there was a discussion of a clearing house for State publications. State documents are becoming so numerous that many of the smaller libraries have no room for them. Their value, however, is so apparent that it was suggested that some great libraries centrally located in the greater divisions of the United States act as depositories and clearing houses for this source of information.

The following are the officers newly elected and those retiring: President, James L. Gillis, State Librarian of California, succeeds John P. Kennedy, of Virginia.

First Vice-President, Thomas L. Montgomery of Pennsylvania, succeeds James L. Gillis, of California.

Second Vice-President, Herbert O. Brigham, of Rhode Island, succeeds Mrs. Mary C. Spencer, of Michigan.

Secretary and Treasurer, Miss Minnie M. Oakley, of Wisconsin, succeeds herself.

Mr. Evans Speaks. The first general session of the convention of the American Library Association, held at the Mathewson Hotel, at Narragansett Pier, on Saturday afternoon.

Among the speakers were Hon. Frederick H. Jackson, Lieutenant-Governor of Rhode Island, and Harry L. Koopman, Librarian, Brown University, Providence, R. I. The meeting was presided over by Mr. Frank P. Hill, Librarian of the Brooklyn Public Library, and president of the American Library Association. Matters of interest to Virginia, and especially Richmond, came up for discussion. During a special session of the executive council held during the morning, Messrs. Edw. S. Evans, of the Virginia State Library, and William Henry Bergant presented invitations from the Governor, Mayor McCarthy, of Richmond; the Virginia Library Association, the Richmond Education Association, the Teachers' Co-operative Association, the Chamber of Commerce of Richmond, the University of Virginia, the Richmond College, and the Jamestown Exposition. In presenting the invitations Mr. Evans made a strong plea for Richmond as the proper place for the next place of meeting.

Matter Compromised. Mr. Evans' argument was greeted with applause, and when the delegates withdrew they were hopeful of a success. During the afternoon session, however, it came out that North Carolina, represented by Miss Annie S. Ross, of Charlotte; Louis B. Wilson, of the University of North Carolina, and W. F. Randolph, of Asheville, had settled on their side. For two years they had been endeavoring to influence the American Library Association to hold their convention in Asheville, N. C., and the council felt that some compromise was due them, so that it was finally decided to compromise the matter by having the association hold one week of its convention in North Carolina and one week in Virginia.

Mr. Kennedy of the Virginia State Library made a strong address in the afternoon before the National Association of State Librarians, which is now a branch of the American Library Association. He advocated a higher standard for State libraries, saying that the field of work for the State Librarian was only limited by his individual energy and resources; that State libraries, if removed from politics, could be made to hold the same relation to the State that the Library of Congress holds to the United States.

SECRET SERVICE CHIEF OF PRESIDENT ARRESTED

Charged With Assaulting Photographer at Oyster Bay—President Has First Day of Complete Rest.

(By Associated Press.) OYSTER BAY, N. Y., July 2.—President Roosevelt had had his first day's rest and complete relaxation from official cares since Congress assembled last December. All work was barred at Sagamore Hill to-day. The routine of official business was conducted in the executive office in Oyster Bay by Secretary Loeb, without the aid of his chief and without even using the direct telephone between his desk and the library at the President's house. The President was not disturbed by callers, his Oyster Bay neighbors contenting themselves with the promise of a speech on the Fourth, when they will then extend their summer welcome. James Sloan, chief of the President's Secret Service Corps, was placed under arrest this morning as he came from duty at Sagamore Hill. Jack McQuaid, the village constable, served the warrant, which had been sworn out by Clarence Legendre, a New York photographer, charging Sloan with assault in the third degree. An appearance was entered at once before Squire Franklin and Sloan was released on his own recognizance to appear for trial next Monday.

The arrest was the result of interference by the Secret Service men yesterday in the endeavor of Legendre to take a snapshot of the President as he crossed his carriage at the station here. Legendre claims Sloan hit him in the face after the photograph was taken and the President had driven away. The Secret Service men say they have previously had trouble with Legendre.

MEAT INSPECTION TO BE THOROUGH

Secretary Wilson Will Postpone Vacation and Give Entire Time to Work.

(By Associated Press.) WASHINGTON, D. C., July 2.—Secretary Wilson has decided not to enter upon his annual vacation, but to complete the organization necessary to put into operation the new meat inspection law. He will give practically his entire time to this work for the next two months. The new pure food law will require attention. The Secretary to-day issued the following statement: "The inspection of live stock and the healthiest in the world. The great ranges of the West produce herds of cattle in which the percentage of disease is remarkably small, and the Federal government is steadily reducing, by approved scientific methods, this small percentage. The inspection of the animals before and at time of slaughter has always been thorough. It is true that the Department of Agriculture has heretofore lacked the power and the money to provide for an efficient supervision of sanitation and the methods of preparation of canned meat food products.

Law Effective. "The legislation which has just become effective, provides the Department of Agriculture with an adequate law and with ample money to carry it into effect. Supervision and inspection will be extended from the pasture upon the canning of the product, not only of the healthfulness of the animal, but also that the product was prepared in sanitary surroundings and with the addition of no deleterious chemical or preservative. Any meat food product bearing the government stamp will be fit for food.

"With this in mind, it may be accepted as a fact, that for healthfulness and purity the prepared canned product will compare favorably with the fresh meat of the United States, which is, and always has been, the finest in the world.

"The new law is comprehensive, and means for its enforcement are ample. Its execution will be thorough. People at home and abroad may use our meats in confidence."

Lieutenant-Colonel P. E. F. Hobbs, of the British Army, to-day visited Secretary Wilson with a view to getting his assistance in investigating an American meat product. Colonel Hobbs was assigned to the commissary department of his army to inquire into contracts which the British government has with American packers. When the new inspection law has been put into operation, Colonel Hobbs said, the British government will willingly accept American inspection.

TAWNEY DEFENDS CONGRESS RECORD

(By Associated Press.) WASHINGTON, July 2.—Representative Tawney, chairman of the House Committee on Appropriations, has proposed a detailed statement concerning the appropriations for the fiscal year beginning July 1, 1906, made by Congress during the session just closed, in which he claims that the per capita cost of government in the United States, including Territory and State, is less than that in any European country.

Mr. Tawney enters upon an analysis to show the various channels into which the total appropriation of \$80,183,301 will be diverted. He begins by deducting \$18,458,415 provided for the sinking fund on the Panama Canal, etc., leaving that for the government for the fiscal year is \$71,724,886. To meet this demand he estimates that the total revenues—customs, internal and postal—will be \$78,578,384. The aggregate appropriation is \$60,000,000. In excess of that for last year, Mr. Tawney's comments as follows on the volume of the appropriations:

"While the expenditures of our government are constantly increasing, and while the appropriations made therefor by Congress are in the aggregate very large, yet when we take into consideration the marvellous growth of the country, the extent to which the people demand that the Federal government shall perform services that should be paid by the States, none but the unthinking or misguided, who do not stop to consider the care with which the estimates for appropriations for the public service are scrutinized by the several committees having jurisdiction of bills, can find any reason to criticize the appropriations made during this session of Congress."

Gabbiest Congress Ever. (Special to The Times-Dispatch.) WASHINGTON, July 2.—This has been the gabbiest Congress since the foundation of the government. The Congressional Record exceeds 10,000 pages. Some 20,000 words have gone into the Record in the last seven months, an average of 10,000 words each legislative day. This is at the rate of 25,000 words an hour five hours a day, or 41 words a minute. Of course, the official reporters are seldom called upon to write at this rate, but the average is maintained by reason of the habit of members of "extending their remarks in the Record."

The official reporters were paid for their work at 25 cents a hundred words, they would have earned \$50,000. Had the 20,000 words been written for a magazine at two cents a word, the writer would have made \$400,000. The Congressional Record is a book two and a half feet thick, weighing forty pounds.

The greatest previous session for talk was in the Fifty-first Congress, when the Democrats made the historic filibuster against the Hepburn and the Dingley tariff bill was discussed.

BONDS FOR PANAMA CANAL ON MARKET

Block of \$30,000,000 Offered to Public by Secretary Shaw Yesterday.

(By Associated Press.) WASHINGTON, July 2.—Secretary Shaw to-day offered to the public \$30,000,000 of bonds of the Panama Canal loan, authorized by the recent act of Congress. The bonds will bear interest at the rate of 2 per cent, will be dated August 1, 1906, and interest will be payable quarterly. They will be redeemable at the pleasure of the government after ten years from date of issue, and will be payable thirty years from date.

The bonds will be exempt from taxes or from duties of the United States, and are available to national banks as security for circulation. They will not be sold for less than par; all citizens will have equal opportunity to subscribe for them, and the bids for them must be submitted to the department on or before July 20, 1906. They will be issued in denominations of \$50, \$100 and \$1,000 of coupon bonds, and of \$30, \$100, \$1,000 and \$10,000 of registered bonds.

The bids should state the amount of bonds desired by the subscriber, the place he is willing to pay and the place where he desires to receive payment, whether at the treasury of the United States or at the office of some one of the associated treasurers at New York, Baltimore, Philadelphia, Boston, Chicago, St. Louis, Cincinnati, New Orleans or San Francisco. All bids and requests for information should be addressed to the Secretary of the Treasury, Division of Loans and Currency, and the envelopes enclosing them should be plainly marked: "Bids for Panama Canal Bonds."

The bonds will be ready for delivery about August 1, 1906.

QUARRELED OVER FEW CENTS; ONE KILLED

(By Associated Press.) BIRMINGHAM, July 2.—Eras Owens, a clerk in a railroad construction commissary in this county, was shot and killed last night by an unknown negro, with whom he had a dispute over a few cents, which he claimed the negro owed him. The negro fired the weapon without warning, and fled. A posse is after him.

TERRIBLE ECZEMA ON LITTLE BOY

Mouth and Eyes Covered With Crusts—Face Itched Most Fearfully—Hands Pinned Down to Prevent Scratching

MIRACULOUS CURE BY CUTICURA REMEDIES

"When my little boy was six months old, he had eczema. The sores extended so quickly over the whole body that we at once called in the doctor. We then went to another doctor, but he could not help him, and in our despair we went to a third one. Matters became so bad that he had regular holes in his cheeks, large enough to put a finger into. The food had to be given with a spoon, for his mouth was covered with crusts as thick as a finger, and he would not open his mouth. He was so miserable that we were almost driven to despair. But, Lord be blessed, matters came differently, and we soon saw a miracle. A friend of ours spoke about Cuticura. We made a trial with Cuticura Soap, Ointment, and Resolvent, and within ten days of two weeks he was absolutely well, and his skin was smooth and white as ever before."

ALFONSO HORNATH, Cuticura Soap, Ointment, and Resolvent are sold throughout the United States. Write for the Cuticura Book, 15 Cent. Cuticura Soap, Ointment, and Resolvent are sold throughout the United States. Write for the Cuticura Book, 15 Cent.

China Matting Rugs, 6x9, \$3.50.

Large China Druggets, 9x12, with white centers, in large and small check borders; sale price, \$5.00 and \$6.00.

Charters Granted.

(Special to The Times-Dispatch.) RALEIGH, N. C., July 2.—The Buckeye Water Company, West Asheville, N. C., was chartered to-day, with twenty-five thousand dollars authorized capital stock. The incorporators are Julius C. Martin, R. P. and L. P. Hayes.

Other charters were granted to Rye Old Bottling Company, Charlotte; ten thousand dollars capital, and manufacturers selling and other carbonated soft drinks; J. H. Ross and others.

Dupham-Parrish Company, Hillsboro; general merchandise; twenty-five thousand; G. A. Durham and others.

Mrs. Sarah R. Johnson.

(Special to The Times-Dispatch.) LOUISIANA, July 2.—Mrs. Sarah R. Johnson, widow of the late P. A. Johnson, died Saturday at 4:30 P. M. in her seventy-fourth year. She had been in feeble health for some years. She was a daughter of Thomas Estlin, of Orange county, but spent the whole of her married life in Louisiana, where she was well known. She was buried in the family vault in the place formerly owned by her son, Mr. George H. Johnson, of Louisiana.

T. W. Graham.

(Special to The Times-Dispatch.) LEXINGTON, VA., July 2.—Thomas Williamson Graham, eldest son of Edward L. Graham, died Sunday morning from appendicitis, aged thirty-seven years. His funeral took place this afternoon from the Presbyterian Church, conducted by Rev. T. B. Southall and Dr. Charles Manley. Young Graham was a bright youth, a graduate of the Lexington High School, and was last week appointed to a State cadetship at the Virginia Military Institute.

A. T. Dobie.

(Special to The Times-Dispatch.) FARMVILLE, VA., July 2.—Miss Epsie Walthall, daughter of Mr. A. T. Dobie and Mrs. W. W. Walthall, of Prince Edward county, died last night after a short illness from typhoid fever. Miss Walthall was a graduate of the State Female Normal School, class of 1905, and during the past session taught school in Surry county.

Mrs. Kate McDonald.

(Special to The Times-Dispatch.) LOUISIANA, July 2.—Mrs. Kate McDonald died on Saturday at the residence of her son-in-law, Mr. Phil Barrat, at Cuckoo, this county, and was buried at Yanceyville on Sunday.

DEATHS.

BOWERS.—Died, July 2, 1906, at 9:30 A. M., at the residence of his parents, 719 North Twenty-second Street, WILLIAM HENRY BOWERS, infant son of R. A. and A. M. Bowers, aged six months and seven days.

Funeral from the residence TUESDAY, July 3rd, at 4 P. M.

CARR.—Died, July 2nd, 1906 A. M., at her home, No. 2428 Park Avenue, Mrs. ELIZABETH CARR, widow of John C. Carr, a bright youth, from St. Peter's Cathedral THIS MORNING (Tuesday) at 10 o'clock.

Funeral will be from Mount Vernon Church, upper Henrico county, July 3rd, at 12 M.

ROBINSON.—Entered into rest Monday morning, July 2, 1906, at 11:30 o'clock, at his residence, 725 North Fifth Street, EDWARD ROBINSON, husband of the late Catherine Robinson. Funeral services from the First Baptist Church WEDNESDAY MORNING at 11 o'clock. Friends and acquaintances are invited to be present.
